CITY HAS CLAIM FOR TRESPASS

Water and Sewerage Lands Invaded by Lighting Commission.

At a meeting of the city commissioners this morning Mayor Fisher reported that he had written to New Brunswick Electric Power Commission asking for further details about their bill of \$3,097.10 for services in connection with the plans and specifications for the city distribution system and something which would show the legal liability of the city to pay. A reply had been received in which there was no mention of the legal liability but certain notations had been made on the bill. It was also explained that in the items where Instruments Ltd., was mentioned this was the name of a firm from which the commission bought supplies. The communication was referred to the council.

Re a City Bill.

Commissioner Thornton expressed the opinion that as the Commission was so keen on collecting from the city, they should be billed for damages for trespassing on city lands in the Parish of Lancaster. Commissioner Wigmore said he had taken up the matter of trespassing on water and sewerage lands near Spruce Lake and had received an offer of \$1,885 in settlement. He was having the matter checked up to see if the damages claimed by the Commission were right and to find out if the payment offered was the same as received by other parties. The lands taken were 1,570 lineal feet in one place and 14,020 lineal feet in another.

Mayor Fisher reported that he had written the city solicitor asking him to confer with the council on the injunction matter. This met with the approval of the members of the council.

An invitation was received from the Exhibition Association for the council members to attend the official opening on Saturday night in a body and it was decided to accept.

A request for permission to install a gasoline tank on his premises, on Richey street, was received from E. E. Wetmore and referred to the Commissioner of Safety. Mr. Wetmore also wrote that the south end of the railing on the Stanley street bridge was without a support. Mayor Fisher said the latter was a matter for the C. N. R.

A request from G. A. Cameron to install an electric sign at 141 Charlotte street, was received from the Commissioner of Public Works, city engineer and city electrician.

The Barber of '57

Old Time "ad" Discloses St. John Conditions in Tonsorial Parlors.

The St. John barber of 1857 had no electrical appliances to operate on customers, but one of them had much more than a shave or hair-cut to offer. Here is his advertisement:

"Heffer's bathing, shaving, shampooing and hair-dressing saloon, No. 21 Germain street. Perfumery, fancy soaps, hair dyes, combs, brushes, etc., in great variety. Also Columbia hat and retail. Fishing rods, lines, flies, etc.—Richard Heffer.

"N. B.—Baths open every day, Sundays excepted, from 6 a. m. to 9 p. m." We can imagine the gallant of 1857 proceeding to Heffer's, taking a bath, getting a shave and shampoo, having a Columbia hat wash applied, getting a dash of perfume, and saluting forth to the conquest of the fair sex. Since Mr. Heffer dealt in angles' requisites, it may be assumed that fish stories regaled the waiting customers and turned their minds to rods and flies. It is also apparent that dyed hair was not regarded as an unusual phenomenon over sixty years ago."

THEY LIKE RING

That the new junior rowing champion, Grenville Ring, holds a high place in the regard of the officers and members of the Millville Summer Club was evidenced by the remark of a member this morning, speaking for the club. He said that Ring had the best wishes of the club and was to be complimented on the great race he had put up against McCavour and Logan. These two had been rowing for some years but Ring had been in his boat only a short while. The opinion was expressed that if he continued to improve next year as he has recently he would make the intermediate champion, Harry Giggy, look to his laurels.

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbean to The Times reporter, "I was talkin' yesterday to a feller from the North Shore. He says they haint been hollerin' about hard times fer quite a spell up there. Looks as if they was gittin' along fust-rate. The hay crop is short, an' the farmers thinks they orto get a low rate on the railroad to git a thousand ton or so to feed their stock. I don't believe the railroad 'ud be doin' a bad thing to help 'em out. Us farmers don't git any too much from anybody's hand. Mebbe that's one reason the towns draws so many away. The's a good deal in what that Prof. Riggs says—when he says if men could make money on a farm they wouldn't be so anxious to git away. An' I believe he's right. I've seen 'em in a science days—when it costs so much more'n it used to do to raise a crop an' git it into market. We don't send half enough fellers to them there agricultural schools. But I'm glad they're havin' good times up north in spite of the bad hay crop. It's good to know somebody's gittin' along well—kinder stiffens up your back-bone—By Hen!"

UP GOES PRICE OF MILK AGAIN.

The St. John householder will be called on to pay one cent per quart more for milk after the first of September, it was said this morning by J. N. Riley, president of the St. John Milk Dealers' Association, following a conference with a representative from the Milk Producers' Association of Kings County, at which it was agreed to pay the producers one cent per quart more from September 1 to May 1.

The meeting was held in Moose Hall and the producers were represented by M. W. Eveleigh of Sussex. Mr. Eveleigh said there had been several meetings and a number of the producers thought they should get 60 cents per eight quart can, F.O.B. shipping point, during the winter months. It was pointed out that this would mean an increase of two cents per quart to the consumer and a counter offer of 58 cents per can, F.O.B. shipping point, from September 1 to May 1, was made by the dealers.

Mr. Eveleigh said he thought this would be acceptable in view of the agreement contingent until the first of May, and the meeting adjourned. The new price will be fifteen cents retail, delivered at the house.
