

A STERILE EYE BATH.—An eye bath fashioned from a single piece of aluminum has been introduced by the Kress & Owen Company. That this little device

GLYCO-THYMOLINE

EYE BATH

will be well received by the medical profession is not to be questioned when one considers the many points of advantage this metal cup has over the old style glass contrivance. It is cleanly, unbreakable, and can be sterilized instantly by dropping into boiling water. The surgical bag in the future will hardly be complete without one of these cups, which will give happy results in many an emergency. It will be found invaluable for treating ophthalmia, conjunctivitis, eye strain, ulceration, and all inflammatory conditions affecting the eye.

Directions.—Drop into the eye bath ten to thirty drops of Glyco-Thymoline, fill with warm water; holding the head forward, place the filled eye bath over the eye, then open and close the eye frequently in the Glyco-Thymoline solution. No pain or discomfort follows the use of Glyco-Thymoline. It is soothing, non-irritating, and reduces inflammation rapidly.

THE TREATMENT OF COUGH.—Cough, regardless of its exciting cause, is a condition that every physician experiences more or less difficulty in relieving. While the agents designed for its relief are numberless, it is a matter of common knowledge that but few of them are of general utility, for the reason that although they may be capable of effecting relief, in doing so they either derange the stomach, induce constipation, or cause some other undesirable by-effect. The ideal cough cure must combine sedative and expectorant properties without exhibiting the slightest system-depressant, gastric-disturbing, constipation-inducing, or palate-offending action. Nor should it contain any ingredient the prolonged use of which would cause a drug-habit. Then, too, it must be of sufficient potency to produce the desired effect with the utmost promptness, for in many instances the patient has indulged in self-drugging to a certain extent before consulting the physician; hence it is directly to the interest of the practitioner to demonstrate his skill by immediately relieving the disturbing condition. It is now universally conceded that Glyco-Heroin (Smith) is the ideal cure for coughs
