THE TRUE WITNESS AND CATHOLIC CHRONICLE

TROUBLE IN JAMAICA.

THE COLONISTS DISLIKE BRITISH BULE. Kineston, Jamaica, Feb. 9.—There is much agitation here against the new criminal codes. Colonists complain that what could not be carried in England is put in force in Jamaica as an experiment, by the aid of an obnoxious system of Government where the public have no voice. The recent increase in taxation has resulted in a decrease of revenue. Colonel Dawkins, champion of American annexation, has posted circulars to householders throughout the Colony, calling upon them to consider the unfitness of the present Government to rule, and urging them to take steps for

HOLLOWAY'S CINTHENT AND PILLS-Discuses of the Bowels.—A remedy, which has been tested and proved in a thousand different ways, capable of eradicating poisonous taints from ulcers and healing them up, merits a trial of its capacity for extracting the internal corruptions from the bowels. On rubbing domen, a rash appears, and as it thickens the alvine irritability subsides. Acting as a latence. Holloway's Cintment repeatedly on the abderivative, this unguent draws to the surface, releases the tender intestines from all acrid matters, and prevents inflammation, dysentery and piles, for which blistering was the oldfashioned, though successful treatment, now from its painfulness fallen into disuse, the discovery of this Ointment having proclaimed a remedy possessing equally derivative, yet perlectly painless, powers.

Consumption Cured.

Since 1870 Dr. Sherar has each year sent from this effice the means of relief and cure to thousands afflicted with disease. The correspondence necessitated by this work becoming too heavy for him, I came to his aid. He now feels constrained to relinquish it entirely, and has placed in my hands the formula of that simple vegetable remedy discovered by an East India missionary, and tound so effective for the speedy permanenat cure of Consump-Bronchitis, Catarrh, Asthma and all Throat and Lung Discuses; also a positive and radical cure for Nervous Debility and all Nervous Complaints. Its remarkable curative powers have been proven in many thousand cases, and, actuated by the desire to relieve suffering humanity, I gladly assume the duty of making it known to others. Address me, with stamp, naming this paper, and I will mail you, free of charge, the recipe of this wonderful remedy, with full directions for its preparation and use, printed in German, French or English.—W. MOTHERS! MOTHERS!!! MOTHERS!!! Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediatelydepend upon it; there is no mistake about it There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents [G26

SCIENCE IN FI PROGRESS.

Thousands cured Essert. sonchitis, Asthma and Lung dise :es by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts effected. These weaderful instruments are used in all first-class hospitals, and are prescribed by leading physicians. Full directions for treatment sent by letter, and instruments expressed to any address. It is only since Dr. Souvielle's invention that lung diseases are no longer feared except in their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillip's Square, Montreal. Rend the following notices:---

(From the Montreal Gazette, December 24th 1880.)

We are pleased to notice that a great many of our best citizens have bought Dr. M. Souvielle's Spirometer, which is used for the cure of those terrible diseases known by the name of Nasal Catarrh, Bronchitis and Asthma, and it is so highly spoken of as if those instruments and preparations were infallible in the cure of such complaints, and, to satisfy our curiosity, we visited Dr. M. Sauvielle at his office, 13 Phillips' Square, Montreal, and gave a thorough examination of his invention, so that we can speak with our own authority of it. We think that such a method, which conveys medicinal properties direct to the organs affected by those distressing diseases, cannot fail to be a benefit to humanity, instead of pouring drugs into the stomach and deranging digestion. These wonderful instruments, with their contents, were invented by Dr. M. Souvielle after long and careful experiments in chemical analysis, and used in hundreds of cases treated by him in the hospitals of Europe. We find the Doctor a well learned gentleman, and he invites physicians and sufferers to try his instrument free of charge.

Common Sense in Medicine.

(Montreal Star, January 8, 1881.) Dr. M. Bouvielle, the Parisian physician and inventor of the Spirometer for the scienlific treatment of diseases of the lungs and tir passages, who recently took up his resiience among us, is meeting with excellent access. Already the doctor has had hundeds of patients, who have given his system ouring drugs into the stomach and thus upnvitation to physicians and sufferers to visit im and test his instruments free of charge. Lis office is at 13 Phillip's Square, Montreal.

The TRUE WITNESS has within the past rear made an immense stride in circulation, and if the testimony of a large number of our subscribers is not too flattering it may also laim a stride in general improvement.

