Experience Teachers.

The ruin of Germany dates from its
ection from France of an indemnity
t afforded a large profit on the cost
the war. Even since that time the
man people have been perfectly
vinced that any war they might en-
age in would be short and highly
unlucrative. They know better now
experience is an expensive teacher.

FAVORS IMPERIAL PREFERENCE.

LONDON, May 2.
(Via Reuter's Ottawa Agency.)—
Reuter's learns that there is a general
feeling of satisfaction in Dominion
circles, in regard to the movement
towards Imperial preference. Sir
George Perley, High Commissioner,
said the Government and people of
Canada will be much pleased at
Great Britain adopting the principles
of Empire preference. He was of the
opinion that it would cause increased
trade between the various parts of
the empire, and afford Canada an op-
portunity of supplying goods to the
British markets, which formerly came
from enemy countries. Sir George
said it was a step towards making
the empire self-supporting. Mr.
Schreiner, Agent General for South
Africa, said that all parts and all the
people of South Africa would wel-
come this first step in a direct direc-
tion in which they had long hoped to
see the mother country moving. It
afforded an opportunity for South
African wines and spirits, and would
likely be productive of great benefit.
He hoped the step would result in
strengthening empire relations. Mr.
MacKenzie, Agent General for New
Zealand, said the step was in the di-
rection of the aspirations of New Zea-
land, and hoped the new departure,
which at present was limited, would
develop. Anyhow, it would enable the
British people to negotiate with other
nations on a more equitable basis.

INTERESTING (?) DETAILS.

LIVERPOOL, May 2.
(Reuter's Ottawa Agency.)—At the
court martial, in connection with the
Kilmel Park Camp riots today,
Signaller James Parkhouse, Omana-
can reserve artillery, was acquitted of
a charge of joining in the mutiny and
failing to use his best endeavor to
suppress it. The only direct evidence
against the accused was given by
Lieut. McCormack, who deposed he was
another one "trying to make his get-
away." Private John Crane, of the
Forestry Corps, pleaded not guilty to
similar charges. Witnesses for the
prosecution stated that Crane was
found lying on the ground, bleeding
from a cut in the head, in the midst
of the mob charged by the picket,
when the mob attempted the rescue
of the prisoners from the guard room.
Accused said he had spent the even-
ing drinking beer in the canteen until
closing time. When afterwards he and
his comrades started to sing songs out-
side, and began drinking two buckets
or beer they had brought out, they and
a big noisy crowd, nearby, dispersed
when they saw the military police.
He was hit on the back of the head and
was unconscious. The court called
for character evidence.

POWERS TO CONTROL CABLES.

PARIS, May 2.
At a meeting of the Three Council
to-day, it was decided that provi-
sion would be made for the disposition

yond specifying that they are to be

mans and left in control of the five
Great Powers.

dications, to-day's newspapers say.

by the Government in November last
were restored to private ownership and

Eupen, in Rhenish Prussia, will be

CHINESE DISAPPROVE.

PARIS, May 2.
Chinese delegation to the Conference
issued a statement this afternoon re-
garding the decision of the three
council concerning Kiao Chau, which
decision the statement says, gives
Japan practical control of Northern
China, and the delegation cannot but
view the decision with disappointment
and dissatisfaction.

WILL START SOME TIME.

NEW YORK, May 2.
At eleven thirty "some morning in
Newfoundland" the U. S. Navy's Trans-
atlantic Seaplanes will "hop off" on
flight to Azores. This was learned at
Rockaway Point Station to-day and
means that planes will travel all of
one night.

New Zealand Crew Won.

NEWFOUNDLANDERS SECOND.

PARIS, April 27.—The New Zealand
crew defeated the crew from the
United States in the final heat of the
regatta on the Seine to-day for the
trophy offered by the Rowing Club of
France. The winners of the first two
heats competed in the final heat. Six
teams were entered and four partici-
pated in the final.
In the first heat the French team
finished first; Newfoundland second
and Portugal third. In the second
heat New Zealand finished first;
American second and Alsace-Lor-
raine third. The distance rowed was
about one mile and a half from the
Pont Royal to Alma Bridge.
Despite the unfavorable weather it
is estimated that 500,000 persons lined
the banks of the Seine to witness the
race.

Put Clocks Ahead.

At ten o'clock to-morrow night, the
Signal Hill gun will announce the
time to put forward all clocks, when
the hands must be advanced to 11
o'clock, or just one hour.

The Crime Wave.

Apocryph of the crime wave now
spreading over the world it is inter-
esting to read what the London Lan-
cet has to say in a recent number on
the post-war problem of psychopathic
criminals and the importance of
adopting a suitable form of treat-
ment in dealing with subjects coming
under this heading:

"Large numbers of men will be
returning to this country or will be
coming out of the military hospitals
while still suffering in some degree
from mental and nervous disabilities
brought about by the unexampled
stresses of modern warfare. It may
be anticipated with a fair measure
of assurance that in many cases the
mental enfeeblement of these in-
valids will be manifested by disorders
of conduct of more or less gravity,
bringing them into conflict with the
law; and several instances of this
kind have, in fact, come before the
criminal courts within the last few
weeks. Public opinion will not tol-
erate the treatment of these war vic-
tims by the indiscriminate methods
which have been applied to the gen-
eral mass of law-breakers. The de-
mand will certainly be made that in
every such case full consideration
should be given to the mental con-
dition of the offender, and that he
shall be dealt with on curative lines
adapted to his individual needs, and
not merely by the stereotyped puni-
tive and repressive measures which
up to the present have been the sole
resource of the law. To satisfy this
demand, which can obviously be urged
with no less force in regard to other
categories of psychopathic delin-
quents, it will be necessary to in-
troduce an entirely new spirit into the
system of procedure in criminal cases
and to recognize to a far greater ex-
tent than in the past the importance
of the help which the expert in morbid
psychology can give in the adminis-
tration of justice."

Germany Must Pay.

Belgium's bill for damages in
35,000,000,000 francs and all the other
Allies and their subordinates will
demand billions of pounds and dollars.
It is expected that Germany and the
parts that have broken from her will
be given thirty years to pay the debt.
This generation in the chief enemy
land will have cause to remember the
great war. It will be good for the
world if the price does not eventually
create a desire to escape the penalty
and a thirst for revenge.—Montreal
Gazette.
