Since the war began in 1914 up to March 1st, when S.S. Belgic disembarked her returned soldier passengers at Halifax 757, 400 troops have been carried on special trains over the Canadian

Government Railways.

The first train which carried troops over the Government Railways the year the war was declared was numbered one and all special troop trains to and from Halifax since that time have been numbered consecu tively. The last train from the Belgic on Saturday was No. 1279. Each train averages about twelve cars with an average of 50 men to a car, which figures up a tional insurance to ade- total of 767,400 men carried. Of course in addition to this thou ands of soldiers have journeyed between Montreal and Halifax by regular trains during the past

S. S. Megantic with soldiers and dependents arrived Wednesday and S.S. Adriatic is due Sun day. The movement of returning men is to be kept up actively

The process of disembarkation at Halifax is being carried on without a hitch, and there is a fine system of co-operation between the Military and the Rail-
