C. P. R. 'PHONE DISPATCH LINE READY BY JULY

Work of Changing System Between Here and McAdam Has Been Begun

The work of changing the C. P. R. train operating system from the telegraph to the telephone is now in progress. The start was made on Wednesday of last week, under the supervision of F. J. Mahon, manager of the C. P. R. telegraph office and under the direction of the telephone system which will be made. Twenty men are at work in the city doing what is necessary before the stringing of the lines along the railroad and the installing of the 'phone system out of town will be begun. It is planned to have the new service in operation by July 1.

As before stated in the Times-Star, it is claimed for the telephone in connection with train dispatching, that greater accuracy is assured and there is also a marked gain in the speed in which orders may be transmitted and received.

Every van on the road will be equipped with the phone system and at any time can establish talking connection with any part of the division equipped. In addition to this there will be some forty odd stations with phones along the line.

BARK LIBELLED

Action Against the Emma R. Smith Taken Today on Behalf of Mobile Firm

Libelled today for an amount said to be \$2,400, the bark Emma R. Smith, which made a record long trip of three months from Mobile to St. John, recently, is in trouble again. The adventures of this square rigger read like fiction. Leaving Mobile some months ago with hard pine she met with mishap after mishap, having sails blown away, suffering loss of deck and encountering head winds and terrific weather all the time. With delays for repairs and because of the weather, she was four months on the trip.

Arriving here it was understood that the bark was in debt, but it was thought that her affairs had been so arranged that she might regain lost ground and she was loaded and ready to clear today for New York with a cargo of lumber, when Weldon & McLean, acting for the C. H. Costello & Co., of Mobile, libelled her for money owed and advanced in an amount understood to be about \$2,400.

From what can be learned this money was obtained when the vessel was in trouble, being required for repairs. Three masters in all she had charge of the bark since she left Mobile.

MRS. MARGARET BAILEY

A Tribute by the W. C. T. U. of St. John, North

On Sunday morning the flag at half-mast on Union Hall, told of the passing away of one who had been the greatest factor in its erection, one of the best known and best loved women in this part of the city—Mrs. Margaret Bailey.

When the wave of the temperance crusade reached St. John in the late seventies, she was one of the most enthusiastic of its followers, and with a band of kindred spirits she planned and had erected Union Hall, as a home for the W. C. T. U., and the public library, where for many years she was a leader in all its activities.

When she was nearing her eightieth year she planned a waspish fountain for charity travellers, and this work of mercy, which was taken up by the W. C. T. U., soon expanded into a proposition for our fallen heroes and the purchase of land for a park—the Riverview.

Possessed of wonderful executive ability, marvellous tenacity of purpose, a strong will and persuasive manner, she gave her whole time to this work, which will be her greatest monument. When the park and its interests were placed in the hands of a directorate and the union, on account of increasing years and decreasing revenues were obliged to give up this work, she still continued to work and plan for its benefit.

She was beloved and honored by the W. C. T. U., who solemnly mourn her loss, and feel that:

One whom we loved on earth is gone,
Gone to the realms of light and love;
Safe gathered with the heavenly throng,
In that best filler life above.

SPRING SUITS For Young Men and Youths Priced at \$5.50 to \$20.00

Supple, active, growing bodies, surmounted by youthful faces, necessarily need different clothing in style, pattern and cut from that made for full-grown men. Suits made for men of thirty, even if they fit, do not look well on youths of 16 to 18.

We wonder why so many Clothing stores have failed to notice this, but if you examine some of them closely, you will see that they have.

Long ago we found it out and we have been making young men and youths' clothing on a principle that a boy is entirely different from a small man.

We have even made a distinction between the youth and the young man.

We have a very comprehensive collection of Spring Suits, in scores of styles and patterns, that will show you in a few minutes why the Youths' Clothing Business is centering at Oak Hall.
