

EASON HAS BROUGHT

CUT GOOD BOWLERS

(Continued from page 1.)
 Altogether there were 105 games rolled, starting on April 2 and finishing last night. By not allowing on a team any two men that had rolled together previously, the management eliminated all the fast teams and enabled many of the new bowlers to make a showing. Many of the bowlers had never rolled in a match game before. This was the first tournament to be run in the city proper for some years, and the journey was well conducted.

The Standings
 The standing of the teams up to the end of the league is as follows:

Prize Winners

There are \$100 worth of prizes to be divided between the teams finishing in first, second and third position, and for the highest single and highest three strings (individual), and for the highest three string total rolled by any team. S. Downey was the prize for the highest single string with a score of 125, and H. McLean the prize for the three string total with a score of 304. The three string team total prize will be carried off by the Sweeps with a score of 1317.

On Black's Alley

The bowling season of 1910-11 was an especially busy one on Black's north end alley. The City League composed of eight

A PROMISING LIGHTWEIGHT FIGHTER

teams, was won by the "Tigers," last year's champions. This team fully deserved their victory as they rolled a very consistent game carrying an average of 1394 a game through the league. They also rolled the highest game of the league, 1370, which, however, is 47 pins behind their record of last year, 1417. The highest team single string was rolled by the Nationals, 450.

A. J. Machum of the Insurance team rolled the highest individual string of the league, 143 which is nine pins behind the alley record of 152. He also has the league record of 330, which is thirty-six pins behind the alley record of 366. H. C. Olive of the Nationals lead the league with the high average of 94.14.

The Commercial League, which also played on Black's alley, had one of the closest finishes to date. This league was composed of twelve teams from business houses in the city including the L. C. R. and C. P. Railways. This league contest was won by the T. McAvity & Sons team, the 4th place team of last year, which showed a decided improvement.

This league was fought out to the last week, with the McAvity, I. C. R. and C. P. Railways and C. P. R. teams all leading at different times and only a point or two separated them till the last week when the C. P. R. and Brock & Paterson teams were eliminated and T. McAvity and I. C. R. finished tie.

They were ordered by the league executive to play a series of three games to decide the winners. The McAvity team won the first game by a very narrow margin and the I. C. R. defaulted the second game, because of a dispute, thus giving the championship to the McAvity team.

The rolling in this league showed a big improvement over last season. Several new teams rolled in much better form as the season advanced than at the start. T. McAvity & Sons men rolled the highest game of the league 1347 and the M. R. A. team the highest string 484.

C. Labbe of the Waterbury & Rising team rolled the highest single string 129. D. Foshey of the McAvity team led the league with an average of 88.39, closely followed by A. Harrison of the same team with 88.28.

St. John Bowling Club

The St. John Bowling Club composed of sixty members met once a month on the alleys and enjoyed a very pleasant evening, as the contests were changed each night and were very interesting. The club wound up the season with a contest in which each received a prize ranging from a live lobster to a railroad tunnel, and a smoker.

The biggest bowling event of the season was the International Tournament. This was run on the alleys on March 28-29-30 and was the most successful ever held for the trophy. The teams taking part were the St. Croix Club of Calais, Browns of Calais, Woodstock, Chatham, M. C. A. Marathons and Blacks.

The Blacks Alley team composed of H. C. Olive, C. Lannan, T. Wilson, H. F. Black, H. McKean and A. Bailey retained the trophy but only after a strenuous fight with their rivals the St. Croix club. Chatham had beaten St. Croix, and St. Croix had beaten Blacks, so it was necessary to play a final game which was a thriller from start to finish, and was won by the Black team by the narrow margin of one pin. Altogether it has been one of the most successful bowling seasons that the Black's alley patrons have had for some time.

A PITCHER COMES BACK

Every team in the New Brunswick and Maine League will be busy this afternoon. Calais will play St. Stephen, and Woodstock will go to Fredericton and try and take a fall out of that fast bunch. P. E. McNeil will likely do the twirling and if he does the capital city nine will have to go seven knots. The Marathons and St. John will fight it out on the Shannon grounds, and there should be something doing. The latter team claim they can turn the trick on the Greeks, and will pitch Eatey, their new man from St. Stephen, in an effort to make Melony will probably perform for the Greeks.

Calais Beats Marathons

St. Stephen, N. B., June 16.—Calais defeated the Marathons on the Calais diamond yesterday by a score of 4 to 2. Giverson was pitcher and Nelson, pitcher, and Watt, catcher, for Calais. Tomorrow afternoon Calais and the Tides will meet on the St. Stephen diamond.

Next Week's League Games

The executive of the New Brunswick and Maine League met at Medford last night and got through with a few matters of importance to the league. The matter of placing a salary limit was discussed and it was decided to adopt one, the amount of which has not been given out. Messrs. Donald, of St. John, and Meyer, of Woodstock, reported on the importing of umpires, and their report will be further considered in a few days. Regarding the schedule, it has not all been agreed upon yet, it would seem, but the games for next week were fixed as follows:

Monday—At Fredericton, Fredericton vs. Woodstock.
 Tuesday—Marathons at Woodstock, Fredericton at Calais.
 Wednesday—At St. John, St. John vs. Calais.
 Saturday—At St. John, Marathons vs. Calais; Woodstock at St. Stephen.

THE ANKLET.

(Kingston Standard.)
 The anklet is the latest craze in jewelry. Mrs. Howard P. McCormick of Chicago has introduced the fad and a curio dealer in Atlantic City is offering anklets for sale, his circular reading:
 "This anklet will be the correct thing with all well dressed bathers this season. Call and see these of filigree silver, with or without extra ornamentation and made to fit any person."
 As the anklet was originally simply a badge of servitude, this is certainly a curious revival of a custom fallen into disuse for centuries.

Dandruff is the root of all evil. If it were not for the little destructive germ which causes dandruff, a man's hair would be a better cause, there would be no baldness. Seeds Back Watch.
 Al Benedict, the New York "ringer" who went to Boston a couple of months ago and under the name of Gene O'Brien of New York defeated King Serrino, Marathons' amateur boxing champion, an Army A. A. amateur boxing tournament, has realized that he did the wrong thing. The Army A. A. directors have received word from Leo Flynn, manager of Benedict, that the watch which was given to Benedict for winning the bout was on its way back to the club, and the watch arrived. It is likely to be given to Serrino, as provided for in the amateur rules and a short time ago, and the first advice he gave the boxer was to return the watch. Flynn convinced Benedict that the trick was a bad one, and he at once started to make amends.

A STRAUSS HEAVEN.
 Senator Dewar, at a recent dinner in New York, said of Richard Strauss's music:
 "To hear Strauss's 'Elektra' or his 'Domestic Symphony' always makes me think of the old pipe organ which I used to get. There were nineteen pipes, besides myself all in a wee bit parlor, all playing different tunes. I just thought I was in heaven!"

OPERA HOUSE.
 One of the big scenes in Stetson's Under Tom's Cabin, which will come to the Opera House next week, is the Swanee river by moonlight. By the aid of lately invented mechanical and electrical devices, actual scenes for miles along the stream, made famous in song and story, are unfolded to the eye in all their mid-summer beauty. The setting is said to be one of the most beautiful and realistic stage pictures ever produced. This marvellous singer of illustrated songs, will, he heard in "Love Among the Roses."
