

Living Age, is apparently as young, vigorous and valuable as in its earliest years. The issue for October 1st, No. 2518, is the initial number of the 195th volume and appears in an entirely new dress. Its old, familiar drab-colored covers remain unchanged, but its interior has been transformed. With new, clear, and handsome type, and the great improvement noticeable in its general "make up," with its excellent paper and fine press-work, it compares favorably with any other magazine published. For such a publication its subscription price, \$8.00 per annum, is low, but by taking advantage of its clubbing rates, even better terms may be obtained. Send fifteen cents for a specimen copy, to Littell & Co., Publishers, Boston, Mass.... In the October *Atlantic Monthly*, Alexander Brown, author of the "Genesis of the United States," has a paper on "The English Occupancy of North America," and incidentally endeavors to put Captain John Smith back into obscurity.... The October number of *Century* is an admirable Columbus number. It has a fine portrait of that discoverer, and contains No. VI of Emilio Castelar's "Christopher Columbus." The Homeward Voyage.... *Garden and Forest* at this season makes its weekly visits very welcome by the many excellent hints it contains for the gardener and horticulturist.

Horsford's

ACID PHOSPHATE.
