

T. EATON CO., (LIMITED)

190 Yonge-street, July 20, 1895.

Early Closing!

Saturdays we close at 1 o'clock.
—Other days we close at 5 o'clock.

We can't emphasize that fact too strongly. People keep coming after the doors are closed and saying they "didn't know." That's what this store news is for—to tell you things you should know. Early closing is solely in the interests of salespeople and sensible people endorse it as a move in the right direction. Closing at 5 o'clock instead of 6 has been tried for a week and proved eminently successful. If we can afford the change you can, and we anticipate the heartiest possible co-operation on the part of shoppers. It's as plain as the nose on your face that salespeople will work better than ever, which means the store will be better than ever, and that you will reap the benefit in a thousand different ways.

Facts For Strangers!

Toronto is just now the Mecca of Tourists. People are coming from here, there and everywhere, and everyone has a direct interest in this store. There's much to see here and much to learn. No matter if you teach school or preach sermons, run a farm or own a bank—no matter who you are or where you come from, the fact remains that we can be of service to you.

For the guidance of those who're in Toronto for the first time, we make these statements:

- 1—No store anywhere in Canada begins to equal this in point of size, stock or facilities.
- 2—The selling space makes nearly six acres and the organization represents over 1000 employees.
- 3—We sell everything that goes well together, from Drygoods to Groceries and Bicycles.
- 4—The Lunch Room in the Basement is supplied with freshest milk, cream, butter and eggs from our own farms.
- 5—The store faces on four streets, with an entrance on Queen-street and main entrance at 190 Yonge-street.
- 6—So far as we know, no other store in America closes regularly at 5 o'clock in the interests of salespeople.

The intelligence represented at the Pan-American Congress is not above such considerations as early closing. This store has battled for years in favor of shorter work days and taken the initiative at every step. We've grown to greatness along just such lines, and the business we have here now would reflect credit on a much larger city. We want you to see all there is to see. Come and make yourself at home here.

For Monday morning we have some very special prices.

SPECIAL PRINT SALE—ON MONDAY MORNING AT 8 O'CLOCK.

5000 yards Perishable Lawn, 28 inches wide; 3000 yards Ridge-wood Ginghams, 28 inches wide; 6000 yards Merrimac Cardinal Prints; 2000 yards Central Park Shirtings; 4000 yards Lodi American Prints; 6000 yards Diamond Chambrays. The above goods are all fast colors, and are usually sold at from 8c to 10c a yard, but we will make one sweep of them at 5c per yard. Also 4000 yards Manville Lawns, 30 inches wide, fast black, warranted not to crack or fade; regular price 15c, for 7-12c per yard.

RIBBON SPECIAL—MONDAY PRICES.

THE T. H. AND E. IN TORONTO.

Some time ago we were given to understand that the Toronto, Hamilton & Buffalo Railway would come into this city over the C.P.R. from Cookville. Under these conditions there would be no such disturbance as is usually caused by the entry of a new railway into a city. According to yesterday's despatches, however, the intention seems to be to abandon the Cookville route, and to make connections with the C.P.R. at a point within the city limits. It is said this new route will necessitate the new line running through High Park. As the T. H. & B. is surveyed south of the Grand Trunk tracks, along the lake shore, it will be necessary for the former to cross the Grand Trunk in order to make connection with the C.P.R. If an independent track is decided upon in order to give the T. H. & B. the shortest possible route to Hamilton, the Railway Committee ought to be asked to consider a plan for compelling the new line to come in from the Grand Trunk tracks at the end of the Grand Trunk. We believe that such an arrangement would facilitate railway traffic, and that it would answer the purposes of all concerned better than the construction of a new line from the Humber through High Park and a part of the City of Toronto. If the railway attempts to go through the park or cut up our streets it will meet with strenuous opposition on the part of the residents of Toronto. The destination of the trains running over the T. H. & B. will be the Union Station, and, as the Grand Trunk have double tracks from the Humber to the station, it would seem to be a foolish policy to create another track for the new railway alone. In the interests of the people of Toronto, the Railway Committee should insist upon all new railways using existing terminal facilities, if they are adequate for the purpose. The convenience of the public ought to be the first consideration of the Railway Committee.

WHY HIS WORSHIP SMILES.

Mayor Kennedy no doubt feels well pleased with himself. He is indeed, entitled to no little credit for the decisive step he took in offering our bonds to the highest bidder, instead of disposing of them after the old-time hole-and-corner fashion. A determination to do this, the selling of our bonds by private negotiations between the City Treasurer and a few firms in Great Britain. These negotiations went so far as to almost legally bind the city to the bonds to one of the British firms. In spite of these negotiations and of the decision of the council to send the Treasurer to England a second time to close the deal, His Worship took the matter in his own hands and advertised in all the financial centres that the bonds would be sold to the highest bidder, who ever he might be. As the events prove, His Worship's line of action was eminently correct from a business and common sense point of view. It will net the city about \$50,000 more than would have been obtained from Paulin & Co., the firm with whom the City Treasurer was making the semi-private deal. Not only that, the selling of our bonds by competition has enabled us to effect the best sale of 3-1/2 per cent. debentures ever made on the continent of America. The Mayor's action is more than justified by the success that has attended it. The success of the new method of disposing of our bonds means the abandonment of the old.

