Paul Allan, Athens' only colored gentleman, has been somewhat troubled in his mind of late, imagining that some persons sought to take his life. On Saturday his malady manifested itself in such a way that it was thought better to place him under surveillance and he was conveyed to the House of Industry. Poor old Paul has earned a rest. On Saturday last, at the age of 91 years, he was engaged in sawing wood, and throughout the latter portion of his life, at least, he has always manifested a praiseworthy spirit of industry and independence.

ACCURACY

Absolute accuracy in dispensing your Physician's Prescription is of the first importance.

We appreciate this fully and consequently a duly qualified and experienced Chemist is always in charge of our dispensing department. No prescription leaves our store without being thoroughly checked by him. Likewise the drugs prescribed are always of the best, in fact of standard quality and purity. Greater care, better drugs, more skilled knowledge could not possibly be employed.

This, no doubt, accounts for the large increase in our Prescription Department, and the confidence which the public place in us.

Now that farmers have a good many rotting potatoes on hand which they cannot sell they need to be warned against feeding them to their milk cattle if they want a market for their butter. By feeding potatoes the flavor will be spoiled. Give the potatoes to the hogs, if need be, but keep them away from the cattle.

ADDRESS to MODELITES

The third series of addresses at the Model School, Athens, was delivered by the Rev. S. J. Hughes, M.A., on Thursday, Nov. 3rd. The leading topic of address was "The Importance of the Public School." The principal remarks were as follows: Having once followed the teacher's profession, the speaker had profound respect, sympathy and regard for all public school teachers. In later years, agreeable changes have been made in the public school curriculum, which have been very beneficial. One important feature of public schools is that they inculcate patriotism, dignity of citizenship and a love for the noble heritage which is ours to develop. What Canada needs to-day is patriots—men whose hearts will throb at mere mention of their country's name.

We have a great country as regards dimensions territory and government and possibilities for the future. Our great western wheat fields, our silver and nickel mines, our fisheries and our timber, are all to be developed. Therefore it requires brains as well as muscle to utilize such vast resources. After all, "Intellect is king," and training is indispensable. Our public schools are the most important factor as regards this training. Here the foundation is laid, and if the foundation is weak, the whole structure will be weak. Thus we see that in these important institutions we acquire tastes, and form and fix habits, which determine what kind of men and women we will be. The public school is important in preparing pupils for social and national life. It is here that the basic principles, which determine the whole after life, are laid. But the most essential factor in the school life is the teacher. His or her personality is everything. Nothing but a good teacher can make a good school. A true teacher will give to his pupils a true education, which implies right formation of character, the acquisition of culture, and self-control. A good teacher should possess character, training, purpose and tact. He must have a high ideal and an earnest purpose. A teacher must be above suspicion and reproach; he must put conscience into his work and thoroughness which is indispensable. Every good public school teacher must possess integrity, uprightness, good habits and good moral character. No one can ever stumble upon success, it must come through putting conscience and purpose into our life-work, whatever it may be.

After the address had been delivered by the reverend gentleman, Miss Maude Wiltse moved a vote of thanks to the speaker on behalf of the pupils. This was seconded by Mr. Ireland, after which the principal, Mr. C. E. McIntosh made a few closing remarks, which showed deeply his appreciation of the speaker's address.

A.M.S. EXECUTIVE, in behalf of the pupils.

Carry Sunshine

There are people in the world who seem to carry sunshine with them, and to radiate it on all around them. It is a pleasant thing to meet them when one is in trouble or perplexity. Their cheerful smiles go right to the heart, their hopeful words take the sting out of disaster, and the burden which weighed upon their spirit before they brought their reassuring council to bear upon its cause is lightened by their earnest sympathy. Blessed is the man who can call one of these comforters his friend; thrice blessed is he who can call one of these his wife. How the light of her brave love shines against the clouds of misfortune when they darken around him, spanning them as with promise bows, and prefiguring a happier future behind the gloom. No rightly-constructed man who has such a help-mate can ever despair.

WEDDING AT DELTA

A wedding took place at the Methodist parsonage, Nov. 2, at 3 p.m., the contracting parties being Mr. Wm. Jaquith of Delta and Miss Sarah Hutchings of Harlem. The ceremony was witnessed by Mr. Fred Hutchings and Miss Millie Hutchings. The bride was tastefully attired in a blue traveling suit with hat to match. The happy couple left on the 4 o'clock train for a trip in the west. On their return they will take up housekeeping in Delta.

Pains in the Back

Are symptoms of a weak, torpid or stagnant condition of the kidneys or liver, and are a warning it is extremely hazardous to neglect, so important is a healthy action of these organs.

They are commonly attended by loss of energy, lack of courage, and sometimes by gloomy foreboding and despondency.

"I was taken ill with kidney trouble, and became so weak I could scarcely get around. I took medicine without benefit, and finally decided to try Hood's Sarsaparilla. After the first bottle I felt so much better that I continued its use, and six bottles made me a new woman. When my little girl was a baby, she could not keep anything on her stomach, and we gave her Hood's Sarsaparilla which cured her." Mrs. THOMAS ISAACS, Wallaceburg, Ont.
