y fine exhibition of pictures by a artists will be ready for the flow of the critics on Thursday blowing days at Messrs. Roberts a's art galieries. No. 79 Kingwest. This exhibition will be to all lovers of art. Early in the west and a peep at the rooms, and enabled to form a pretty good idea what the exhibition would be like. Walls were partfally covered and floor was littered with works of art liting to be ho, sted to va ant spaces we walls, but most of the principal stures were on view. Mr. Roberts and Mr. O'Brien /were regarding the eruits of their lebors with pardonable orde, as he men who were assisting in the hanging were struggling with the mass of unused material that had to be disposed of one way or the other. The above-named gentlemen have been fortunate to secure some magnificent works, and the pictures seem to be far above the level of high water mark. The exhibition, as a matter of fact, contains a large number of remarkable pictures, very attractive and of more importance than any exhibit we remember of seeing here, and that is saying a great deal. As a whole, it will compare favorably (although not so large) with any of the London exhibitions. It is truly representative of the English school of paintings, and includes many of the best things from the Royal Academy, Royal Institute, Walker. Art Gallery, Royal Society of British Artists, Institute of Painters in Oil Colors and other English exhibitions.

Dickson & Townsend to sell the entire collection by auction on Tuesday and Wednesday next, Feb. 25 and 26, but in the meantime we would suggest for all admirers of high-class pictures to visit the galleries, as it is a treat to view these fine pictures.

Decline of Lake Shipping

It is said that the cause of the decline of both Canadian and American lake shipping is found in the fact that some delay has occurred in the completion of the enlarging of the St. Lawrence Canals. Until these waterways are made of uniform depth with the Welland Canal, no new boats are likely to be built. A deputation from the Toronto, Port Arthur and Hamilton Boards of Trade is going to Ottawa to interview the Government in the matter. Decline of Lake Shipping

W.A.A. Lecture.

One of the most interesting of the art lectures under the auspices of the W.A.A. of Canada will be given on Wednesday by the Rev. Prof. Rand, late chancellor of McMaster University. The lecture will commence at 4 p.m., in the studio of the association, 89 Canada Life Building. "Some Suggestions for Art Study" is a subject which Dr. Rand, from his well-known interest in art, will no doubt handle in a masterly way.

A short road to health was opened to those sufering from chronic coughs, asthma, by health, catarri, lumbago, tumors, cheumatism, excented nipples or inflamed preasts, and kidney complaints, by the introduction of the inexpensive and effective remedy, Dr. Thomas' Electric Oil.

Loveriag drove into Lake Winterset to water the horses, As the animals were drinking they were selzed by their noses by alligators and pulled down. As the horses fell a dozen big alligators swarmed about the animale. Lovering had a rife and began firing at the alligators, trying to drive them away. The saurians made a rush for the wagon and wrecked it. Lovering, rifie in hand, fell near a big saurian, which seized the man by the calf of the right leg and tore it away. Although in agony, Lovering stuck the rifie against the 'gator's eye and fired. The bullet inflicted a mortal wound, but the dying alligator made a sweep with its tail that knocked at Lovering out of the water and on the beach. By this time two men, who were fishing near, reached the place and dragged Lovering to safety, as the allgators were making another rush for him. Lovering ware frightly injured, his right leg being broken in two places and several ribs fractured.
