

Farm and Garden.

A BOVINE ARISTOCRAT.

Richard Hawley, of Detroit, Mich., who has a fine stock farm near Goderich, Canada, is fast acquiring a world-wide reputation as a breeder of short-horns. The leader of his fine herd is the famous bull "Beaconsfield," which took the first premium in his class at the last Michigan state fair. This animal is not the color which was recently "all the rage" among short-horn breeders, but is pure white. He is only three years old, but weighs 2,360 pounds. He is of good family on both sides. His sire was third Earl of Goodness; grand sire the renowned British Baron, bred by Col. Tostly of Lancashire, England; his dam is a pure Bates cow; grand-dam Lady Goodness, going back to Master Buttery. It is believed that "Beaconsfield," like his illustrious namesake, is superior to any of his ancestors, and his owner, in the opinion of some of the best Canadian and American breeders, is destined to produce a better strain of short-horns than is now in existence.

The above paragraph is from the pen of Prof. Welch of the Chicago Times. To this may be added these opinions of several well known short-horn authorities concerning the head of Mr. Hawley's herd:

"Beaconsfield" is a better bull than his grand sire the British Baron.—(Col. John B. Taylor.

He has a wonderful display of milk points.—(W. F. Clark, agricultural editor, London Advertiser.

He is a good representative of any family.—(George M. Bedford of Paris, Ky.

He is an elegant and grand bull.—(Hon. David Christie, ex-president of the American short-horn association.

He is a very massive animal, with rather fine bones, and very just proportions.—(R. F. Johnston.

I think he is the finest bull that I have ever seen.—(William Smith.

I have been out to inspect your herd, and find the magnificent Beaconsfield (for such he really is) in fine condition.—(Francis Graham.

Mr. Hawley's aim has been to develop a new strain of short-horns that shall excel alike in the production of milk and beef. He believes that these characteristics are not incompatible but naturally blend in the well bred short-horns. The bull Beaconsfield, which he has the credit of breeding, elicited universal admiration at the state fair.—(Detroit Post and Tribune.

THE GAME LAW.

The following list is taken from the Statutes of Ontario, 1880, as published by the authority of the Legislature, and it may be relied upon as correct. It will be found particularly interesting at the present time:

None of the animals or birds hereinafter mentioned shall be hunted, taken or killed within the periods hereinafter limited:

Dear, elk, moose, reindeer or caribou, between December 15th and October 1st. Grouse, pheasant, prairie fowl, or partridge between January 1st and September 1st. Wild turkeys or quail between January 1st and October 1st. Woodcock between January 1st and August 1st. Snipe between January 1st and August 15th. Waterfowl, known as mallard, grey duck, black duck, wood or summer duck, between January 1st and August 15th. Other ducks, swans or geese, between May 1st and August 15th. Hares between March 1st and September 1st.

No eggs of any of the birds above mentioned shall be taken, destroyed or had in possession of any person, at any time.

No beaver, muskrat, sable, martin, otter or fisher shall be hunted, taken, or killed or had in possession of any person, between May 1st and November 1st, except in defence or preservation of property.

Penalties for killing the above animals or birds out of season:—Deer, elk, moose or caribou \$50, or not less than \$10 with costs for each animal; birds, \$25, or not less than \$5 with costs for each bird or egg; fur-bearing animals mentioned in Act, \$25, and not less than \$5 with costs for each offence.

An experiment in prohibition is being tried at Liverpool on a pretty extensive scale. Lord Sifton and Mr. John Roberts, M. P., have agreed to prohibit the sale of liquor in any shape on land laid out for building purposes by them in the south of Liverpool. For some years past new streets have been springing up over this area, and it is estimated that, when the whole ground is covered, there will be some 50,000 persons living in the district where not a drop of liquor can be sold or bought. What are the results so far? Mr. Roberts declares that he has never had a word of complaint from owners or occupiers of houses in the district on account of the absence of liquor shops. The respected Chairman of the School Board, has publicly called attention to the fact that the working classes are rapidly migrating from the districts where public-houses are thick on the ground to this prohibitory district. The head constable reports that his officers have very little to do on this ground, where there are no public-houses. The medical officer reports that the death rate is exceptionally low in the district. The feelings of the inhabitants in the district towards prohibition may be gathered from the fact that when, the other day, application was made to the licensing authority for a house on the borders of the ground prohibited, the court was crowded with residents around, who opposed the application, and it was refused by the Bench accordingly. These facts speak for themselves and need no comment.

