A BIG ISSUE.
With the object of introducing it to new readers, the Advertiser is sent to every citizen of London to-day. Its ordinary issue is read by many thousands of Londoners, and its circulation increases daily. There acon is easily given. The Advertiser is a perfectly independent journal, and it treats all public questions, whether relating to home or abroad, in a spirit of fairness. Just now, the all-important question is the election of Mayor, Aldermen and School Trustees, and as a matter of course the issue of the Advertiser to-day is largely devoted to the discussion of civic matters. As events come round, however, the Advertiser is just as ready to give the news about and discuss fully and fearlessly the great happenings of national and international import as it is to give space to purely civic discussion. The only question we ask is, Are the people interested in these matters? If so, they shall have full information relating to them at the earliest posreaders, the ADVERTISER is sent to every tion relating to them at the earliest possible moment, the swiftest telegraph companies and the readiest writers being ever employed to provide the daily budget of local. Canadian and world-wide intelli-

TRULY THE PEOPLE'S CANDIDATE mayoralty candidate purely to gratify his own ambition, though the position of Chief Magistrate in a city the size and importance of London is well deemed an honorable one, It is known that the call for his entry into the field came, without his seeking, from a large number of citizens of all classes, creeds and conditions. So strong was their

large number of citizens of all classes, creeds and conditions. So strong was their assurance of support shat Ald. Spencer was impelled to accede to their request, and it was universally conceded that he was in every sense of the torm fitted to preside over the deliberations of the Board of Aldermen for this year. This was so well tecognized by leading business map of the sity that citizen after citizen, on being requested to enter the lists against Ald. Spencer, firmly refused to do so. Among others who declined to run was Mr. Thos. Beattis, Water Commissioner George C. Davis, Water Commissioner George C. Davis, Water Commissioner George Edmund Meredith, Q.C., and Mr. A. B. Powell. These gentlemen, rightly estimating Ald. Spencer's strength, could not be prevailed upon to oppose him, said it was only on the day of nomination that Mr. E. T. Easery was brought forward.

This simple recited of the facts, apported by proofs as to the popularity of his caudidature from every para of the city, afords analomize grounds for the attement that Ald. Spencer is indeed and in truth The Peoples' Candidate. As is perfectly well known he is the nominee of no party or sique. In No. 4 ward, where he resides and is best known, he was returned as alderman at the top of the poell. His fellow aldermen at the cop of the poell. His fellow aldermen at once recognized his ability as a fluancier and as a successful business man, and nominated him for the cilice of finance minister for the corporation. In that capacity he has done the city splendid service in working out the details of the consolidation of the city issue. That has resulted in the reduction of the taxes, at one sweep, by three mills on the dollar per annum, as a look at the tax papers of the presunt year will bear testimony.

honor of Madame Bernhardt. Many of the lights of the political, legal and literary world were present. Madame Bernhardt wore a handsome pelisse of purple satin, fined with grey fur; but soon finding this doo warm, slipped it off, revealing a lovely tea gown of white satin, with gold embreidery, worn with a loose girdle of oxidized sliver falling very low in front in the new Russian fashion.

-London needs a Mayor that studies economy. Are not the taxes reduced this year? And have not contract scandals been entirely absent?

New York, Jan. 2.—A London special to the Herald says: There have been several serious interviews recently between Lord Salisbury, the Prince of Wales and Lord Charles Beresford with relation to a mysterious. Lord Charles Beresford with relation to a mysterious pamphlet which has been in circulation in high social circles for some time. It is a most virulent attack on the Prince of Wales, Lady Brooke and others. Only 57 copies of this pamphlet were issued, and they were written because the author could not get a printer in London to do the work. The pamphlet has been freely canvassed and discussed, so openly, indeed, that among others the Duchess of Mauchester, after a luncheon party read it aloud to her guests.

The result of the conference between the Prince of Wales, Lord Salisbury and Lord Charles Beresford has been that a most

Row gang in East Sixty-Third street—toughs every one of them—and he met a tough's fate when he attacked Thomas Nolan, a saloon-keeper of First avenue and Fifty-Thirdstreet.

Thursday night Davey, an Englishman, 22, and four others of the Battle Row gang, went into the saloon kept by Nolan. Thos. Nolan was behind the bar. "Give us a drink," said Davey. Nolan refused, and the gang said they would have it anyhow. They made about for the back of the bar, Davey in theiland. He drew a slungshot and raised it. As he stepped behind the bar Nolan raised his revolver and fired.

The wounded man sank back with a groan. His companion hastily took him to utside and down to the East River trent. Policeman Barnes found Davey, took him to the police station and thence sent him to Believae, where the doctors said he could not live.

Why It Is Popular.

Ireland.

London, Jan. 2.—The Globe, which for more than 60 years supported the Liberal party, but which since 1866 has been a staunch Conservative organ, to-day says that the explosion at Dublin Castle was undoubtedly of malicious origin. "Possibly Ford, Sullivan and company deem it necessary to stimulate the generation." deem it necessary to stimulate the gener-osity of the American Irish in behalf of osity of the American Irish in behalf of the cause. There are men in the United States," the Globe declares, "who would not think twice of blowing up Dublin Castle, if that appeared to be the most likely means of filling their pockets with dollars." The Globe adds that the authorities should take all these facts into consideration, and should not be in a hurry to attribute the outrage to a lunatic. There are many professional dynamiters in the United States, it says, who would jump at the chance of a lucrative job.

United States, it says, who would jump at the chance of a lucrative job.

The St. James' Gazette, which is an independent supporter of the Conservative party, also has an article this evening on the Dublin explosion. It says that although there is no doubt that O'Donovan Rossa will assume the credit of instigating the explosion, it seems unlikely that the affair was the result of a political plot.

Press Comments on the Dublin Castle Explosion.

The Tories Endeavoring to Make Political Capital Out of the Incident.

Dublin, Jan. 2.—The Express (Independent-Conservative) commenting upon the explosion at Dublin Castle admits that it is impossible to attribute political motives to the affair. Not long ago, the Express, says an explosion would have been a good investment, and would have brought dollars from America, but since that time that style of political warfare has eeased to pay. The persons who were formerly engaged in dynamite politics have of recent years found their occupation gone.

The National Press, the organ of the McCarthyites, says it does not think the explosion can be attributed to an accident. It was undoubtedly the diagraceful and cowardly act of some blackguard, for which it would be unjust to hold the Irish people responsible. There is no doubt, the paper says, that the Tories will try to make political capital out of the explosion. They would be very willing to sacrifice a few panes of glass from the castle windows for the sake of being furnished with an argument against the granting of home rule to Irieland.

There are 250 pieces from France the new chinaware ordered by Mrs. Harrison for use at dinners in the Executiva Mansion. There are 250 pieces in the [set, and it is intended that the service shall be used for the first time at the Cabinet dinner on Jan. 29. Mrs. Harrison designed the plates, which are the handsomest ever used at the President's table. The patterns on the two larger sizes are golden ears of tasseled corn on a back-ground of imperial Prussian blue, which forms the rims of the plates. Encircling the inner edge of the rim and inclosed by a gilt band are 44 gold stars, while in the center of each plate is the coat of arms of the United States. Photographs were made of the famous war eagle, Uncle Abe, of Wisconsin, to furnish the pattern for the national bird, and beneath whose ontstretched pinions is the motto. "E Pluribus Unum," in raised letters of blue. Mrs. Harrison had stamped upon the back of each piece of this china in gilt letters "Harrison, 1892." None of the other tableware hitherto used at the Executive Mansion has been thus designated.
