Be Modern

At this advanced age of civilization we find it necessary to have all modern conveniences. Probably you suffered from the cold last winter through not having your house properly heated. Now, we wish to point out to you the fact that you need not go through the same experience again. Hot water heating is the only heat for the home. It is economical and clean, healthy and sanitary. Be sure you give the matter an unbiased opinion before putting in anything else in the way of heating. We are pleased to

The Old and the New.

Mr. J. A. Jackson was the speaker at the afternoon session. He compared the old style Bible class with the new. Under the old everything depended upon the teacher. With a strong, competent man in charge, the class flourished and brought forth satisfactory results. With a poor or ordinary teacher, the class was often a failure. The new Bible class was an organized class. The responsibility for organized class. The responsibility for the success of the class was not on one or a few, but on many. The result was that a lively interest was created in the class by this organization, and splendid work resulted.

The Organization. The organization of the class was outlined by Mr. Jackson, There

should be a teacher, a president, secretary and a treasurer. In addition there should be many committees. There should be three of waterlogged and unmanageable. Eleven these at least, membership, social and devotional. In many classes other committees were added, such as a visiting committee, an athletic committee, and a literary committee. Mr. Parkinson's Address.

Mr. Matthew Parkinson took the vening session. He gave his experience with classes in Toronto. Sunday meetings had been most helpful. The membership of the church was increased. The members of the class took more interest in their companions, and the result was that many became identified with Christianity. There was plenty of scope for every person's activity in these classes, as iterary clubs, rambling club, athtic clubs, and all manner of beneficent undertakings had been started. A great deal of discussion was entered into, and much information was gleaned.

It is possible that several classes will be established in the city. PRESENTATION TO MR. C. E. GERMAN

Mr. German responded in a brief, out appropriate manner. The Bible class has proven one of the most popular institutions the Y M. C. A. has ever inaugurated, and to those who have been in charge of the

work the utmost credit is due.
