THE question of a memorial of some kind for Watford soldiers who have made the supreme sacrifice should not be lost sight of and the sooner a movement in the matter is made the better. ALTHOUGH nomination day is only ten days distant, there is little talk as to who is going to represent the people on the municipal board. Many ratepayers claim that the present council have given good satisfaction and should be given a second term by acclamation, thus saving the cost of an election. Few complaints are heard about the actions of the present council, but no doubt on nomination day they may be accused of considerable wrong doing. It is usually so.

He was in the front line at the taking of Mons on the 11th of November, and many of the boys were killed around him. He says that Mons is a beautiful city and the country very fine, and from the hills around you can see towns and cities joined on to each other for miles. He also said that they were going to march to the Rhine fortresses and towns and would occupy thirty days in the journey.

OUR TOWN has one thing which she is justly proud of and to which she largely owes her good name, the influence of our schools. They have sent out a class of young ladies and gentlemen that are wielding a power for good and most successfully filling the best places and positions in life. There is no more efficient aid to morality, honesty, sobriety and good citizenship than well-conducted schools, and it is the part of wisdom to keep these schools up to the very highest point of efficiency, and to do this there must be harmony of four elements, viz., the Board of Education, the parents, the teachers and the scholars, and without which perfect success cannot be attained, therefore, let it be the duty of these four elements to see that no deficiency or hindrance arise on their parts to thwart the good purpose of our schools. If factions exist, pray disband and give your hearty sanction and co-operation to the efforts being made to maintain the excellence of our schools today, and to enhance their interest that they shall stand second to none in the province of Ontario.

Union Services Arranged

Owing to the shortage of fuel and in harmony with the request of the fuel controller the duly authorized representatives of the Presbyterian and Methodist Churches in Watford have arranged to unite for all church services commencing with Sunday, December 29th, and continuing till further notice. The first Sunday the services will be held in the Methodist Church at the usual hours and the following Sunday in the Presbyterian Church and so on alternating. The Sunday Schools will meet in the same building and at their usual hour but separately in different parts of the church. It is hoped that all of these two congregations will be loyal and faithful in attendance upon all these services. All others will be made heartily welcome.

The Union Prayer Meeting and Bible Study on Thursday evening will be held in the church in which the service is to be held on the following Sunday, and will commence at 8 o'clock.

These congregations have shown a commendable spirit in arranging thus to get together and obviate the difficulties of the fuel situation and if possible relieve distress which might otherwise occur in private homes. It is fully expected that enthusiastic congregations will be large and the services thus adding greatly to the general interest of things pertaining to the Kingdom of God.

A REMINDER

There are many of our patrons who have failed or forgot to settle for the many privileges which they enjoy in and around the Roche House. The rate charged per annum is so small, considering the cost of running a hotel of this kind in these days of high prices and small business. There is no such accommodation given by any hotel in Western Ontario. It would be useless to enumerate the many privileges, as they are so well known by our patrons. Those who are always first and only too well pleased to pay, frequently state that "you are not charging enough." Of course, there are always people in every community who want a whole lot for nothing. While you are handing it out to them you are "the greatest in the land." We do not mind working for our board, but when we work for nothing and pay our own board to accommodate the public it is asking rather much. Remember, you may miss us when we are gone. Coal, taxes, insurance, wages, all come up.
