The Watchman. A PARALLEL CASE.

method of indulging in "style" that he pays for it out of his own pocket. But here in Canada we have precisely the same sort of style,—the luxurious palace car, with its parlor and dining room, its bed

interest in co-operating with the manufacturers of New Brunswick. The following is a copy of a resolution recently adopted unanimously at a meeting of the St. Croix Farmers' League of Charlotte

It is getting daily more difficult to scare the farmers into antagonism to the manufacturers, as the Grit papers have been attempting to do by holding before them the bug-bear of excessive taxation as a consequence of Protection to home industries. We predict that every year, every day, will show more clearly, both to farmer and manufacturer, that their integers are identical, the content of the product of t

at office since the Local and Dominion Governments came into power. As an office we wish to ask it how many Reformers were appointed to office during all the twenty years John A. Macdonald was in power, The greed of these Torics is something to the Reformers who have witnessed the disposal of all the best offices under the Government, during the past three years, to dyed-in-the-wool Torics, will smile on reading this "Reform" reference to Tory greed. Torics and those who have been their allies for twelve or fifteen years past, have had the best of it under the Mackenzie Government, down here, however the same class has fared in Ontario. It has been a perfect Paradise for them. The land has flowed with milk and honey for them. But Liberals who battled for Responsible Government, advocated Railways, Confederation, Free Schools and all the other Liberal measures that have been fought over in New Brunswick in the last thirty years, find themselves out in the cold. Altogether, it has been a riotous time for the Tories, who form the bulk of Mr. Mackenzie's supporters in this counter "Tory creed" indeed!

respondent of the Halifax Chronicle, propounds the following problem to that paper: following problem to that paper:

Do you not think that the manufacturers of petroleum are well protected at the expense of a portion of the public? The duty on American oil is fifteen cents a gallon and thirty-eight cents on a package that will hold from thirty-six to forty-two gallons, thus making the duty on oil about sixteen cents, when American oil is selling in the United States for fifteen cents U. S. currency. The Canadian drummer informs us that he will let us have a prime article for forty-five cents per gallon. Now, if this is not an imposition, I do not know what to call it. On the other hand, if it is is to raise the revenue, why not place a duty on some article that is used in cities and towns as well as the country, so that every one will be served alike?

The editor of the Chronicle answered nothing. Had he answered freely and truly, he would have told this old marlinspike that the excessive duty on burning oil is maintained by the Reform Government of Canada in the interest of an Oil Ring that ment of Canada in the interest of an Oil Ring that has friends at Court.

That the Opposition, last session, endeavored to have this fifteen cents per gallon duty reduced to five cents, but the "Reform" Government and the "Reform" Party,—including all the Chronicle's

Scotia—opposed the reduction.

That the imposition of special taxes is a specia

evidences of prodigal expenditure; we have all these for the benefit of Mr. Brydges, a Government to the Patriot endorsing what "the good and noble servant; but Mr. Brydges does not pay for the Presbyterian editor" of the Eastern Chronicle says. e Government; mechanics and aborets and one of the charlottetown presbyterian,—arvation in this month of December, have been a work in which he is heartily joined by the infide

"THE ONLY REAL PORT."—While Halifax was nundering at the Government gates and demand-og recognition as the Winter Port of Canada, the

County:—

Whereas, the members of the St. Croix Farmers'
League are desirous of encouraging home manufactures, and particularly of agricultural implements; therefore

Resolved, that their desire is to recommend those manufactured by James Harris & Co., of St. John, N. B., to their brother farmers, as they can be purchased cheaper than in any other market and, which is of great importance, in the event of breakage, duplicate parts can be easily obtained, a full supply being kept constantly on hand at the agency of the above firm, St. Andrews, managed by Mr. W. B. Morris.

It was also unanimously voted that the above resolutions be published in the Telegraph.

It is getting daily more difficult to scare the farmers into antagonism to the manufacturers, as of the Meckenvia Government towards the North Mecken the Mecken the North Mecken the North Mecken the Mecken the North Mecken the North Mecken the North Mecken the Mecken the North Mecken the North

St. John N. B., December 19, 1872.

Mr. T. Graham,—Dear sir,—I have been for several years under particular obligation to you of for a bottle of your PAIN ERADICATOR. You, no doubt, remember having met me in Grand Manan about eight een months under the distress of a very lame knee, the result of a severe fall. I had present the head of "Pain Killer," etc., to no effect. Your one bottle cured me permanently, and I always praise the bridge that carries me safely over.

Yours, with gratitude,

GEORGE GARRATY,

NO. 34
