O carry me back to my childhood's hom Where the coins sarges reer, Where its hilless dash on a reck-board. And moan for ever more. Pit pitting away in a stranger's land, "Bettath a stranger's eye; O carry me home, O carry me home, O carry me home, O carry me home,

I sigh in vain for my native hills,

Their awest and balmy air.

Would waft away from my youthful brow
Each trace of gloomy care,

I sigh to breathe the air of home,

To gaze on its starry sky:

O carry me home, O carry me home,

O carry me home to die.

long to see my mother again,
And hear for sweetly asy,

** Could, wany dove, here's thy home,
Then fold thy wing and stay."

**Twould ease my pain to hear her voice,
When death had darkened my-eye:
O carry me home, O carry me home,
Q carry me home to die.

Then let me rest in a peaceful grave, Beside the lov'd and dead, For the quiet earth is the only place
To rest my weary head:
I would skep sweetly if you buried me there,
Beneath my country's sky;

O carry me home, O carry me home, O carry me home to die.

MISCELLANEOUS.

CONDITION OF THE JEWS IN THE EAST. —The war which is perhaps, at this mo-ment, thinning the ranks of Mussulmans and Russians, acts most remarkably on the Jews of Turkey and Russia. While the Rabbi of Constantinople has ordered prayers to be offered up in every synagogue throughout the Turkish dominion, beseeching for the success of the Otto-man arms; while Jewish legions and Jewish money are lavished with a free hand to aid the Sultan, the Jews in Russia are called on by ukase to supply men and find money to aid the Czar in his struggle. It is with them not a matter of choice; they have to kiss the rod that chastises them. More than one million em. More than one million Jews are subjects Hof the Czar, and have to submit to his will. The Rev. S. M. Isaacs informs us that letters have been received stating that a ukase has been issued by the Czar, prohibiting his Jewish subjects from sending any money for the relief of the poor in Palestine. This cruel edict will operate with terrible effect on the indigent Jews of Jerusalem, who have at all times received large con-tributions from Russia and Poland. The Rev. Mr. Isiacs remarks what a good thing it is for the Jews in the East that the Czar connot steel the hearts of the humane in the West.

A STARTLING PROPHECY.--The following rémarkable passage was written twenty years ago by the Duke of Ragusa, a Marshal of France, who died not long ago at Venice. It appears in his Memoirs, published before the commencement of the Turko-Russian difficulties:

"If an Anglo-French fleet passes the Dardanelles and arrives at Constantinople; if, at the same time, 50,000 men of the Alliance take up their position at Adrianople, the Russian squadron will retreat to Sebastopol, and will not again venture forth; if the Czar passes the Danube, and sends his army to the Balkans, he has to fight at once with the Balkans, he has to fight at once with the Turkish, French, and English forces; and by supposing the non-neutrality of the Court of Vienna, he is exposed to all the dangers of an Austrian army coming upon him from Transylvania."

This is a startling prophecy, even for a Marshal of France:

TUNNELING THE ALPS. We preceive by the foreign papers that the Council of the Canton of Ticino has decided, by a majority of 90 to 11, to give out the making of a tunnel through the Alps, from Lake Maggiore to Lake Constance, to unite the Picdmontese line with that of Central Germany. This tunnel will be sixteen miles (25,000 metres) in length, and is to be lighted and ventilated by fifty shafts of enormous depth.

ENGLISH QUEENS AND EUROPEAN

English Appens And European Wass.—Each of the queens that has sat on the English throne has had to wage an European war; though Mary lost Calais, the Virgin Queen Elizabeth successfully resisted the Invincible Armada; Good Queen anne brought the war with Louis XIV, to a close, which procured the recognition of the Protestant succession, various territorial concessions from France in America, Spain's resignation of Gibraltar and the pillars of Hercules, that stand as the portico to the Mediterranean Sound. Elizabeth opposed to the Spanish, Anne to the Bourbon, Victoria to the Muscovite universal monarchy—is not that a peculiar ordination of God? Victoria—it's a name that sounds well in the care of a nition and of all her allies. What champion does not look hopefully to Vactoria? Her victory this time will be the victory of peoples, the victory of all ascions.

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS-A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Muyor Boston, Lincolnshire.

Boston, Lincolnshire.

To Professor Hollowar,

Dear Sir, —Mrs Sarah Dison, of Liquorpond street,
Boston, has this day deposed before me that for a
considerable period she was severely afflicted with
Scrofulous Sotes and Ulcers in her arms, feet, legs,
and other parts of her body; and although the first of
medical advice was obtained, at the cost of a large
sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she precared a small pot, and a box of the
Fills, and before that was all used, symptoms of
amendment appeared. By persevering with the usedicines for a short time longer, according to the directions, and strictly adhering to your rules, as to diet,
&c., she was perfectly cured, and now enjoys the
best of health.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD FAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussez, dated January 12th, 1883.

