

*Habrosyne scripta* Grosse.—Lac des Joncs. A good number of these moths were noticed around the camphouse before darkness had completely set in. They had a peculiar flight; they hovered with a slow up and down motion, much like crane flies sometimes do.

*Pseudothyatira cymatophoroides* Guenée.—Lac des Joncs.

*Drepana arcuata* Walk.—Lac des Joncs.

*Falcaria bilineata* Pack.—Lac des Joncs.

I am indebted to Mr. I. W. Swett for the identification of some of the following Geometridæ:

*Tallegeda montanata* Pack.—Lac des Joncs.

*Eupithecia russeliata* Swett.—Lac des Joncs. Identified by Mr. Swett.

*Eupithecia* sp.—One specimen at Lac des Joncs. Remarkable for its long pointed fore wings.

*Venusia cambrica* Curtis.—Lac des Joncs. Four specimens. Identified by Mr. Swett.

*Euchœca albovittata* Guenée.—St. Fabien.

*Rheumaptera hastata* Lin.—St. Fabien. Very numerous along the roadside.

*Petrophora ferrugata* Clerck.—Lac des Joncs.

*Petrophora fluctuata* Lin.—Lac des Joncs.

*Eufidonia notataria* Walk.—Lac des Joncs.

*Cymatophora brunneata* Thunberg.—St. Fabien. Identified by Mr. Swett.

*Cleora indicataria* Walk.—Lac des Joncs.

*Euchlœna effectaria* Walk.—Lac des Joncs.

*Metanema inatomaria* Guenée. Lac des Joncs.

*Azelina anctaria* Hübner.—Lac des Joncs.

*Callizzia amorata* Pack.—Lac des Joncs.

*Evergestis straminealis* Hübner.—St. Fabien.

*Phlyctœnia tertialis* Guenée.—Lac des Joncs.

*Pyrausta funebris* Ström.—St. Fabien.

*Pyrausta ochosalis* Dyar.—St. Fabien.

*Crambus hortuelius* Hübner.—St. Fabien.

*Crambus* sp.—St. Fabien.

*Olethreutes bipartitana* Clemens.—St. Fabien.

*Archips persicana* Fitch.—St. Fabien.

*Phalonia vitellinana* Zeller.—St. Fabien.

*Sthenopsis quadriguttatus* Grote.—St. Fabien.
