

ANOTHER OBERGEMAN CONVICTED OF MURDER.—The Rev. Preston Turley has been convicted before the Circuit Court of Kanawha county, Virginia, of the murder of his wife. His wife had been the best of women, and is said to have been connected. The killing was effected by placing a rope around her neck, and choking her to death. He then threw the body into the river. It was an aggravated case—a wife murdered by her husband, in her own bed, by the side of her little bed, in the silent hour of night; and the pulsations of her heart scarcely ceased beating, when it was by him to the depths of Coal River, and its waters by him to conceal the dark deed—and all this for the sake of a woman. These facts were proven by a chain of exceedingly strong testimony, and by his own admissions. Under these circumstances, his nearest friends cannot but admit the justice of the verdict, and acknowledge the supremacy of the law.

ANTIQUITIES IN THE LAKE SUPERIOR MINES.—We were shown by the Rev. Dr. Duffield, a few days since, a specimen of a miner's skin, taken from an ancient working near the Quincy Mine at Portage Lake, Lake Superior. The peculiar interest attaching to this relic is not in its appearance, but in its great antiquity. It was found at the bottom of an excavation about six feet in depth, which in the lapse of time, had become filled with vegetable mould. The excavation in this manner having acquired a level with the surface of the surrounding soil, a pine tree had sprung up and grown to a great size, which, upon being cut, showed by its consecutive circles the great age of four hundred years. If it were possible to number the years that it would require to fill an excavation of six feet with nothing but decaying vegetable matter, we might approximate to the age of this wonderful piece of wood. An idea can be formed, however, by imagining how long it would take a certain surface to become covered with a spontaneous growth of grass or shrubs; then allow this growth to die from the severity of the climate, sterility of the soil, or any other cause, and go to decay, to impart, by its own decomposition, an enriching influence to the soil, upon which shall spring up another similar growth, to follow the former to decay, and so on till these successive growths and decayings shall have formed a soil of six feet in depth. Then add to this the age of the tree that was found growing upon the surface—four hundred years—and you have the same perception of the length of time that this insignificant stick has lain hidden from men's eyes. When found it was surrounded by other similar skins, together with the rude chisels and the whetstones of the ancient miners. The other skins fell to pieces upon being handled, but this one was preserved from decay by having been charred. It is between three and four feet in length and about four inches square. It is made of pine wood, and is so dried that its weight will not exceed a couple of pounds. It is supposed that these skins were used by the ancient miners in raising the blocks of copper to the surface of the ground.—Det Free Press.

TO THE INDEPENDENT ELECTORS OF THE DIVISION OF ALMA. GENTLEMEN—AS you will soon be called upon to exercise the Elective Franchise, in selecting a person to represent you in the Legislative Council, and having been honored with the urgent solicitations of a very large and influential number of the Electors of this Division, requesting me that I would allow myself to be nominated as a Candidate—I have consented; and trusting to your intelligence and independence, now appear before you, formally soliciting your support. Should I consult my own private interests alone, I should certainly decline accepting the candidature; but the reasons which have been urged, and the recognised necessity which exists for practical representatives of the commercial interests of the country, in our Legislative bodies, render it imperative upon me to lay aside all private considerations, and yield myself to the guidance of the dictates of my convictions of duty.

Born and educated amongst you, my sympathies, sentiments, associations, and interests, are identified with yours, and are a guarantee to a large extent, that your interests and opinions will be faithfully represented by me, should I be elected your Representative. But when a man comes before his fellow-citizens, or suffers himself to be brought forward by others, claiming their suffrages, it is justly expected that his principles and views should be made known as fully as possible, in order that the electors may be guided in their choice, by principles, and not personal considerations. Holding these views, and also in obedience to custom, I have now to lay before you my reasons for asking your suffrages, at the approaching election, to represent you in the Legislative Council.

