I have no record of what passed be-A trial sent for 10c by N. C. Polson tween the Prime Minister and the Clarkflower on the following day. But I know that, although Dooley was not recalled from France, the famous beauty gave her cheque to the parliamentary "charity fund" just the same.

A marked change came over the Clarkflower after Hestmead's refusal to accept assistance from her in any way whatever. Her fits of abstrac tion lasted longer than previously, and her desire for excitement waned The excuse that she offered to herself and to her friends was that she was growing tired of English fashions and was pining for the society of her own countrypeople. She went back to Hestmead's quarters sooner than she herself had intended, but she found he had gone from London. She sent a messenger to Surrey on a disguised pretext, but found he had not returned there. She then engaged a private detective to find Hestmead's address for her, but his efforts forebode failure. During this time, the winter having come and gone, she herself went very little into society, and passed her time in reading or painting or in private rambles at the city's edge. People wondered at her change of demeanor and made it the subject of much gossip, the general conclu

sion being that she was very much in love with the handsome duke and was paving the way for a life of retirement with him, after the celebration of their nuptial union, which had been postponed until the following autumn in order that the duke's fiance might become better acquainted with

court customs. At length the detective brought her news of Hestmead and she was surprised anew at the eagerness which she evinced to hear about him The detective said Hestmead's health had caused the doctors grave apprehen always gain new hife, strength and vigor from their use.
