The Baptists of Centerville expect in the near future to begin work on the new church to be erected there. It is to be of modest design, with a seating capacity of about one hundred and fifty. At a recent meeting upwards of \$10,000.00 was subscribed, and the enthusiasm of those interested indicate a determination to carry the undertaking to a speedy and successful termination.

Rooms or offices to let about October first. Hot water heating. A. J. MCKENNA.

The many friends of Rev. M. P. Freeman are very sorry to know of a rather serious accident which he met with on Sunday evening last. While attending the service at the Tabernacle he tripped over a register in the floor and fell. His face came in contact with a chair and was badly cut and a finger was broken. THE ACADIAN offers sympathy and trusts our venerable friend will soon be recovered.

The water used in our fountains and sodas for all drinking purposes is from one of the best wells in Port Williams.

E. C. H. YOUNG.

Rev. Dr. Manning, of Wolfville, spent Sunday in the city supplying at the Baptist Temple and his many friends were glad to see him so hale and hearty. Dr. Manning was years ago pastor of the Goring Street Baptist Church and preached his farewell sermon there just twenty-seven years ago Sunday. He went from here to St. John and was in that city for fifteen years before removing to Wolfville—Halifax Chronicle.

Wolfville Methodist church minister, Rev. W. H. Watts, Sunday, October 5th, in the inaugural Day in connection with the great Inter-Church Forward Movement, and the services on the coming Sabbath will be given up to the consideration of the 'Spiritual Message of the Methodist National Campaign.' The Sacrament of the Lord's Supper will be observed at the close of the morning service, and also at the close of the afternoon service at Greenwich.

Before placing your order for Christmas Private Greeting Cards come in to see our samples. We have what you want.

A very enjoyable Missionary Service was held at the Tabernacle on Sunday evening last. Mr. C. A. Patriquin, superintendent of the school, presided and the attendance was large. Rev. Dr. Coibon, an old friend and generous supporter of the school, offered the opening prayer. The subject of the meeting was 'China.' Mr. Patriquin delivered an instructive address descriptive of that great country and Miss Annie Blackader gave a most interesting talk on her experience with Chinese people during her missionary work in Trinidad. Mrs. Craig, who recently came to Wolfville to reside, assisted with the music. Mrs. Craig has a sweet and well-trained voice and her singing was much enjoyed.

One of our seven water systems went on strike about three weeks ago, and nearly a dozen families are learning again how to bathe in basins instead of in bath-tubs. The system works a little at night and at early dawn, but 'lies off' during the day, and only the 'early birds' catch the bucket-fuls.

Three moves and a strike all in one week, constitute a record for lively proceedings in our usually quiet village. Sales of property and 'moving houses' have become so common here of late that those of us who have not yet moved or sold, fearing infection from this epidemic, go to sleep holding tight to our bedsteads lest we should awake to find we had caught the germ and moved during the night.

Mr. and Mrs. A. K. Forsyth have moved into their pretty new bungalow; Mr. Geo. L. Bishop has moved into the house he purchased from Mr. A. K. Forsyth; Mrs. H. H. Marshall is moving into the house just vacated by Mr. Geo. Bishop.

Other moves are being planned which will soon be accomplished, but we are glad that most of the people are only changing houses and will remain with us. New comers will be welcomed; and we hope they will discover that Greenwich is a good place to move into, though a bad place to move out of.

One of our young ladies, Miss Hilda Johnson, is to enter College this week.

Rev. Mr. Watts and Mrs. Watts spent last Monday at the home of Mr. and Mrs. Harry M. Neary.

Try To Get In!

Dame nature, speaking for the system, demands that certain lengths of pipe at the source be taken up, cleared of vegetable growths, and relaid. The farmers, thinking of profits and precedents, are baulking and going on doggedly at apple picking and other diversions, hoping that something will happen, or that the Handy Man will negotiate between them and the system.

But the Handy Man, who has settled all such disturbances for many years, has apparently grown 'weary in well doing', or else he is so thorough a democrat that he will not be an autocrat, even of a water system. He is probably right: and meantime the strike will continue until a united action leads to the fulfilment of Dame Nature's reasonable demands.

The many friends of Rev. R. F. Dixon in Wolfville and vicinity were very sorry to learn of his recent illness at the home of his daughter in New London, Conn., where he has been spending his vacation. THE ACADIAN is glad to know that his conditions have much improved, and that he expects to be able to return home in a few weeks.
