

Purchases, Mortgages, Dower, Riparian Rights, Water, Ventilation of Mines, Support, Minerals under Railways, Highways, etc.

The Mining Acts of Ontario, Quebec, Nova Scotia, New Brunswick, British Columbia, and the Mining Regulations of the Dominion of Canada, including the Placer Mining Regulations in the Yukon District, are printed in full, with notes and comments.

The Book discusses the acquisition of mining lands or mining rights from the Crown, the tenure of same, the liability to forfeiture and Regulations in regard to working.

An important feature of the Book will be carefully prepared forms of Mining Options, Bonds, Contracts, Mortgages, Leases, etc., etc., and a carefully prepared Glossary of Mining Terms.

The work includes the Statute amendments to and inclusive of the Sessions of 1897, of the Parliament of Canada and the Legislative Assemblies of the Provinces of Quebec, New Brunswick, Nova Scotia, and British Columbia, and to and inclusive of the Session of 1897-8 of the Legislative Assembly of the Province of Ontario.

This being the only Canadian text-book on the subject, will, it is seen, be indispensable to those interested in mining affairs.
