## THUNBERG TO RACE JEWTRAW SERIES AT LAKE PLACID TOD. Charlie Gorman To Act As Starter For Junior Finals Saturday CHICAGO STARS

# ARE INVITED TO SPECIAL MEET

Series Will Be Continued At Saranac Lake Monday

CHARLES JEWTRAW, the Lake Placid flash, and Clas Thunberg, of Finland, will open a series of match skating races at Lake Placid today and Saturday. On Monday the scene will shift to Saranac Lake for a two day

competition.

The matches will be on a six lap to the mile, free of the sharp turns which have impeded Thunberg's style in the events in which he has taken part since his arrival in this country. Other stars who will appear in the invitation meet are: Paul Forsman and Eddie Meyers, of New York; O'Neill Farrell and Eddie Murphy of icago and Herbert Deneshae of Ma-

While in Detroit, Willie Logan was invited to compete at Saranac and Lake Placid but declined owing to the long wait necessary at these places.
Logan is undecided about competing at the Toronto meet for the Canadian national title events but has practically settled on going to Pittsburg for the international indoor events there early in March early in March.

Charlie Gorman, world's amateur speed-skating champion, has not decided yet about Toronto but it is doubtful if he will compete there. Gorman, however, probably will go to the Pittsburg meet where Clas Thun-berg also is booked for exhibitions against time probably. The United States promoters realize that Thunberg cannot stand the man-to-man com-petition but as an exhibition skater against records, Thunberg has proven himself a remarkably good performer.

Julian T. Fitzgerald, he says, caused another uproar at the Detroit meet when as chief judge in one of the mile heats, he picked young Logan as fourth man when actually Logan and Farrell skated a dead heat, the veteran James Taylor, of Montreal, remarking at the time that it was one of the prettiest ties he had ever seen. It was not un-til Logan got in the dressing room and someone announced that he had not got into the final that the matter was checked up and Fitzgerald was forced

A SKATING FAN writes in to ask us the following question: "Would you be so kind as to advise us, if possible, just why Charles Jewtraw and Joe Moore are not competing in any of the skating meets this year and oblige a bunch of us at the 'Corner'." Frankly, we do not know any more about this than our questioner. For some reason or other, Jewtraw is holding himself aloof this yearthe first year he has been back on skates since winning the 500 metres at the Olympics. Jewtraw was sent to the Institute of Technology and after a course there, he entered the employ of an athletic goods' company and so far as we know he is with them yet. Jewtraw was asked to compete against Gorman, Thunberg and Moore at Madison Square Garden but declined. He declined to come down here for the world's meet. Jewtraw will skate a series against Clas Thunberg at Lake Placid this week. As for Joe Moore, we understand he works with an orchestra and can't get away to show the boys his stuff in the great outdoors. As to their real reasons for not competing, only they themselves could tell us accurately. But why worry about them? They are two pretty skillful gentlemen and quite able to look after themselves. You'll probably find Moore defending his indoor title at Pittsburg early in March. We understand the New York dates have been cancelled and the international will be staged this year at the Smoky City.

THE CRESCENTS-SAINT JOHN game last night set a dizzy pace at spots and then at times was ragged. The superb defence work of the visitors saved them time and again.

THE LAST FEW YEARS has witnessed a well-defined movement to stage finals for the Dominion basketball title and the news that this year's final in the men's division has been allotted to the east has aroused great interest. Certain dates have been set and it is necessary that the titles down here be decided promptly and without undue delay. Already, the Saint John league has decided its winner but so far no announcement has been made relative to play-offs for the New Brunswick title. So far as we are aware, the only league in the province that functioned successfully was the local one. Woodstock and Moncton, we understand, are arranging series between teams there now to play in the semi-finals. There is only two more weeks remaining in this month and in that period, if the schedule is lived up to, the New Brunswick title must be decided, leaving the period between March 1 and March 15 open for the Maritime title play-offs with the Eastern Canada semi-finals for the latter part of the month. Getting a provincial title decided in two weeks between three places be some job and we respectfully suggest to the proper authorities that this matter be given prompt attention. Saint John is ready. How about the others? The winners in the girls' section here also have won their right to play in the provincial finals. Saint John has a double chance this year for further basketball laurels and judging from the work of both teams this year, they will take some

BIG CROWD IS EXPECTED AT EAST END RINK

Keen Competition Expected in the Various Classes

FINAL arrangements for the grand finals of the junior eliminations under the auspices of the Saint John Skating Association on the East End rink tomorrow afternoon at 2 o'clock, have been completed and a big crowd is expected to see the juniors compete for what virtually amounts to city titles. The four sections of the city have held meets for classes from 10 years up and only the pick of the city will compete tomorrow, there being three entries from each section in the various classes, making 12 starters in each event. In the 18-year-old class, such promising youngsters as Tommy Tebo, Walter Miller, Robert Kelly and others will compete and as there is considerable rivalry among these boys, the competition should be keen.

GORMAN AS STARTER. Charlie Gorman, world's amateur champion, who is taking a keen interest in the junior skaters these days, will act as starter for the meet. The officials for the meet are: Referee—A. W. Covey.
