

NEW TELEGRAPH SCHEME.

OTTAWA, Sept. 2.—Mr. Edward Carter, C.C. of Montreal, Gen. George B. Williams, U.S., and John F. Olmstead, of Washington, D.C., arrived in the city this morning and waited on several of the members of the Government, to lay before them a new telegraphic scheme, and ask for a charter for a new company. The Minister of Justice has been asked to do business at first in the cities of the Dominion, and extend the wires afterwards. This is all that is known of the scheme as far as outsiders are concerned. As far as new companies are concerned, it is noted on the very best authority here that notice of application for new charters, for two or three new companies will be made at an early date.

POND'S EXTRACT FOR PAIN.—You seldom see much allusion to it in the public press, yet its sale has extended to all parts of the world.

An old man who had been badly hurt in a railroad collision, being advised to sue the company for damages, said: "Wal, no, not for damages, I had enough of them; but I just sue them for repairs!"

ODDS AND ENDS.

Mr. Gladstone's son, Herbert, has a great opinion of his father's abilities.

It is to be protected against a vigilance committee in case the President dies.

M. Sullivan is to resign his seat in Parliament, it is expected Duffy will offer himself.

They were walking by the sea-side, and he asked, and they were both beside themselves.

It is thought Sir Charles Gavan Duffy will shortly stand for a popular Irish constituency.

The colony of Victoria, Australia, has consented to reform and render itself more Democratic.

The Meononites have more land than they can cultivate, but no money. Their women do most of the work.

The export of gold from Europe to the United States has commenced. Westward the dollar takes its way.

The Mark Lane Express says the pith of the Duke of Argyll's speech was "the earth is the landlord's and the fallow thereof."

Dr. Grassie of Munich received through the Papal Nuncio, Monsignor Roncetti, from St. Louis, the great medal of St. Thomas Aquinas, in recognition of his merits in the use of medicinal literature.

A correspondent of Forest and Stream gives the following anti-musquito recipe: Three pieces sweet oil, one ounce carbolic acid, in every half hour until the pores have thoroughly absorbed it.

The Russellville Messenger of Logan County, Ky., reports that Dr. Proctor is the victim of the persecution of five ghosts, all mounted on the leader riding a mule. They bombard the house with stones, and a volley from shot-guns has no effect upon them.

The new conservative London weekly will be edited by Mr. Sebastian Evans, a literary man of eminent ability as a journalist.

Earl Percy and Alderman Culitt back the enterprise with deep purses.

During a fire at St. Joseph, Mo., a woman was so absorbed in saving furniture that she forgot her baby until it was cut off by the flames. Then she frantically tried to rescue it, but in vain, and has been insane ever since.

An Eastern paper is responsible for the startling avowal that a Cincinnati belle, in reply to the question whether there was much cultivated and refined society in her native city, replied: "You just bet your boots that we're a cultured crowd."

A woman in New York has demonstrated that cats are good for something besides catching rats and mice and destroying mauling the midnight slumbers. She was alone in the house with no companion but a huge cat. She heard a burglar attempting to effect an entrance into the basement window. In her alarm she seized her petted "Tom," and posing him carefully from the second story window, dropped him squarely upon the intruder's neck, where, with a terrific yowl, he fastened claws and teeth. Then came another yowl, and thud and cat disappeared with lightning rapidity around the corner, the cat on top. Neither has been seen or heard of since.

TRIED AND TRUE!

How sad to contemplate the fact, that for the sake of gain, would-be philanthropists have introduced patent medicines and drugs (like compounds) which are advertised to cure all the ills that flesh is heir to. Verily they have their reward. Thousands are annually sent to their graves through the use of such compounds. Baxter's Mandrake Bitters have come before a discerning public, without any loud trumpeting. They have been tried and have not been found wanting. They are daily gaining in public favor, and for dyspepsia, jaundice, and biliousness have no equal.

REST AND COMFORT TO THE SUFFERING.

"BROWN'S HOUSEHOLD PANACEA" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Headache and any kind of a Pain or Ache. It will most surely quicken the Blood and Heat, as its acting power is medicinal. "Brown's Household Panacea" being acknowledged as the great Pain-killer, and of double the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. [G28]

MOTHERS! MOTHERS!! MOTHERS!!! Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it! There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. [G28]

A BRILLIANT SCIENTIFIC TRIUMPH.

Thousands of people cured of chest disease and nasal catarrh by Dr. M. Souvielle's Spirometer, which is used in the leading hospitals in Europe; instructions for treatment sent by letter, and instruments expressed to any address; physicians and sufferers invited to try the instrument at the Doctor's office, Montreal, without charge. Send for particulars to Dr. M. Souvielle, ex-aid surgeon French army, 13 Phillips Square, Montreal.