"Is your throat sore, or are you annoyed by a constant cough? If so, use promptly "Bryan's Pulmonic Wafer." They will give you instant relief. They relieve the air passages, loosen the mucus, and all the inflammation, and no safer remedy can be had for coughs, colds, or any complaint of the throat or lungs, and if taken in time their efficacy will soon be proved. Sold by all druggists and country dealers at 25 cents a box.

NOW IS THE TIME

To start card parties. To put down your sauerkraut. To tack on your winter strips. To don your winter underwear. To call in light colored neckties. To count in the buckwheat cake. To plant holiday advertisements. To get your apples in the cellar. To lay out a course of winter reading. To begin thinking up Christmas gifts. To test the virtues of hot sausage. To eat a finely blanched Endive salad. To repair leaky roofs before snow lies. To pin the autumn leaf upon the wall. To admire the ladies' new winter bonnets. To shove off your tailor's bill till January.

To catch black bass before he gets frozen in. To look at a partridge over the rib of a good gun. To pick out and hang up your Christmas turkey. To get the "bobs" in order for coasting parties.

To think of those hyacinth bulbs, for winter blooming. To warn your cook not to get too much sage in the stuffing. To have your spike tail coat put in order for the society campaign.

To stop the twitter of the fall woodcock before his tribe has entirely migrated. To devise some means of stopping the symphony of the nocturnal canine. To recollect that the turkey is at his best when artificially puffed out with a purse of chestnuts.

To send in your newspaper subscription for next year accompanied by cash in advance.

COLD TYPE.—It would astonish some of our best orators to see their speeches verbatim at literature in the next day's papers. It would disgust them, also; and they would denounce the reporter. Nor would any such reporting be fair to the paper's readers. Only those who know nothing about a reporter's business think reports just what is said. They don't know that he finishes sentences which the orator, in his hurry and excitement, has left unfinished; that he disentangles metaphors, suppresses repetitions, corrects bad grammar, remedies slips of the tongue, rectifies errors in names and dates, patches up half-remembered quotations, and the orator, reading his effort in the next day's paper, thinks he did pretty well, and so he did; but there is a great great difference between hot speech and cold type, and what would have sounded very well in the former, would have looked anything but well in the latter. Yet the alterations are only to the reader and to the orator. The only thing we would remark is, that where reporters make one mistake, speakers make a hundred, which the reporter instinctively, or as a mere matter of business, corrects and says nothing about.—(San Francisco Chronicle.

Dr. Pierce's Golden Medical Discovery cures every kind of humor, from the worst scrofula to the common pimple or eruption.

Four to six bottles cure salt rheum or tetter.

One to five bottles cure the worst kind of pimples on the face.

Two to four bottles clear the system of boils, carbuncles, and sores.

Four to six bottles cure the worst kind of erysipelas.

Three to six bottles cure blotches among the hair.

Six to ten bottles cure running at the ears.

Five to eight bottles cure corrupt or running ulcers.

Eight to twelve bottles cure the worst scrofula.

Sold by druggists, and in half-dozen and dozen lots at great discount.

How to Get Rich. The great secret of obtaining riches is first to practice economy, and as good old "Deacon Snider" says, "It used to worry the life out of me to pay enormous doctor's bills, but now I have struck it rich." Health and happiness reign supreme in our little household, and all simply because we use no other medicine but Electric Bitters and only cost fifty cents a bottle.—Sold by F. Jordan.