Built by the Government Out of the Fort.

Editor World: To decide a bet would you kindly let me know through your paper whether the late Andrew Mercer bequeathed money for the Mercer Reformatory or did the Ontario Government build it? JOHN HOWARD, Newmarket, July 17.

THE PUBLIC should bear in mind that Dr. Thomas' Electric Oil has nothing in common with the impure deteriorating class of so-called medicinal oils. It is a pure and really efficacious—relieving pain and removing stiffness of joints or muscles, and sores or burns, besides being an excellent specific for rheumatism, sprains and bronchial complaints.

AFTERMATH OF THE CRISIS.

The Quebec and Ontario side of the School Question—Opposition to Mr. McCarthy.

Ottawa, July 19.—Now that the political excitement in connection with the Manitoba schools is over, a short review of it ought to be interesting. There is no doubt that the situation at one time was critical for the Conservative party. Three French Ministers resigned, and they were warmly backed up by their Conservative following from Quebec. Most of the English-speaking Deputies from Quebec also supported the Ministers. Had the mis-understanding not been arranged, the Government would have had a very narrow escape, because, if the French Ministers had stepped out, and had they taken from 20 to 30 of their friends from Quebec with them, the Government would have been in a very bad way. A majority of more than two or three against the United Liberal vote, associated with the Lower Canadian Conservatives, would have been enough to bring down a Remedial Bill. The whole question is a most serious one, and while a great deal of stress has been laid on the fact that negotiations will be held, still there is no very great reason to be hopeful of the Government's success.

But the mere passing of a Remedial Bill will not end the Government's difficulties. They will have then to face public opinion in Ontario and the Maritime Provinces, as well as in the Northwest, and perhaps British Columbia, where they will find a very real interference with Manitoba, and it is not likely many members will be returned from these provinces who are not pledged to oppose a Government that has brought down a Remedial Bill. The whole question is a most serious one, and while a great deal of stress has been laid on the fact that negotiations will be held, still there is no very great reason to be hopeful of the Government's success.

Another way out of the matter all the Government should begin the matter all over again, and take the advice of eminent counsel like Edward Blake and Christopher Gwynne, and let them have their say in the matter. Had they such advice, it would have great weight in the country. The real law of the case is very intricate, and has not yet been elicited, though Mr. Welton and Mr. McNeill have made valuable contributions to the discussion. Hon. David Mills takes the view that the Government's duty, and that of Parliament as well, is very much that of a judicial duty, and not a political one, and he says that Mr. Blake agrees with him in this respect. For party reasons, however, Mr. Mills did not see fit to make his arguments before the House. He may do so later on in the press or in a speech in the House. Another way out of the difficulty has been suggested, namely, that the leaders of the two parties should set to work and make a compromise, and some modification in his law, and thus avoid the question coming up at Ottawa.

No matter in which way the question is approached, almost insurmountable barriers seem to spring up, and will require the most exemplary patience, tact and ingenuity to reach any kind of a settlement, or a difficulty which the Conservative party in no wise created.

Labor Asked to Boycott Bank Notes.

Washington, July 19.—General Master Workmen Sovereign of the Knights of Labor has issued a circular letter, or manifesto, to the members of that organization, as well as to kindred organizations throughout the country, having in view the recent action of the House of Representatives in passing a bill to coin all national bank notes.

Personal.

The Rev. John Robbins of Truro, Nova Scotia, who has been on a visit to the Pacific Coast, will occupy the pulpit of St. John's Cathedral, Vancouver, B.C., on Sunday next, July 21, at both morning and evening services.

Mr. J. A. Wilson of the celebrated wine firm of L. A. Wilson & Co., Montreal, is in the city.

Mr. A. Davis of Montreal, ex-superintendent of water works, is in town. Mr. Davis has been in the city for some time, and is called "The Crystal." It is a good thing—push it along.

will be easily seen that the Government can secure the requisite 106 votes. But, besides this, since the speech of Mr. Laurier, it is certain that, in addition to the 26 Liberals from the Province of Quebec who will vote solid for a Remedial Bill, there are other Liberals from other provinces who will also do the same. Of course, it is always open to the entire Opposition to vote against any Government measure, if they thought they could take a number of defeated Conservatives with them on a want of confidence motion on the school question; but if the Liberals voted against such a measure, and even if they defeated the Government on it, they would still themselves in the Province of Quebec. They are not, therefore, likely to do it.

But the mere passing of a Remedial Bill will not end the Government's difficulties. They will have then to face public opinion in Ontario and the Maritime Provinces, as well as in the Northwest, and perhaps British Columbia, where they will find a very real interference with Manitoba, and it is not likely many members will be returned from these provinces who are not pledged to oppose a Government that has brought down a Remedial Bill. The whole question is a most serious one, and while a great deal of stress has been laid on the fact that negotiations will be held, still there is no very great reason to be hopeful of the Government's success.
