

## WILLISON OFF TO LONDON TO CONSULT NORTHCLIFFE

Will Discuss Tariff Reform and  
Perhaps Take Hand in Im-  
pending Campaign.

J. S. Willison, editor of The Toronto News, goes to England on Dec. 8, and expects to be absent at least six weeks. What significance Mr. Willison's trip has is not definitely known, the many things recently have happened in Canada and Great Britain that seem to indicate that his presence in England will be hailed with joy by the tariff reformers.

On one hand, it is said that Mr. Willison, who for years has been the Toronto correspondent of The London Times, goes to London to consult Mr. Northcliffe, the new head of The Times, regarding a thorough reorganization of the paper. Perhaps he will return to Canada as The Times' ambassador, with greatly increased powers, even to dismiss, to supersede and employ. At present Fred Cook of Ottawa is the head of The Times in Canada. If Mr. Willison is called to higher things under Lord Northcliffe, something will be done in this direction, the Fred Cook is easily the premier newspaperman at the capital. Mr. Willison's thorough knowledge of journalism in Canada, gained by long experience, would fit him to lend valuable aid to the new owners of The Times.

Then, again, it is possible that Mr. Willison will take some part in the general elections that are about to be launched in the old land. It will not surprise his friends to hear of his addressing notable gatherings on the subject of tariff reform.

### CAPTAIN BERNIER THE HERO

Of Striking Demonstration at Majestic Music Hall.

Capt. Bernier, the Arctic explorer, arrived in Toronto last night and is staying at the Queen's.

The captain attended the performance at the Majestic Music Hall last night, when he was given a great ovation by the large crowd present. It was during the "turn" of Morrow and Sheldrake that his presence in the royal box was discovered. One of the men on the stage asked the other what he would do if he had a million dollars, and the reply came:

"It would be worth a million dollars if I had planted the British flag as near the north pole as Capt. Bernier did, and he accompanied this with a wave of the hand in the direction of the box. The audience caught on instantaneously, most of them rising to their feet and cheering wildly. The applause which greeted the explorer's name lasted for several minutes, till Capt. Bernier rose and bowed his acknowledgments.

Capt. Bernier will address the Empire Club this afternoon and at Massey Hall in the evening he will tell the story of his cruise in the good ship Arctic, when he planted the Union Jack farther north than it had ever before been seen.

The New Player-Plan.  
Anyone can play any music on a player-plan, if they have the perforated paper rolls, but it depends on the piano whether the music is good or poor. There is the greatest difference in these instruments and great care should be taken in choosing.

What is probably the most perfect player-plan made yet is the one manufactured by the Old Firm of Heintzman & Co. Their latest player has the aluminum action, an exclusive feature with them. The firm's handsome show-rooms are at 115-117 King-street West.

Parliament's Christmas Recess.  
OTTAWA, Dec. 1.—Parliament will adjourn for the Christmas holidays on Dec. 17 and will resume sittings on Jan. 10.

Lecture on Tennyson.  
William Houston will address a class at the Central Y.M.C.A. on Friday night on Tennyson's Autobiographical Poetry.

## RUPTURE

How To Treat It?  
By the Celebrated System  
of A. Claverie.

If you have tried all the known systems of trusses without having obtained any improvement and without having even found comfort and relief, there is still a chance for you to find what you seek, namely, health, strength and the end of your fears and of sufferings of all kinds. It is to adopt without any delay the method and appliances of Andrew Claverie, the celebrated European specialist.

His discoveries have the approval of the highest medical academies, and are thus backed by the scientific world. Such is the incomparable superiority of the method and appliances of Andrew Claverie, that they have been chosen by almost 1,000,000 sufferers in every country in the world.

One must note that Mr. Claverie is a man of science, both serious and frank, and who does not seek to mislead stupid people by splendid but false promises. His first care is to tell the truth. It is therefore safe to place oneself in his hands, with absolute confidence and with a certainty to find in him not only a specialist of wide experience but a true friend.

To anyone who will make the request immediately, he will send free the new edition of his "Treatise on Rupture," where information and advice of a most interesting nature will be found—interesting especially to you since it influences your health, your life.

Send your name and address to W. Claverie, 970 St. Denis-street, Montreal.
