

April 3rd 1924.
Pt. St. Charles.

Sir Arthur Currie.

Principal of Mc Gill University
Dear Sir.

I read in the star of March
26th the meeting held for this
terrible disease of (T.B.) now what
is the use when the Chief
Medical Officer Dr Boucher don't
send health officers around as
I haven't seen one since December
1922 now go down to the Luby
Hall to get a license for candy
store and then you put a
shoe shine in and then a
lunch counter for food where
all the dirt comes off those
broods on the food that nothing
to fight when it is allowed.
