To Mr. George we accord our full est sympathy for his personal defeat. But the increase in both years over He has always taken more than ordinary interest in the political history of Westmorland, and should certainly have been competent to forecast the political horoscope with comparative accuracy; so there is room for wonderment that Mr. George would attempt to learn the science of politics at a period when one of the most vital.

The pessimists are herefore not the same period in the previous year. But the increase in both years over 1889 is even morths of 1890, the exports have expanded still more. As an evidence that trade is active, and our revenue is in no danger of diminution, it will be noted that the imports for the seven months are \$2.744,672 ahead of the present period.

The pessimists are herefore not at a period when one of the most vital questions that have ever been brought left a single l g to stand up n. large quantities of hams annually states as follows in the Empire:

The farmer and the cheese factories throughout the country have reaped a material benefit from hog raising and feeding during the past few years. The trade in them has increased to that extent that the Montreal Trade Bulletin recently stated that from December 1, 1890, to January 21, there were over 70,000 hogs marketed in Montreal as against about 40,000 during the same time a year ago. The business in this city has quadrupled within the last ten years, and there is but one reason why against about time a year ago. The business in this city has quadrupled within the last ten years, and there is but one reason why this increase should be maintained. We were paying a month ago, and would be paying now if the market-were not disturbed, \$6 to \$6.25 per 100 lbs. for dressed hogs, while in Detroit they are quoted at \$4 to \$4.20 per 100 lbs. for February 26 (live hogs were quoted in Chicago at \$3.20 \$3.50, whereas we would be paying \$4.50 to \$4.60 for them. We were paying for live hogs here last summer, as compared with prices in Chi.

-Mr. Barnum, of show celebrity, is now assuming the character of an educational benefactor. He has given \$65,000 to erect a new and handsome building at Bridgeport for the Bridgeport Scientific Society. Mr. Barnum says that he had intended to leave a legacyfun his will for the erection of the building, bot as the societies were both prospering and doing a splendid educational work, and might have to wait a good while for his estate to benefit them, he had concluded to make the donation now while he could witness some of the benefits of his gift.

Canada has again endorsed the policy of Sir John A. Macdonald Yesterday the noble son's of Canada rallied to his support and accorded him a majority of which he may well be proud. Although the returns are far from being full or complete, yet sufficient has been learned to warrant the supposition that the Conservatives will have a substantial majority in the new house of parliament. There are a few changes—some losses and some gains—but when the smoke of the battle has cleared, it will be found that there will be a majority of fully 25 Conservatives at the opening of the new house. The ministry suffers the loss of Minister of Agriculture Carling and President of the Council Colby.

Recent returns show the result to be about as follows: New Brunswick 14 govt, 2 opp. and 1 independent; Nova Scotia, 17 govt., 4 opp.; Ontario, 30 govt., 29 opp., 12 doubtful; Quebec, 39 govt., 29 opp., 12 doubtful; Manitoba 4 gov'., 1 opp.; N. W. Territory, 4 govt.; British Columbia, 5 govt.

In 1887 the returns were as tollows: Ontario, 56 govt., 36 opp; Quebec, 37 govt., 28 opp.; Nova Scotia, 15 govt. at the American sould not undersell it. There is no place in Canada at which the truth of such a statement could be ascertained, like a border town or city Messrs C. D. Hill & Co, whole-sale grocers, of St. Stephen in replying to a letter from Sc. John, make the following statement:

"In reply to a question as per wire to-day as to the comparative cost of flour in this town and Calais, and by way of explanation, thought we would write you about the matter and will give you as fair attement of the matter as we can, and will show to anyone that what we say in this matter is correct by actual business transactions on our books. The latest official trade returns for In spite of the most strenuous efforts January have been issued and one of put f rward by the Liberals of West-morland to bring about a different in spite of the predictions of the la ge morland to bring about a different result Mr Wood has been re-turned by the largest majority ever polled by a conservative candidate in this c unty, over Mr. George the defeated Liberal who will probably lose his deposit. There appears to have been marked tardiness in reporting the returns from some of the outlying districts, and therefore the full vote is not yet known. As it now stords Mr. Wood's majority is 1877 which will not be materially changed by fuller reports.

To Mr. George we accord our full in spite of the predictions of the la ge army of croakers, who predict and in stant collapse of Canadian trade as soon as the McKinley bill came in force, due ng Jaouary 1891 ur exports amounted to \$4,294,959, an increase of \$1,053,689 over 1890. The figures for the first seven months of the current fiscal year exhibit a similar satisfactory evidence of Canadian prosperity. In that period our exports amounted to \$67,136,169, an increase of \$650,549 over the figures of the same period in the previous year.

Apart from the farmers standpoint there is another feature that might just as well be taken into consideration. The number of hands employed directly in this industry has increased four-fold, and indirectly as much more—builders, machinists, coopers, box-makers, pail, tub and tin pail manufacturers, railway teamsters, coal handlers, etc., have all materially benefited from the increased business that has been done in this particular line.
