**100% A YEAR
FOR TWENTY YEARS
TO COW OWNERS**

★ ★ ★

That's the marvelously good investment that more than ONE MILLION satisfied users are finding the

DE LAVAL CREAM SEPARATOR

With three or more cows a DE LAVAL separator saves its cost the first year, in more and better product, and it may be depended upon to go on doing so for twenty years, as there are already thousands of instances to prove.

There's half this much saving in the use of a DE LAVAL over inferior separators, while other separators last but from six months to five years instead of twenty years. They lose half that might be saved while they do last.

That's the whole separator story in a "nut shell" and the reason for the now nearly universal sale of DE LAVAL separators.

A DE LAVAL catalogue may be had for the asking. Likewise the trial of a DE LAVAL machine.
