Selecting Wall-papers

Is not an easy task even for those who sell them again, but if you live out of town you may have the taste and experience of a skilled buyer of wall-papers if you are so disposed.

This is Our Plan:

Instead of sending the short useless samples, we send a parcel of full rolls selected as nearly as possible to your suggestions, and express them to you, paying all charges if you order; paying only the return charges if you do not order. Try our plan and see how it works.

Talks

By George Thatcher,
the celebrated Min-
strel.

This unique volume sup-
plies in a most satisfactory
way the want that has
heretofore been but in-
differently met by the so-
called Stump Speech
books. The book con-
tains all of Mr. Thatcher's
Monologues, Parodies,
Songs, Sketches, Poems,
Speeches, Jokes, etc., etc.
It will be found invalu-
able to every humorous
reader, to amateur and professional minstrels,
and in addition will prove interesting reading
to any person who is fond of the lighter vein
of literature.

Primary Recitations

WITH
EXPLANATORY NOTES
AND

Lessons in Primary Elocution

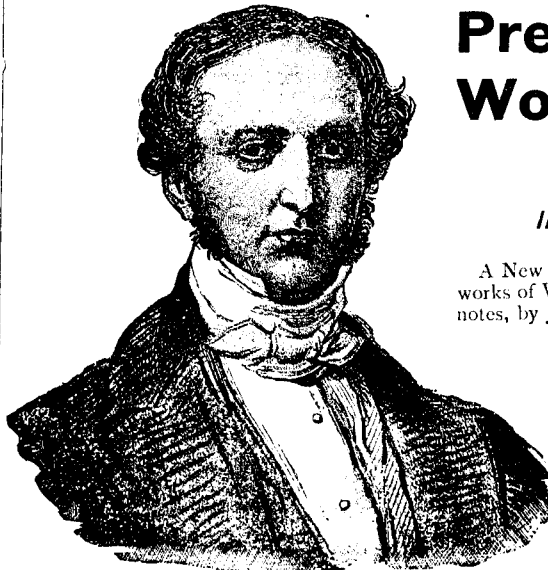

A collection of appropriate recitations for young children not further advanced than the First Reader, and lessons in elocution suited to their capacity.

The selections have been made with great care from the best of similar works, and there is nothing in child-literature published that is better calculated to assist in accomplishing the end sought, viz.: the cultivation of a more perfect elocution and the foundation of a literary taste among the little ones. The lessons in elocution are particularly well adapted for children of the primary classes, and include exercises in breathing, voice development, and distinct articulation. They are suitable for home practice as well as school, and every child should be thoroughly and systematically trained in them.

Sir Morell Mackenzie in "The Hygiene of the Speaking Voice" says: "As to commencing the education of speaking (which, of course, includes the reading) voice, it can hardly be begun too soon." This book aims to aid the teacher in making this beginning.
