## Disease Conquered Without Drugs

Modern Science recognizes Oxygen as Nature's great physician and health-giver. When present in the system in sufficient quantity it purifies the blood, destroys disease of any kind and imparts strength and vitality.

It remained for Dr. Sanche to discover the means for charging the system with Oxygen.

His wonderful little instrument, Oxydonor, applied while you sleep, causes the whole system to drink freely of Oxygen from the air, through the pores of the skin and the membranes.

Thus by supplying an abundance of Oxygen in the blood, Oxydonor promptly cures disease and restores perfect health.

Here is the experience of Mrs. H. J. Gordon, 10 Atkin Ave., Toronto, written Jan. 23, 1909:

"This is to certify that I have used Oxydonor and have received most gratifying results from it. I suffered from a complication of diseases, and was scarcely ever free from pains and aches through my whole body.

It is now nearly two years since I got an Oxydonor, and our family doctor cannot understand why he has not been called in during that time. Last winter and this are the only winters in my life that I have not had my lungs poulticed, greased and blistered. Now my lungs are strong, and I do not take cold as I used to. I have not taken a spoonful of medicine of any kind since I bought Oxydonor for it is our only doctor."

This is but a sample of scores of grateful letters. Why not let Oxydonor do for you what it is doing for others?