To Professor Hollowar,

Sir,—I suffered for a considerable period from a evere attack of Erysipelas, which a length settled in my leg, and resisted all medical treatment. By sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pille. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg and restored me to the enjoyment of health. I shall ever speak with the atmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful Servant, (Signed) ELIZABETH YEATES. To Professor HOLLOWAY,

DREADFULLY DISEASED ANCLE CURED AFTER BEING GIVEN UP BY THE FACULTY, AT MALTA AND PORTSMOUTH HOSPITALS,

The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King-st., Norwich.

Mr. B. Dixon, Chemist, King-st., Norwich.

Copy of a Letter from Captain Smith, of Great
Yarmoulh, dated January 19th, 1883.

To Mr. Dixon,
Dear Sir,—I send you the particulars of a cure
officated by Professor Holloway's invaluable medicines:—Mr. John Walton, late in Her Majesty's Service, in the British Fleet at Malta, bad a very bad
ulcorreted ancle, and after having been in the MaltaHospital for six months, was sent to England as an
invalid to Portamouth Hospital, where he remained
an inmate four mouths, there, as at Malta, reflaining
to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a
medical gentleman for about three months, but his
ancle became so much werse that all hope was leet. medical gentleman for about three months, but his ancele became so much worse, that all hope was lest. At this period, by my advice, he tried Holleway's Oistment and Pills, which, by naremitted application, healed all the ulcers, and restored him to perfect health and strength.

I romain, Dear Sir, yours very truly, (Signed) JOHN SMITH, Albert Hotel, Great Yarmouth.

To Professor Hollowar,
Denr Sir,— I have great pleasure in forwarding to
you the particulars of a very extraordinary cure of a
had breast, effected solally by the use of your colebrated Ointment and Pills. Mr. Martha Bell, of Pittstreet, in this town, had been for a considerable time,
latoring under nervous debility, loss of appetite, and
general ill health, occasioned by ulcerated wounds in
the breast. She had had each experience in the use
of all the known remedies for the care of ulcera, but
without any beneficial result; in fact she had nearly
tost all faith and hope of a cure being effected. In
the distressing and pain'al condition of body and
mind, she was persuaded to have recourse to your
invaluable Ointment and Pills, which she immediately
did, and in the course of a very short time the effect
produced was used antonishing, her appetite was
speedily improved, and the sores and ulcera in the
breast gradually healed, and the nervous excitement
of her system was wholly removed.

I remain dear Sir, yours faithfully,
(Signed) T. FORSTER KER.

A YER'S PILLS,

A NEW and singularly successful remedy for the dure of all. Billious diseases — Contiveness, Indiagnation, Jaundice, Dropsy, Rheumatism, Fevera, Gout, Hanniers, Nervoussess, Irritability, Inflanumations, Headache, Pains in the Breast, Side, Back, and Limbs, Fennile complaints, &c., &c. Indeed, vary few are the diseases in which a Purgative Medicine in not more or less, required, and much siekness but effectual Catharite were more freely used. No person can feel well while a contive habit of body invarile; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is allie true of Colde, Feverish symptoms, and Billious damangements. They all tend to become or produce the does seated and formidable distempers which load the hearses all over the land. Hence a reliable family physics is of the first importance to the public health, and this Fill has been perfected with consummate skill to meet that demand. An extensive still of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. These Pills, the result of long investigation and etudy, are officed to the public as the best and most complete which the present state of medical acience can afford. They are compounded not of the drugs themselves, but of the medicinal whether only of the state of purity and combined together is such a manner as to insure the best results. This system of composition for medicines has been found, in the Cherry Pectoral and Pills both, to produce a more efficient remedy than, had hitherto been obtained by any process. The reason is perfectly obtained by any process. Albert Hotel, Great Yarmouth.

February 12th, 1802.

To Professor Hollowat;
Dear Sir,—I have great pleasure in forwarding to
you, the particulars of a very extraordinary circ of a
had breast, effected solely by the see of your celehad breast, effected solely by the see of your celemodificate known to the world.

At it, frequently expedient that may medicine the modificate known to the world.

proved more purely remedial, and the Pille a survey, more powerful autidate to disease than any other medicine known to the world.

As it is, frequently expedient that my medicine should be taken under the council of an attending Physician, and as he could not properly judge of a remody without knowing its composition. I have supplied the accurate Paranula by which both my Pentural and Pills are made to the whole looky of Passilioners in the United States and British American Provinces. If however there about the any one, who has not exceeded them, they will be promptly increased by insid to his address.

Of all the Patent Medicines that are officed, how two would be taken if their composition was known. Their life consists in their saystery. I have a mysteries.

Their life consists in their mystery. I have the mysteries.

The composition of my preparations is laid open to all men, and all who are compositent to judge on the subject, freely acknowledge (their convictions of their intrinsic merits. The Cherry Festerni was pronounced by actentific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticinations were more and healthy action—removes the obstructions of the stonach, bowes, liver, and other organs of the body, restoring their irregular action to health, and has convectine whenever they exist men decompo-ments as are the first arigin of disease.

Being ought wrapped they are pleasant to take, and being purely regetable, no harm out gives from their use in any quantity.

For minute directions, see the wrapper on the Box.
