COBALT---Mining Securities Depressed With Small Price Losses---COBALT

No Let-up of Realizing Sales And Cobalts Continue Weak

Small Losses Generally Registered by Mining Issues -- Renewal of Pool Support to Crown Reserve.

Thursday Evening, Jan. 20. Speculative interest shifted from Kerr take to Crown Reserve to-day and these latter shares were the centre of a bullish display which carried quo-tations considerably above previous 8.90, 100 at 8.92, 200 at 8.95, 100 at 8.95, 100 by local traders for the appreciation, but it was apparent that for some inexplicable cause the pool which has been operating in the stock on the explicable cause the pool which has been operating in the stock on the Montreal market renewed their support and the shares which were inquidated on the local exchanges were picked up by these interests. Prices to-day ranged between \$3.20 and \$2.55.

The bullish demonstration in Kerr Lake met its quietus at the close yesterday and the stock to-day continued on its downward course. Quotations were offe 13 points from yesterday's low price at one period, but recovered at the close, when the shares sold up to \$9.05.

Peterson Lake was but little influenced by the report of the settling of the dispute with Messrs. Steindler and Jacobs, and as generally seems to be the case, after the news came out, the shares were offered on a scale down. To-day's range of prices was between 25% and 24%, with quotations at the close around the bottom. The other Cobalts were generally easier than during the previous session, tho in no case was the loss of much moment. Beaver, City of Cobalt, Cobalt Lake—30 at 29%, 500 at 25%, 500 at

case was the loss of much moment.
Beaver, City of Cobalt, Cobalt Lake and some others were reactionary; Timiskaming was easy around 69; Nova scotia recovered to 46 in anticipation of an early settlement of the Peterson Lake litigation.

The market thruout gave no indication of any change from the heavy tendency apparent thruout the week. Liquidation seems to be the order of Liquidation seems to be the order of the control of the loss of the property of the control of the loss of th

Liquidation seems to be the order of the day and holders of mining issues are apparently seizing every opportunity to realize on their holdings, while been no signs of any let-up in this pressure. With such conditions governing values it is hard to see how any immediate change can be effected, tho it must be allowed that the reaction has extended to such volume that a recovery seems to a certain extent. recovery seems to a certain extent 59, warranted.

GOWGANDA AND ELK LAKE.

Editor World: Kindly inform your correspondent up here that the Blackburn mines are in the Gowganda diviscorrespondent up here that the Blackburn mines are in the Gowganda division, being situated about three miles
from this town and not near Elk Lake,
from which they are 28 miles distant.
These questions of vicinity are of no
importance outside, but your subscribers here like to see such statements
correct, or as near so as posible.

NEW GOWGANDA TIME TABLE The Transport Company Will Make

Service More Convenient.

SUDBURY, Jan. 20 .- (Special.) -From information received by The World, there is soon to be a re-artation Co.'s schedule that will greatly benefit both the Sudbury businessmen who have interests, mercantile and mining, in the mineral camps up north, and the prospectors and miners along rangement of the Gowganda Transportation Co.'s schedule that will greatly and the prospectors and miners along the line from Gowganda down. The change will be in the time of leaving Gowganda to come south. The time of the upward route needs no improvement. As it is you leave here on the C. N. R. at 7 a.m., and get into Gowganda about 9 p.m. In the morning ganda about 9 p.m. In the morning the stage leaves at 7 o'clock, coming back. This gives no opportunity or time to transact business. Every business place is closed when you land there and has not re-opened when you To accomplish anything you have to lose 24 hours.

For those coming down to Sudbury it is the same thing. They arrive here or even purchase supplies to any extanking the members and the secretent. If they contemplate a trip to tary for their loyal support. Toronto and feel like settling up something in town before they go, they W. F. Cockshutt gave a brief sketch-haven't time to much more than breathe of the work done at the recent conbefore the C. P. R. train is on its gress in Australia, and suggested that

Dividend Notice

on the Capital Stock of the Bank of two and one-half per cent. (being at the rate of ten per cent. per annum) for the quarter ending 28th February, has this day been declared, and that the same will be payable, at the Bank and its branches on and after 1st of March next. The Transfer Books will be closed from

the 21st to the 28th February, both inclusive. By Order of the Board, J. TURNBULL, General Manager.

