ess Office \_\_ Zditoria! Room voz. TUESDAY, SEPTEMBER 10, 1907. ONTARIO FOR REFORM.

Commenting upon the speech made by Mr. R. L. Borden in this city on

Saturday last, the Mail and Empire

Judging by Mr. Borden's opening meeting in this province, Ontario is enthusiastically favorable to the policy of reform which the Conservative leader is laying before the people. That such should be the case is but natural. We have had a small Laurier Government here This experience introduced us to the achine and its depredations at the public chest and in the polling booth. The dislodging of the improper politicians was a severe task. It took some years and a great deal of well directed effort. The change, however, has already repaid the province. Our people are free once more. They may vote as they please. They can make and unmake Govern-They can make and unmake Govern-en. It now rests with the people ments. They can rely upon it that to make his task a success. Ontario will be ruled in the public

interest, and not for cliques and grafters, at the will of corruptors and election thieves.

The results of the work done in the provincial arena — the reforms effected, the confidence that has been produced, the feeling of satisfaction that is universal — inspire the thoughtful citizen with the house that a similar victory over hope that a similar victory over evil may be achieved in the larger arena, where the wickedness and the crime are still more marked, Ontario's position is, as we have said, justified by experience. But it becomes the more reasonable when we reflect upon the attitude of the Ottawa Government towards this province and its people. Ontario complained of the improprieties practised by her provincial rulers, and the electors undertook to rectify the wrongs by ejecting the guilty men. great majority in Ontario declared that the Ross Government and its coteries were unworthy of con-

Three Men Dying at Cape Bauld Lighthouse From Poison.

Quebec, Sept. 9.—According to the report of the captain of a schooner which passed Cape Bauld three days ago, four men employed at a lighthouse, which is in course of construction there, died some days ago, after having drank some wood alcohol, and three others were dying. Instructions were immediately telegraphed to the captain of the steamer Aranmore, which was at Natashquan, to go there immediately and cross to Belle Isle to report as quickly as possible to the agent of the Department of Marine and Fisheries at Quebec. The latter does not expect any news before tonight or to-morrow merning. fidence, and ought to be excluded from public life. What is the answer of the Laurier Government to the people of Ontario ? When the late Government began its crooked election work, Sir Wilfrid Laurier at once rewarded its agent, Preston, by appointing him to a sinecure in England, When the South Oxford Jackson, who had worked in such an evil fashion for the Ontario machine, as our commercial agent at Leeds. When the great bribery case was revealed, and it was made clear that Mr. A. B. Aylesworth had been consulted touching the abandonment of the petition against Mr. Gamey, and had advised the Ross Governage of the surface of the petition against Mr. Gamey, and had advised the Ross Governage of the surface perjury case was exposed, the same and had advised the Ross Governa ment to get a written agreement to turn over from the supposed convert, Sir Willfrid fixed upon Mr. Aylesworth as a coming Minister, and ultimately appointed him to the position of Minister of Justice, When a Senatorship became vacant, Mr. G. W. Ross, the politician responsible for the dreadful work against which Ontario protested, was taken to Ottawa to become one of our lords. When an Ontario man was needed for the Dominion Cabinet, all the Liberal members of Parliament were passed over that George Graham, a politician who had defended the machine and its in-iniquities, who had tried to continue

transference of the Ontario machine transference of the Ontario machine to Ottawa. The men who have been dismissed by the province have been taken up by the Federal Premier and have been given positions of a more responsible character in Dominion politics. This is an insult to the people of Ontariol. It is a gross reflection upon their judgment. It is an intimation that the wrongs they condemned by provin-sial polities are acceptable to Sir Wilfrid Laurier and are to be re-paated under his auspices in the Fed-

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity: Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one Hundred Dollars for say case that it falls to cure. Send for list of testimonials.
