#### 121/2 Reasons Why Recovery From U. S. Panic Is So Slow.

panic. The most satisfactory feature, that the prolonged period of rest, about which we have been complaining for the/last three months, is having a ban-eficial effect. Distrust is construct is construct to the point of the prolonged period of rest, about the/last three months is having a ban-

the/last three months, is having a bon-eficial effect. Distrust is gradually vanishing, and the financial structure shows signs of incorrespondent to the point of extinc-tion. Because a few individuals play golf to harmful excess, would any same shows signs of increasing strength.
Even in the merchandise markets buy-ers are beginning to operate with more confidence, particularly where prf.
have been allowed to decline sufficient-buy ward movement. There are fewer shutshows signs of increasing strength. ward movement. There are fewer shut- sadly needs more sanity in their applidowns than a month ago; mills are resuming more freely; the number of unemployed is diminishing; failures, is so heavy in February as in January. In nearly all departments of business there are signs that depression is less acute, and that recuperative forces are steadily at work—only needing to be let alone to exert themselves more posi-tively and with greater benefit. Un-forzunately, the political situation is a sectous deterrent, and recovery is much handicapped by the intemperate and fraguent idiotic crusades carried on in 1.75 In nearly all departments of business 3.50 there are signs that depression is less

New Westminster. March 11.—At the bill," would not only injure New York, posed last year, it would have cost the members of the exchange do not bear drive business from New York, Boston Philadelphia and other cities to London, Montreal and elsewhere, to the loss of CORRUPT PRACTICES CHARGED. the United States in general. It would also work serious injury in other direc tions; it would destroy the free market be seriously deranged. This anti-speculation crusade is acompanied by many delusions and very mperfect ideas concerning the condi-

tions. Who is to decide which are speculative transactions and which are not? Business cannot be conducted without making contracts entering into the fu- room was filled with steam. There was ture, and that is speculation. The build-er who contracts to build you a home is punctuated by several terrific thumps New Westminster, March 11,—The agrees to deliver a thousand cases of chinery in the mill. When the steam teamer Beaver, which has been in cotton goods 60 days hence is dealing was shut off and the engine room atin futures, and all operations extending mosphere cleared a hurried examination into the future are unavoidably of a of the wreck in the semi-darkness speculative character. Even marries is often called a lottery. It is quite im-possible and thoroughly stupid to try to the bed of the engine cracked. It sub-sequently developed, however, that the sequently developed, however, that the sequently developed and the guides and sential element in all business transac-tions, except those for cash. If busi-bed in good shape, and that repairs

> vance of his income, excepting to comgitimate? Suppose circu mstances before his original purchase is com-pleted, is that legitimate? And in what respect does such a transaction differ the connecting rod and brought all the life to the highest national aspirations, oin the ordinary marginal contract? It may, perhaps, differ in intent; for the speculator usually buys with a view to taking advantage of temporary fluctuations. Yet, who would be bold enough to investigate the intentions of enough to investigate the intentions of buyers or sellers? Only the most dras-tic kind of force could compel divul-gence of such secrets, and is it impos-sible to establish any such system of espoinage in this country? Sneuletion as often stated in these

balance wheel of commerce and finance. By its means and through the conflict of opinion between buyers and sellers real values are established by simpler and more reliable means than by any other known methods. No government investigation will ever ascertain the real value of our railroads so well as the higgling and bargaining between buyers and sellers, which is alike the moving spirit of commerce and the ar biter of values on all stock exchanges the world over. Speculation is liable to be carried to excess, and abuses in speculative methods undoubtedly exist; but these are better corrected by a strong and elevated public opinion than through any legal measures based up-on political claptrap. There is a flood of nonsense in this campaign against luble bond. Seven years ago, when Auswhich speculation, anti-option. etc., does not find believers here but may New York, March 7 .- So far as Wall in other parts of the country. It c.m-Street is concerned, values seem to be really scratching bottom, and bad news how exerts little effect because the total methods by which crafty poli-strange to say, not only prominent Con-servative leaders, but the Labor parties really scratching bottom, and bad news how exerts little effect because the worst is generally known and has been amply discounted. The recent improve-ment in the money market is now hav-ing its effect upon securities; the bet-ter class of investments being firr.ly beld in view of the shundance and come held in view of the abundance and com- of agitation were the granger and pop- when the Commonwealth was proclaimparative cheapness of money. The re- ulist movement, which exhibited many ed. parative cheapness of money. The re-duction in the Bank of England rate to 3½ per cent. was also a helpful fca-ture, indicating improvement abroad and relief from the tension which de-valored warv score after our October veloped very soon after our October and misled. Even now this agitation, that, with all its faults, Federation is undertone on the stock exchange, ing with that restoration of confidence undertone on the stock exchange, coupled with various and scattered in-dications of reviving confidence. While duilness is not confined to the security and labor idle. Capital is proverblally duilness is not confined to the security markets, but prevails in all depart-

cation. Let us have peace! -Henry Clews.

