# ROBB HOT WATER HEATER.

FOR HARD OR SOFT COAL.

**No Cleaning** is required as all heating surfaces are exposed to the flame and soot cannot collect.

**Heats Quickly** because the water circulation is vertical, and therefore rapid. In most other types the circulation is horizontal and slow.

**Saves Fuel** because the heating surfaces are always clean and the water circulation is rapid, thus utilizing all the heat possible.

**ROBB ENGINEERING CO., Limited  
AMHERST, N.S.**
