LIFE..

If you are troubled with brain-fag, don't get alarmed. It is the fault of your diet. A/breakfast of Life Chips will give you a busy brain and that healthy activity of nerve that sends you to business hungry for work. The slow, unwilling gait of salesman, clerk or broker, goes with a heavy meat diet. The man who eats Life Chips does not wait for business to come. He goes a'ter it and gets it. It makes muscle, too. Try it for a week and note the result. The late government analyst says of it: "It contains every particle of the wheat, and is the most nutritious and wholesome