A Great Chicago Enterprise. The Laboratory for the manufacture of Electric Bitters is one of Chicago's greatest enterprises, giving employment to a large number of hands. The extensive sale already attained for this wonderful remedy is astonishing. Wherever once introduced and becomes known, it is almost impossible to supply the demand, because of their true merit—curing where all others fail—and at a reasonable price (fifty cents).—(Exch. Sold by F. Jordan.

Is Just a Begonia. Such is the expression from all Druggists and dealers everywhere who are selling Dr. King's New Discovery for Consumption. No like preparation can have such an extensive and rapid sale. And why? Simply because of its truly wonderful merits. No Cough or Cold, no matter of how long standing or how stubborn, can resist its healing qualities. Asthma, Bronchitis, Hoarseness, Hay Fever, Pain in the Side or chest and difficulty of breathing or any lingering disease of the Throat and Lungs rapidly yield to its marvelous powers. It will positively cure and that where everything else has failed. Satisfies yourself as thousands have already done by getting of your druggist, F. Jordan's, a trial bottle for ten cents, or a regular size bottle for \$1. For sale by F. Jordan.

TAKWORTH, Ont., March 4, 1880. For twenty-three years last past, I have sold Perry Davis' Pain-Killer, and have always found it to give good satisfaction. I have frequently used it in my family, and received great benefit from the use of it in that way. Although many imitations of it have been put on the market, and are pushed hard, yet the old, reliable Perry Davis' Pain-Killer holds its own, and is a very popular domestic medicine.

Yours respectfully, JAS. ATWORTH.

See advt. in another column.

Best Salve in the world for Cuts, Bruises, Burns, Ulcers, Chapped Hands, Chilblains, Corns, and all kinds of Skin eruptions.

This Salve is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per box. For sale by F. Jordan, Goderich, Illinois.

Cure of Drinking. A young friend of mine was cured of an insatiable thirst for liquor, that had so prostrated his system that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst; took away the appetite for liquor; made his nerves steady, and he has remained a sober and steady man for more than two years, and has no desire to return to his cups, and I know of a number of others that have been cured of drinking by it.

From a leading R. R. Official, Chicago, Illinois.

New York Butter Market. In reporting the market prices for butter, the New York Tribune, of May 20th, said, "Choice packages to the retail trade reach 19 to 20 cents, but light colored goods are hard to dispose of, at 8 to 10 cents. This stern logic of dollars and cents is rapidly convincing dairymen that they should use the Perfection Butter Color made by Wells, Richardson & Co., Burlington, Vt. It gives the perfect June color the year round and dairymen that use it never send light colored goods to market.

THE DAYS OF MISERY AND NIGHTS OF UNREST endured by the sufferer from a persistent cough soon sap the vitality of the system and wreck the constitution. Such a catastrophe can only be avoided by precautionary measures. Prevent the climax of a cough with Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda—approved in professional quarters, and which is a combination of the purest and most salutary ingredients in perfect chemical harmony. Coughs, colds, arynitis, incipient bronchitis, and other affections of the respiratory organs, are speedily relieved by it, and it has likewise proved to be a useful specific in scrofulous maladies. The loss of strength consequent upon being diseased is checked and the flagging physical energies restored by its invigorating action. Phosphorus, the active principle of the hypophosphites, not only supplies the system with an important element of strength, but gives a healthful impetus to the circulation. The lime and soda also act as a brace of the frame. In wasting diseases of all kinds, this preparation can be depended upon to produce a beneficial effect. A fair, persistent trial, is all that is necessary to prove its potency, either as a pulmonary or general invigorant. For poverty-stricken individuals, it is a sovereign remedy, promoting the acquisition of both strength and flesh. Prepared by Northrop & Lyman, Toronto, and sold by all druggists.

AS SURELY AS EFFECT FOLLOWS CAUSE so surely will disease eventually fasten itself upon a system deficient in vital energy, if tonic medication is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no restorative of lost flesh, nerve power and cheerfulness, is not resorted to in time. The necessary tendency of a weak discharge of the functions of the body is to disorder its organs.—Invigoration, prompt and thorough, is the only safeguard. Non-convalescent depleted physical energy, no rest
