**NOTICE--Super-Bargain Prices are for  
Wednesday Afternoons Only**

**A. D. FARRAH & CO.**  
Newcastle, N. B.

### MARITIME FREIGHT RATES QUESTION

Views of the Public to Reach  
Railway Board Before Aug. 16th.

Hon. H. A. McKeown chairman of the Board of Railway Commissioners said before leaving for Ottawa, Wednesday, that he could not say definitely whether or not the present reduced freight rate on potato shipments from eastern to Western provinces would prevail after the month of August, the time when this special monthly rates clause will have expired. He was accompanied by Mrs. McKeown.

He stated that the Board of Commissioners would not visit the Maritime Provinces in a body, but that they have requested the public to organize, form, companies and submit their views on

the Maritime freight rates matter in writing before the Board prior to August 16.

Hon. Mr. McKeown further stated that he did not expect any action would be taken regarding the communications received until fall.

### Millerton W. I. Monthly Meeting

The regular monthly meeting of the Millerton Women's Institute was held at the home of Mrs. John Hackett, Chelmsford, Thursday, July 16. The meeting opened in the usual way by singing "O Canada." Three visitors were present. Miss Nutter, supervisor of the Women's Institute, sent a paper to be read at the meeting on "The problem of the feeble minded." This paper was read by Mrs. W. A. O'Donnell. The meeting closed with the National Anthem.

### WILLIAM JENNINGS BRYAN DEAD

DAYTON, Tenn., July 26—William Jennings Bryan was discovered dead in bed here this afternoon by a servant. He had retired to his room in the early afternoon for a nap and was found dead at 4.30 o'clock. Mr. Bryan was born in 1860 and was 65 years of age.

Heart disease was given as the cause of his death.

### LESS SPEEDING

Since announcement last week that Mr. A. E. Quartermain of this town had been appointed patrolman on the highway bridge and Tarvia road, there is a noticeable difference in the speed of motorists. It is to be hoped that the good work will be kept up and thereby make this highway safe.

### ANOTHER ACCIDENT ON TARVIA ROAD

Another Sunday of perhaps early Monday morning accident occurred on the tarvia over the week end when a car, stolen from the garage of G. P. Burchill, South Nelson, crashed into the culvert near G. E. Fisher's farm between 12 o'clock and 1 o'clock in the morning.

How many were in the car is not known, as yet, though the authorities are working on the case, but Louis Williams of South Nelson was very badly hurt and had to be conveyed to the Hotel Dieu hospital by Greg McEachren who passed along a few minutes after the accident. Word from the hospital stated that Williams was very badly cut.

The car had been taken out of its garage sometime after 9 o'clock Sunday night. It is pretty badly wrecked with windshield gone, front axle bent and fender crumpled up.

### CONDITIONS ON NORTH SHORE REPORTED GOOD

Chief scaler A. T. Murchie returned to Fredericton Friday night after spending several days on the North Shore on official business. He states that the country looks well with crops in good condition potatoes looking particularly well.

Mr. Murchie says that the cut of last season which reached the saw-mills is about half manufactured. Chatham owing to local conditions has had no milling this season but adjoining places have had mills running steadily.

**Pulpwood Operations**  
The Snowball interests have cut much budworm and fire damage pulpwood on the Tabusintac selling it to the Fraser interests. It is possible that if rail rates are satisfactory that there will be extensive operations in pulpwood in the area covered by the 1923 fires, for the Edmundston pulp mill of the Fraser companies.

**Preparing For Logging.**  
Cruisers are now in the woods lining things up for the ensuing logging season. Some crews will be in the woods next month preparing for those to follow them and supplies already are going in.

**Potatoes Good in North.**  
O. C. Hicks of the Soils and Crop Division of the Provincial Department of Agriculture also has returned from the North Shore. He states that from a farming viewpoint that part of the Province looks well. Potatoes are better than in other sections the missing reported from the Upper Saint John and other parts not occurring there.

