## Successful Logging Season.

AT RED INDIAN LAKE.

From a correspondent at Tuck's  
River, Red Indian Lake, we learn  
that the cut of logs for the past sea-  
son has been exceptionally good, and  
that logging conditions generally  
have shown a vast improvement over  
previous seasons. Our correspondent  
takes occasion to congratulate the  
manager of the company on the suc-  
cess achieved since his taking charge  
last fall. To his energy and earnest-  
ness in the interests of the company  
and its employees, is due the general  
improvement which has resulted  
satisfactorily to the employees and  
the company. Quite a number of men  
were employed, and taking every-  
thing into consideration, the weather  
was all that could be desired for log-  
ging.
