Nothing Else is Aspirin

Warning! Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all.

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 21 years and proved safe by millions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain generally. Made in Canada.

Handy tin boxes of 12 tablets cost but a few cents-Larger packages. Appirin is the trade mark (registered in Canada) of Bayer Manufacture of Monaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company—"W be stamped with their general trade mark, the "Bayer Cross."

Louise Huff the Famous Actress Tells How To Instantly Beautify The Hands and Arms

New York—'The girl or woman who neglects to beautify her hands and arms (now that short sleeves are in your cheeks and a lily-down has only herself to blame if she is passed by unnoticed," says that beautiful actress, Louise Huff. It only requires a few minutes twice each day to make your hands and arms beautiful and attractive. With no covering ful and attractive. With no covering to protect the elbows they become dark and rough and no matter how often they are bathed they look ugly and repulsive. This can be easily and quickly overcome by taking proper care of them. The best way I have found to accomplish this is to soften the elbows with a good cold cream (Liska cold cream I have found to be the best), then wipe off the superfluous cream with a soft cloth and apply that popular beautifier, Derwillo, to the hands and arms and if you ever try it once you will never be without it." Just make this test: Try Derwillo on one hand and arm and then compare it with the other, and you will need no further argument to convince you that there is nothing like it and you would not have missed it for anything. Derwillo comes in three shades, white, flesh and brunnette. Use white on the hands and arms and the shade you are accustomed to for the complexion. Derwillo gives

Drury and Biggs **Defend Policies**

Saw the Highways. WINDSOR, Aug. 10.—With Windsor market glutted with tomatoes grown by Essex farmers, prices of this muchcourse, many questions to be settled that evolved from the great war, but then again there were those issues that were left us as legacies by the retiring administration. I am of the opinion that they were indeed fortunate in going out when they did. They had been letting certain problems drift along has suffered tremendously by this policy happhagard, and we have had to meet of going rapidly aband with retirond

May Enter Suit.

"However, we are not depending upon this commission to settle this question. They have been investigation. They have been investigation on their finding alone, but before the courts of the land when the province enters suit for money unjustly taken from the people (applause). As regards his reputation he need not be in any hurry. He'll be having one very rapidly one of these days."

"But this investigation has shown us one thing. We must have a complete

one thing. We must have a complete reorganization of his department to in-sure honesty and integrity in order that the people will get their just dues from their lands and forests. We haven't realized fully yet that timber is a crop. But we must go further and continu

haphazard, and we have had to meet of going rapidly ahead with railroad the sooner or later."

building without full consideration. Look at the Dominion National Railroads with "One of these was the financial one. We were faced with certain obligations entered into by them that had to be gone on with. There was the hydro question. Millions have been spent, and more will be. It must be pursued to a successful termination. There were other enterprises as well. Now I am not criticizing, but I do think that there was not always sufficient care exercised in commitments. We had to borrow heavily to complete these enterprises, and we have not been aided by our criticis who had just gone out. One their deficit somewhere around seventy would have thought that they might public utilities and say 'Pay up.' Lastly have said 'we will help you maintain credit' of the province.

Lastly you can't keep people in a tax-burdened town. There is nothing short of enslavement to keep them from moving

up his claims. But he has been challenged on the floor of the House to name one item where there has been money misspent, and there has been reply.

West Two Things ten years from now, the people will look back and acknowledge we did right. They will award us credit for looking ahead before attempting any undertak-ing of such magnitude."

penditure and I have already dealt

Giving Good Service.

"One of the important questions is "Where did the province get its money?" There is the administration of our natural resources—the forests and mines. It does not burden you if we get more out of these resources, and when you understand that this revenue when you understand that this revenue to the backus. He expectations the town of Kenora, which he said had made many commitments involving huge expenditures all based on the expectations that Backus would nudertake certain mill industries in their locality. Kenora had appealed, he stated, to his government advising solidly together," asserted Dr. Hugh

That is nonsense and he knows it. There Kenney, George Darlington. were certain conditions attached to our Fat men—C. Lang, J. McBride, Iona were certain conditions attached to our

Was Up For Sale.