My name has, for some months past, been before you as a probable Candidate, and there are very few amongst you who have not been cognisant of the fact. There has been ample opportunity therefore to make yourselves acquainted with my antecedents, character, &c., and thus prepare the way for action on your part, in reference to the more formal course now taken by me, either to pronounce in favor or against my pretensions. My reasons for appearing before you and asking your suffrages may be expressed by the comprehensive term "Commercial." Agriculture, Manufactures, and Commerce are inseparably connected in their bearing upon the material prosperity of the country; but the two first named occupy the most important position, inasmuch as without production no commerce would exist. It is believed, and I coincide with those who entertain that opinion, that there is a deficiency of practical representation of the above-named interests. We have had a large share of experimentalising legislation, (if I may so term it) bearing upon our sources of material prosperity; and it is much to be regretted that no definite policy has prevailed, as nothing so retards the placement of capital, so necessary to the erection of large manufacturing, and the engagement in large commercial transactions, as uncertainty in regard to the fiscal policy of the country. If the subjects of "Free Trade" and "Protection" were to be fully discussed, not as abstract theories, but as applicable to the circumstances of the country and a definite policy decided upon, there is no doubt that much good would result. I do not hesitate to announce it as my settled conviction that "Free Trade," being the normal condition of Commerce, is better calculated to develop the resources of the various countries of the world, than the imposition of restrictions involved in a protective theory—provided such a policy were adopted throughout the world. But it is conceded by the advocates of both theories, that our position, in reference to revenue and other countries, is such as to render our adoption of the "Free Trade" policy in its integrity impossible; and a compromise between the two opposite theories, called "Incidental Protection," has hitherto received approval; but that policy is so uncertain in its duration, and variable in its details, that it has given rise to many evils which might, perhaps, have been avoided. My opinion is, that our position in reference to other countries, more particularly the neighboring Republic, eminently a commercial country, and with which the large majority of our commercial transactions are undoubtedly occurring, is such as to render it advisable to adopt a system of reciprocity of duties; or, in other words, assimilate our Customs Tariff to that of the United States, in so far as it affects such articles as are, or can be, advantageously produced in Canada: such reciprocity of duties, or assimilation of Tariff, to be the well understood fiscal policy of the country, extending even to perfect Free Trade, whenever the United States chooses to adopt such a policy. I do not stop here to enquire how far such a policy on our part would meet the approval of the Imperial Government, or how far our Constitution would allow us to proceed in such a direction; fully believing that any difficulties which may possibly exist, could be overcome. My political position is one strictly independent of either party of the parties known as Ministerialists and Oppositionists; and should I be elected, I shall occupy an independent position: prepared to do my duty to my constituents and the country, without reference to whatever party may occupy the Treasury benches, not lending my vote or influence to factious movements of any kind. There is one great question before the country, upon which it is incumbent on me to declare my views—viz., the question of "Representation based upon Population." On looking back from the Union of Upper and Lower Canada to the passage of the Act changing the Constitution of the Legislative Council in 1854, we find that the principle of Federalism, or perfect equality of the two Provinces, has been the basis of the Constitution and all political changes and arrangements which have been made; hence the question of Representation based upon Population, involves a total change of the Constitution; and however correct in the abstract that mode of Representation may be, it certainly is not applicable to our circumstances and political position.

I am in favor of the most perfect equality of rights, privileges, and immunities of all classes, in reference to Educational and Religious convictions; and pledge myself to use my influence and vote, if elected, in favor of any class who may be found not in the full enjoyment of such equality of rights. I am opposed to all Secret-Political-Religious Societies. You are aware of the prominent part which I have taken in reference to the Extension of the Harbor in Montreal, and the erection of Docks by means of a Canal debouching at Hochelaga Bay; and in opposition to the plan locating such works at Pointe St. Charles. I shall continue my exertions to that end, and spare no pains to accomplish the object in view. I have the honor to be, Gentlemen, Your most obedient servant, ASHLEY HIBBARD.

WANTED. A TEACHER who has had four years' experience under the Board of Education, in Ireland, is desirous of obtaining a situation in the above capacity. Address "G." True Witness.

REMOVAL. JOHN PHELAN, GROCER, HAS REMOVED TO 43 NOTRE DAME STREET, the Store lately occupied by Mr. Berthelot, and opposite to Dr. Picault, where he will keep a Stock of the best Tea, Coffee, Sugar, Wines, Brandy, &c., and all other articles [required] at the lowest prices. JOHN PHELAN.

TO THE FREE AND INDEPENDENT ELECTORS OF THE ELECTORAL DIVISION OF ALMA. FELLOW-CITIZENS—Having been requested by a great many of you to solicit the mandate of the Electors of the flourishing Electoral Division of Alma, I consider that to decline would be a lack of patriotism on my part, and that it is my duty to try and make myself useful to my countrymen; I therefore demand your suffrages with that confidence which arises from the intimate acquaintance I have of the patriotism which animates a great many among you—confidence which is enhanced by the circumstance that my interests are identical with yours; for besides being a proprietor in the country, I am possessed likewise of extensive property situate at the City in the Wards interested in the contest engaged.

I do not come forward as a party man, but as a man entirely independent. I am altogether free. I do not want to solicit any favor from Government, and have nothing to expect from any administration whatsoever. I might abstain presently from expounding political principles, as they are known to the majority of you, nevertheless I feel bound to set forth my views on the most important measures. Being a farmer myself, I shall do all in my power for the improvement and encouragement of agriculture which is the source of the prosperity of this country. Trade is in a prosperous condition. Owing to the works executed in the Gulf and Lake St. Peter, and those projected at Hochelaga, it cannot fail to attract all the product of the West: such a great cause of prosperity will obtain my attention. Need I tell you that our national industry will be the object of my assiduous care? I shall endeavor to favour our home manufactures and industrial enterprise: for no one derives more benefit therefrom than the farmer. The colonisation of our secular forest, colonisation destined to stay the tide of emigration of our youth towards foreign countries, shall not be the least object of my Legislative duties. To the cause of education I shall devote my constant solicitude. Useless to say that I am opposed and will ever be strongly opposed to the mixed school system. I shall ever be an indefatigable adversary of Representation based on the respective Population of the two sections of this Province. Such are, Fellow-Countrymen, my views on those important measures of public interest—questions of considerable moment on the solution of which greatly depends the prosperity of our common country. I have the honor to be, Jos. F. ARMAND. Riviere des Prairies, July 26, 1858.