### OPPOSITION CANDIDATES SELECTED AT CONVENTION

The Opposition party in Northumberland county met in convention here Friday afternoon and nominated S. D. Heckbert, of Chatham; J. Leonard O'Brien, of Nelson, Akery Holmes, of Doaktown and Frank Lavole, of Rogersville, as its candidates in the Provincial elections to be held on August 10th next. Eight names were submitted to the convention, the other four being Dr. W. B. Jones, of Chatham, C. E. Fish Newcastle; Mederic Chaisson, of Rogersville, and W. A. Bamford, of Doaktown. A single ballot sufficed, as the four men above mentioned secured a majority of votes in the convention. E. W. Watling, of Chatham, and D. P. Doyle, of Newcastle, also were nominated but both withdrew for personal reasons. After the ticket had been named the convention was addressed by Hon. Dr. J. B. M. Baxter, leader of the Provincial Opposition party. He gave an outline of the Opposition party's policy and strongly scored the Veniot government for its extravagance. The four successful candidates for nomination also gave short addresses, thanking the convention for the honor conferred upon them and expressing confidence in the outcome of the campaign.

The convention opened in the opera house about two thirty o'clock. The accredited delegates in attendance numbered one hundred and seventy one.

The gathering was called to order by A. D. Holyoke, Provincial organizer of the Opposition party. He explained the purpose of the convention and asked that a chairman and secretary be named. On motion John Betts of Millerton, was appointed chairman and Thomas Maltby, of Newcastle, secretary. The chairman made a short address expressing his confidence in the successful outcome of the elections. Mr. Holyoke then informed the convention that it was the wish of the Opposition leaders that only the names of those opposed to the present government and supporting the policy of Hon. Dr. Baxter should be placed before the convention for nomination.

After the various candidates had named scrutineers, the balloting was proceeded with the result of the first ballot as follows:  
J. L. O'Brien—146.  
S. D. Heckbert—135.  
F. J. Lavole—124.  
A. Holmes—92.  
C. E. Fish—73.  
W. A. Bamford—42.  
W. B. Jones—37.  
M. Chaisson—35.  
The first four were declared elected, having secured a majority of votes, on motion the vote was made unanimous.

### NEW FISH HATCHERY FOR MIRAMICHI

The Department of Marine and Fisheries has been urged by T. W. Caldwell, M. P. for Carleton-Victoria, to construct an up-to-date fish hatchery on the headwaters of the Miramichi. In answer to his requests he has received the following letter from the Minister of Marine and Fisheries.

Ottawa, July 17.

Dear Mr. Caldwell:—  
After careful consideration of the whole situation and the requirements in the way of salmon and trout fry on the central part of New Brunswick, and in view of your urgent representations, I have decided to authorize the construction of an up-to-date salmon and trout hatchery in that district, located at a point where it will best cover the numerous waters in conjunction with the existing main hatcheries at Grand Falls and Saint John, and the subsidiary hatchery on Tobique River.

Plans and specifications are now being prepared and construction will be undertaken as soon as the necessary preliminary arrangements have been completed for a hatchery of upwards of three million egg capacity.

Yours very truly  
J. P. ARTHUR CARDIN,  
Minister of Marine and Fisheries.

### PREPARING FOR GENERAL ELECTION

A short but vigorous campaign with candidates and supporters aroused to an unusual degree of activity and excitement has already begun, and will continue to the eve of the provincial election, Aug. 10th. At the present time both government and opposition organizations have exceptionally large clerical staffs attached to headquarters. For over a week past the task of getting all possible names placed on the voters' lists have been pursued with vigor, and prior to that, for a considerable period, opposition workers had made pretty thorough surveys of the county. Both parties of late, however, have been working at top speed, energetic efforts made, especially to get all women voters possible on the lists. With this end in view canvassers have been sent to all sections and great numbers of registration cards filled out. The women voters in the present campaign have been eagerly sought after and many of them in turn have become enthusiastic. They will play an important role on voting day and in the days that still intervene before election. With the closing of the period Saturday, in which names could be added to the electoral lists, this phase of organization work ended and this week candidates take the tide of oratory which is hoped will carry them into the haven of the legislative halls at Fredericton.

The campaign promises to be both "peppy" and personal and many will be told what they want to hear, believe what they want to believe, and grow indignant at what may be true but "unpartyotic." Voters will be instructed and then re-instructed, party and progressiveness, province and partisanship, hydro, pasteurized milk and "boose" will all be tossed into the political pot and the voter left to select what he likes best. Out of it all will emerge the solution of the people.

### The Financial Post

Featured on its editorial page, June 26th, the success of Mohr in making chocolates of such quality that "a firm located at the extreme eastern end of the Province of Canada has been able to capture markets in every

section of Canada, overcoming handicaps of watersheds and distance from markets." Another extract: "The presumption of a Canadian concern trying to sell chocolates in a country (England) famous for chocolate manufacture was viewed with dismay, but in the end the market was captured. Mohr's Chocolates today enjoy a good share in the Old Country."