"Back in 1915 the old Government put it up for sale, with the condition that a mill costing one and three-quarter million dollars be constructed.

We put it up for sale in 1922 and three-quarter million dollars be constructed.

We put it up for sale in 1922 and three-quarter million dollars be constructed. We put it up for sale in 1920, and said L. Clay, Ed. Carswell, Iona that a mill costing two and one-half million dollars be built that would employ a thousand men. We demanded a quarter-million forfeit, but the old Government did not see fit to do great the contract of the

ernment did not see fit to do so.
"Have we done fairly? By giving up
the Norman dam Backus delivers up the key to the situation to the province. Compare our record with some of Mr. Ferguson's deals before the commission. There is another question in connection with this that will be settled, and that is the control of the I Lake of the Woods. For the last two it years the Dominion and the province have jointly regulated the levels of this lake. This was seemingly satisfactory.
The board consists of four engineers,
two from Ontario and two from the
Dominion, with the latter having the Dominion, with the latter having the casting vote. I introduced legislation in the House whereby the Dominion would not have the casting vote. I thought it advisable, but not really urgent. What happened? Ferguson said we were slackers and were giving away the rights of the province. What were we doing? We were placing the regulation of two watersheds on a basis of co-operation. I deemed that our interests would be better served in friendly unity. We were, of course, opposed, and even had one or two opposed, and even had one or two filibusters in our own ranks. It looked as though my bill would go down, and rather than have defeat I withdrew my motion. I then asked Premier Meighen to use his influence to have the present board function as before until next ses-sion, but, to my astonishment, a bill

Course Is Clear.

"Our course is quite clear," conclud-i the premier. "It is plain and straightforward and nothing is covered up. We proposed to deal honestly with the Dominion and have not changed or varied. We must fight this thing through, but we must have additional power. Personally, I have never yet been accused of being faint-hearted in the House, or afraid to grapple with the issues, and I believe that the people, while realizing that we make miswhile realizing that we make mis-takes like all others will support us again at the next election. I am not saying there will be one. The Oppo-sition, I don't think is so inclined, but when it comes I believe that we will have the backing of not only the Farmers and Labor, but the citizens generally. Because no one can accuse generally. Because no one can accuse us of class legislation. We will be appealing to all, not any one class." (The premier was well received).

Tells of Highways.

"We have what we call a comprehensive road system," explained Hon. F. C. Biggs, following his opening re-"A system that will relieve to marks. a great degree the burden of the bigger highways. We admit that we have spent considerable, but you must stop and realize that the number of cars in the province have increase 500 times over. There are veritable engines of destruction as far as the roads are concerned. Our main question is to administer within reason our expendi-ture fairly throughout the province. Wherever possible we are following out cur plan of using local material, thereby

saving enormously. The minister of public works explained that he would like to talk longer only the premier had yet to speak and the situation had already been fairly well

covered by the preceding speakers.
"They have accused us of class legislation." declared John Lethbridge, M.P. P. West Middlesex. "But I believe that our record of the past two sessions shows different. You'll notice also that our critics accuse us of extravagance,

the Government, with its usual lack of thoroughness, sold property in question to Backus. He explained the ever, that the Biggs road policy is

mines. It does not be described and get more out of these resources, and when you understand that this revenue has been more than doubled you will see that we are administrating the resources to get the best service for the province.

"There is also a large amount semigrated from automobile licenses and we consider the state of the stated, to his government advising the he stated, to his government advising the stated, to his government advising the he stated, to his government advising the stated, to his government advising the he stated, to his government advising the head of the stated, to his government advising the United States commission of immigration and you will learn the startling news that a tremendous increase in the control out of his hands and pleed it where it belonged with the Government. Our having control of the Norman Dam, regulating the flow of the Winnings Pirace and the startling news that a tremendous increase in the number of Canadians migrating over the border is noted.