Why should not truth be acknowledged? These wonderful instruments are the discovery of the age, and people need no longer fear chest diseases until its very last stage.

Read the following and see the wonderful cures effected by these instruments, which convey medicinal properties direct to the seat of the disease:—

MONTREAL, January 13th, 1881.

DEAR DOCTOR,—I have great pleasure in making public my experience of the beneficial effects I have derived from the use of your Spirometer and remedies for the cure of catarrh and bronchitis, which I was afflicted with for several years; my health is now wonderfully improved since using your remedies.

Yours truly, C. HILL.

MONTREAL, January, 1881.

Dr. M. Souvielle, Montreal. DEAR SIR,—I am very pleased to give you this testimony of the benefit I have received from the use of your instrument, the Spirometer, and the remedies accompanying it for my disease. I was three years troubled with catarrh in the head and bronchitis, and I am happy to say that I am quite cured, and have to thank you for it by the use of your Spirometer and remedies.

Yours, respectfully, S. HILTON, Montreal.

Mr. Benj. A. Drake, 162 St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Mr. Hunter, student at McGill College, who suffered from chest disease, is now cured.

Also the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mr. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured. Hundreds of similar authentic testimonials can be seen at Dr. M. Souvielle's office, 13 Phillips square. Instruments expressed to any address.

NOTRE DAME HOSPITAL.

The Directors and friends of the Notre Dame Hospital will, in a few days, call upon the citizens of Montreal for subscriptions to this Hospital. Every one knows how necessary this Institution has proved to be to the inhabitants of our city. Should there be any doubt as to this, one might be easily convinced by looking at the report of the Hospital for the year ending July 31st, 1881. During that year 772 in-door patients have been treated, whilst 1,609 were attended to at the out-door department, and 269 at the Eye and Ear Dispensary—forming a total amount of 2,650. In order to meet with the expenses inherent to the attendance of so many patients, the Hospital had, last year, but a few particular donations, the receipts of a concert and the subscriptions of the Montreal Seminary and the local Government. These, however, were quite insufficient. The number of daily patients calling at the Hospital has been very much increased of late. For example, we will state that during the last two weeks 82 patients have been admitted in the wards of the Hospital, and from July 1st to 31st, 540 prescriptions were given at the Dispensary. So, the Hospital will certainly not be able to continue its work of charity and benevolence, unless the generosity of Montrealers comes to its help. These are, indeed, highly interested in helping such an institution as this, where poor patients of every creed and nationality receive the required attendance. We, therefore, hope and believe that our fellow-citizens will do everything in their power in aid of the Hospital. Some of our prominent men have already subscribed, and we may mention here the Rev. Mr. Toupin, of the Montreal Seminary, who has, of late, subscribed the sum of \$1,000.

Francois Poulin, a veteran of 1812, has just died at Beauport, aged 87.

Sitting Bull and his 200 remaining followers are to be removed to Fort Randall, above Yankton, where they will be sent as prisoners of war.

THE "WEBER."

"All Artists give them the Preference."

—New York Herald.

"THE FINEST PIANOS IN THE WORLD."

—Centennial Judges.

Used in all the Leading Convents of the United States.

"There is an extraordinary richness and purity of tone—a capacity of portraiture feeling, and a wonderful power of expression in the Weber Piano."—ITALO COMPANY, Tenor of H. M.'s Opera.

"The wealth and fashion of the metropolis call for pianos, and not to have a Weber Piano in the drawing-room would argue lack of musical taste or deficiency of the requisite amount of good-bredness."—New York Tribune.

"Weber's Pianos were unquestionably the best exhibited in the World's Fair, and were the finest we ever touched or heard. His pianos are undoubtedly the best in America, probably in the world to-day."—CENTENNIAL EXPOSITION.

"As song-bird after song-bird, from the imitable Gerster to our own dear Louise Kellogg, and artist after artist leaves our shores, the last kindly adieu from the deck of the parting steamer is invariably wafted to Weber."

"For many years—in fact from the time of the peerless Prepara Bossa, Wilson, Fatti Albani, and hundreds of others—Weber has thus been singled out by them all. Partly, no doubt, this is due to his kindness to them, but mainly to that something which we call 'tone,' that extraordinary sympathetic richness of the Weber Piano which has made it the special favorite of every great musician."—New York Times.

"The tone of the Weber Piano is so pure, prolonged and of such inexhaustible depth, that they sustain the voice in a wonderful degree. We not only commend them in the highest terms, but consider them the best pianos in the world."—HER MAJESTY'S ITALIAN OPERA COMPANY.
