The property committee of the pub c school board met to-night. Supervisor Wilson reported the side black-boards in the new addition to Weston-avenue school as being decidedly unsatisfactory, and an effort will be made to place the blame where it properly belongs. The supervisor exhibited two of Audubon's school charts, showing some fifty different kinds of Canadian birds, and suggested that a set be purchased for each of the schools. The committee adopted the suggestion, and sent the recommendation on to the board. Another suggestion was that each school be provided with a library, starting on a modest scale, but as the estimates have been sent in to council and dealt with it was not known whether the finances would warrant the new departure. No action was taken, but the matter will likely be dealt with at the meeting of the public school board on Tuesday evening. Tenders for sanitary sewers in connection with Carlton school and for some work at girls' entrance to Anhette-street school will be called for by secretary. isor Wilson reported the side black-
