ANNOUNCEMENT.

(For English-speaking Condidates.)

COLLEGE OF PHYSICIANS AND SUR-GEONS OF THE PROVINCE OF QUEBEC.

PROGRAMME OF THE PRELIMINARY EXAMINATION FOR 1894.

Latin.—The Commentaries of Cæsar, Bks. I, II, III, IV, V.—The Æneid of Virgil, Bks. I and II.—The Odes of Horace, Bk. III. A sound knowledge of the Grammar will be required.

English.—A critical knowledge of Shakespeare's play of HENRY VIII. Questions of gram-

mar, Etymology and Analysis.

French.—Translation into English of passages from "Telemachus," with questions of grammar and parsing. Also translation into French of easy English sentences.

Belles-Lettres.—Principles of the subject and of Rhetoric; also History of the Literature of the age of Pericles in Greece, of Augustus in Rome and of English and French Literature of the 17th, 18th and 19th centuries.

History.—A general knowledge of the History of Greece and of Rome, and a more particular knowledge of British, French and Canadian History.

Geography.—A general knowledge of the subject, and more especially of England, France and North America.

Arithmetic.—Must include vulgar and decimal fractions, simple and compound proportion, interest, percentages and square root.

Algebra.—Must include fractions and simple

equations of two unknown quantities.

Geometry.—The first three books of Euclid and principal propositions of the Sixth. Also the measurement of the lines, surfaces and volumes of the regular geometrical figures.

OPTIONAL SUBJECTS.

The Candidates must select one of the following.

Greek.—The Anabasis of Xenophon, Bks. I, II, III, and the Iliad of Homer, Bks. I and IV, with questions of grammar.

Physics.—General principles as in Peck's translation of Ganot.

Philosophy.—Logic with Mental and Moral Philosophy.

N.B.—Candidates must produce certificates of good moral character. Any candidate detected in copying or in aiding another to copy, or in using books or notes, will be immediately dismissed from the room. At the conclusion of the examination, each candidate will be required to make before a magistrate, then present, a solemn declar-

ation that he has not had recourse to any fraudulent means to aid him in the examination. He must also furnish proof of his identity.

ORDER OF SUBJECTS AND NUMBER OF MARKS
FOR EACH.

FIRST DAY.

| | Latin | fron | n 9 | to | 11200 | marks. |
|----|----------------|------|-------|-----|---------|--------|
| | History | | | | 12100 | |
| ď | Geography | " | I 2 | " | 1100 | " |
| on | French | | 2 1/2 | " | 4150 | " |
| 75 | English | " | | | 51/2150 | |
| • | Belles-Lettres | " | 51/2 | . (| 6½100 | " |

SECOND DAY.

| B. | Geometryfr | on | n 8⅓ | to | 10100 | marks |
|----|----------------------------------|----|-------|----|----------|-------|
| ď | Arithmetic | " | 10 | " | 111/2100 | " |
| no | Algebra | " | 111/2 | " | T100 | " |
| Ġ | Arithmetic Algebra Optional Sub- | | • | | | |
| | ject | " | 2 1/2 | cc | 4200 | " |

Note.—A Candidate must obtain half the total marks allowed for Group A. in order to pass in that group. So also for Group B.; but his failing to pass in one of the groups will not nullify success in the other.

Further, in order to pass in the several subjects, a candidate must obtain marks for them as follows:—

For English, being the mother tongue, three-

fourths of the marks.

For Latin, Arithmetic and Optional subject, one-half of the marks for each.

For all other subjects, one-fourth each.

Lastly, if a candidate fail in any one subject of a group, he will be required to repeat examination in all the subjects of that group, though he may have been successful in the other group.

BOOK NOTICES.

A Manual of Medical Treatment or Clinical Therapeutics. By I. Burney Yeo, M.D., F.R.C.P., Professor of Therapeutics in King's College, London. In two 12mo. volumes containing 1275 pages, with illustrations. Complete work, cloth, \$5.50. Philadelphia, Lea Brothers & Co., 1893.

This work is devoted entirely to the treatment of disease, being the first we have ever seen of the kind. There are many excellent works on therapeutics, but this is the first work devoted to clinical therapeutics. For this reason, and