This is the age of general improvement and the TRUE WITNESS will advance with it. Newspapers are starting up around us on all sides with more or less pretensions to public favor, some of them die in their tender infancy, some of them die of disease of the heart after a few years, while others, though the fewest in number, grow stronger as they sdvance in years and root themselves all the more firmly in public esteem, which in fact is their life. However, we may criticise Darwins theory as applied to the species there is no doubt it holds good in newspaper enterprises, it is the fittest which survives. The True Witness is now what we may term an

its circulation still further, and we want its friends to assist us if they believe this journal to be worth \$1.50 a year, and we think they do. We would like to impress upon their memories that the TRUE WITNESS is without exception the cheapest paper of its class on this continent.

It was formerly two dollars per annum in the country and two dollars and a half in the city, but the present proprietors having taken charge of it in the hardest of times, and knowing that to many poor people a reduction of twenty or twenty-five per cent would mean something and would not only enable the old subscribers to retain it but new ones to enroll themselves under the reduction, they have no reason to regret it. For what they lost one way they gained in another, and they assisted the introduction into Catholic families throughout Canada and the United States of a Catholic paper which would defend their religion and their rights.

The TRUE WITNESS is too cheap to offer premiums or "chromos" as an inducement to subscribers, even if they believed in their efficacy. It goes simply on its merits as a journal, and it is for the people to judge whether they are right or wrong.

But as we have stated we want our circulation doubled in 1881, and all we can do to encourage our agents and the public generally is to promise them that, if our effects are seconded by our friends, this paper will be still further enlarged and improved during the coming year.

On receipt of \$1.50, the subscriber will be entitled to receive the TRUE WITNESS for one year.

Any one sending us the names of 5 new subscribers, at one time, with the cash, (\$1.50 each) will receive one copy free and \$1.00 cash; or 10 new names, with the cash, one copy free and \$2.50. Our readers will oblige by informing their

friends of the above very liberal inducements to subscribe for the TRUE WITNESS; also by sending the name of a reliable person who will act as agent in their locality for the publishers, and sample copies will be sent on application.

We wantactive intelligent agents throughout Canada and the Northern and Western States of the Union, who can, by serving our interests, serve their own as well aud add materially to their income without interfering with their legitimate business.

The TRUE WITNESS will be mailed to clergymen, school teachers and postmasters at \$1.00 per annum in advance.

Parties getting up clubs are not obliged to confine themselves to any particular locality, different COOK'S FRIEND but can work up their quota from different owns or districts; nor is it necessary to send all the names at once. They will fulfil all the conditions by forwarding the names and amounts until the club is completed. We have observed that our paper is, if possible, more popular with the ladies than with the other sex, and we appeal to the ladies, therefore, to use the gentle but irresistible presare of which they are mistresses in our behalf on their husbands, fathers, brothers and sons, though for the matter of that we will take subscriptions from themselves and their sisters and cousins as well. Rate for clubs of five or more, \$1.00 per annum in advance.

Parties subscribing for the TRUE WITNESS between this date and the 31st December, 1881, will receive the paper for the balance of the year free. We hope that our friends or agents throughout the Dominion will make an extra effort to push our circulation. Partles requiring sample copies or further information please apply to the office of Tax Post Printing and Publishing Company, 761 Craig street, Montreal, Canada

In conclusion, we thank those of our friends who have responded so promptly and so cheerfully to our call for amounts due, and request those of them who have not, to follow their example at once.

From COL. I. T. FORTER.

Youngstown, Ohlo, May 10th, 1880.

Dr. B. J. KENDALL & Co., Genis:—I had a very valuable Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a small one on the other which made him very lame; I had him under the charge of two veterinary surgeons which failed to cure him I was one day reading the advertisement of Kendall's Spavin Cure in the "Chicago Express," I determined at once to try it, and get our druggists here to send for it, they ordered three tottles; I took them all and thought I would give it at horeugh trial, I used it according to directions and the fourth day the colt ceased to be lame, and the lumps have disappeared. I used but one bottle and the colts limbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it. Very Respectivilly,

L. T. FOSTER.

Are now using it. Very Respectfully,

L. T. FOSTER.

WILTON, Minn., Jan. 11, 1881.

B. J. KENDALL & Co., Gents:—Raving got a horse book of you by mail a year age, the contents of which persuaded me to try Kendall's Spavin Cure on the hind lee of one of my horses, which was badly swellen and could not be reduced by any other remedy. I got two hottles of Kendall's Spavin Cure of Preston & Ladduth, Druggisis, of Wasca, which completely cured my horse. About tive years ago I had a three year old colt sweenied very had. I used your remedy as given in your book without rowelling, and I must say, to your credit, that the colt is entirely cared, which is a surprise not only to myself, but also to my neighbors. You sent me the book for the triffing sum of 25 cents, and if I could not get another like it I would not take twenty-five dollars for it.

Yours, truly,