SUGGESTS COMMISSION TO MANAGE WATERFRONT

President Gage of Board of Trade Favors Application to Legislature.

Many interesting points were touched on by J. P. Watson, retiring president of the board of trade, in his address at the annual meeting for the election of officers. He attributed the present era of prosperity to large crops, immigration, foreign capital, and the Jevelopment of natural resources.

He also referred to the tube plebiscite, which, he said, plainly evidenced the feeling of the citizens in regard to President Gage and W. F. Cockshutt manner in which they had represented Canada at the seventh congress of Chambers of Commerce in Sydney,

The Waterfront. President Gage made a decided hit when he came forward with the proposition that the city should apply to the legislature for power to appoint a permanent committee of business men to look after the city's interests along the Toronto had a tremendous asset in

Ashbridge's bay, and a permanent com-mission would ensure the careful working the whole of the waterfront from Ashbridge's bay to the Humber. Such a commission, he said, existed n Montreal, and its establishment here would be the means of carrying out a proper system of boulevards. Mr. Watson's Valedictory.

the conditions conducive to prosperity, how to retain them must be our care," said J. P. Watson in his valedictory. "We can do this by remembering that capital invested in Canada has its rights, which rights must be respected; that labor also has its rights, and is entitled to its share of our success." migration. He considered that in regard to this matter, we were face to
face with a serious problem. The ignorant immigrant of Europe knowing large, while, in addition, a number
hothing of civil rights, unable to distinguish between liberty and license, signified their intention of hearing the

WATER NO OBSTACLE

It is quite true that the Porcupine districts is a low-lying section, and is composed mostly of muskeg. In fact, it is, perhaps, the finest cedar district that is left to Ontario. But the lowness of the country will not deter men from getting out the gold that it is evident is there in large quantities. Water is one of the great difficulties that have to be contended with in any that have to be contended with in any mining camp. It is absolutely neces-sary to keep the water from filling

shafts and tunnels. The water question has to be coped with in nearly every camp, and engineers have been called in and have devised means to take care of the nulsance. At one time take care of the nuisance. At one time it was thought that the working of the mines at Cripple Creek, Colorado, would have to be abandoned by reason of water in the mine workings. The rich values of the camp acted as a spur to the owners, engineers were put to work, and at a tremendous expense a great underground tunnel was built below the level of the mine workings the street railway service. He thanked and the water is now carried into the

have to face the water problem they will call in engineers, and as has been the case elsewhere, some scheme will be devised whereby the water will be drained, and the working of what appears to be the richest gold mining distance. trict in North America will be car-ried on in the usual way.

Big gold discoveries have always been the forerunners of civilization, great gold fields of the west and scuthern states, "modernized" those districts, and the same is true of the Klondyke. Porcupine will not be the exception. The big gold finds in this

New Liskeard's Advantages. No town in Northern Ontario offers more or better advantages to the manufacturer than does New Liskeard. There are many excellent factory sites, clectric power for manufacturing purposes is cheap, and the transportation facilities are such that they will meet the demands of any one. New Liskeard is situated on the main line of the Timiskaming and Northern Ontario Railway, which line connects it with the towns and cities south includtowns and cities south, including those of older Ontario. It also connects it with the towns to the north as far as Cochrane, and from that point connection is made with the new Grand Trunk Transcontinental, east and west.

Lake Timiskaming is also another trade outlet for New Liskeard. A new dock is now being built at the mouth of the Wabi River out into the is a good boat service on Lake Timiskaming, and this means the towns along the lake are supplied, including many places on the Quebec side. George Weaver, who has control of nearly all the available property in New Liskeard, is offering some choice