> Alderman Wants Appropriation of \$32,500, or Recognised Restricted District.

meeting of the city council on Monday night Ald. Fader submitted a report in which he alleged that it would require members of the stock exchange fully between 40 and 50 extra police officers \$150,000,000; it would, likewise, have rewhich he alleged that it would require and an appropriation of \$32,500 to clear the city of women of immoral char-by loss of the \$6,000,000 taxes collected acter who were now scattered through under existing state laws. Since the the town. As an alternative he suggested the establishment of a recog-nized "restricted district." this expense, but place it upon their ustomers, the folly and the burden of such a tax is quite apparent. It would drive burdense for a way of the severely ommented upon and laid over for consideration at a later meeting.

Vancouver, March 11,-The court

will on Friday be asked to request John for securities upon which the banks Latimer Atkinson to vacate the reeve- loan large sums, and thus place a seriship of Sumas municipality. Elmer The latter has engaged the attorneygeneral to fight the battle for his retention of power. The chief objections upon which it will be urged that the election is void are that Mr. Atkinson changed the voters' list, wongfully adding names thereon and by reason of "corrupt practices, intimidation and undue influence." The court fixed Friday for the hearing of the case. ON CHILLIWACK RUN.

steamer Beaver, which has been in Victoria for several months undergoing a thorough overhauling, is back on the river, and will go on her run between this city and Chilliwack this week.

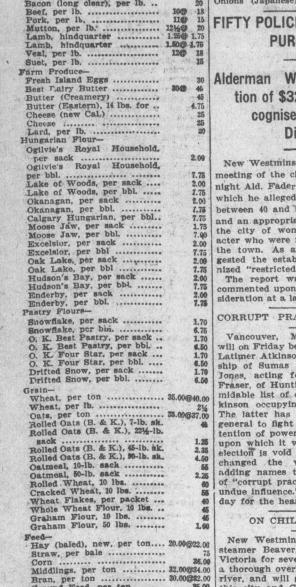

# If You Desire Better Complexion THIS WILL TELL THE WAY

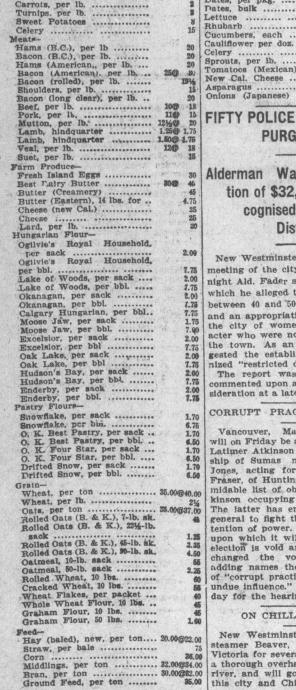

Who can gainsay that the joy and pride of every woman is a dainty com-plexion and a good figure. They attract attention, command respect and are coveted by all sensible women. If health is good, it's but natural for most women to have pleasing looks. But when the face is bloodless and the tears ever ready to flow, there is a dragging weakness somewhere that needs attention. Such was the case with Mrs. J. J. Perry, of Lindsay, Ont. She tells how

she turned sickness into health, how her good looks were restored. About ten years ago I was confined to my room for five months under the constant care of the doctor, suffering from weakness and female trouble, since then I have scarcely been able to get around, being always run down in fiesh, nervous and hysterical. My appetite and digestion became so poor that my strength failed entirely. A constant he adache, palpitation of the heart and sores at the corners of my mouth adde d to my burden. My druggist, Mr. Duncon, advised me to try Ferrozone. I used three boxes at first, and noticing an improvement, bought six more. I improved steadily and grew stronger each day. Finally Ferrozone cured me. I am twenty pounds heavler, I have a splendid appetite, and my complexion is everything that is desired. My heart trouble is gone, and to-day I am a strong, healthy woman, just what Ferrozone made me. My life was saved by Ferrozone, and I am glad to testify to its great merits.

Pale, weak women who are despondent and alling will find hope and new health in Ferrozone. It makes rich blood, braces the nerves, strengthens enfeebled organs. Ferrozone corrects stomach trouble, improves the appetite and brings color to the cheeks. Price 50c. per box or six boxes for \$2.50, at all ars It will pay you to use Ferrozone.

By Leon Brodzky in Pall Mall Gazette.

Federation is like the more domestic union of marriage. The young enthusiasts rush into it, while the staid elders hold up horrified hands and predict misfortune for those who have been rash enough to enter into an indissotralia became a united nation under the commonwealth, we had a numer-

Federation, I have said, is like mar anic. The most satisfactory feature, owever, is the gradually improving indertone on the stock exchange. the legislatures, is seriously interfertreated to the spectacle of some little tiff, the family of colonies is settling down to its new life with every feeling of satisfaction. The Australian people is beginning to realise the meaning of a federal system, which, it is to be feared, was far from being completely understood seven years ago. Those who have watched the Federal movement at first hand know that many people voted at the referendum for Federation believing that the new system was to be unification. The first disfilusionment came when it was discovered that, although there was to be a Common-wealth Government, with its own Legislature, the six States still retained their constitutions and all the machinerv of administration and legislation Then arose the cries of extravagance, and that a country of four million in-\*8.25 croases in railroad carnings were not 1.55 o heavy in February as in January. 1.75 In nearly all departments of the february as in January. 1.75 In nearly all departments of the february as in January.

then it's too late! Drive colds and catarrh right out of

ion, we may call a revolution. Since Federation we have had all kinds of difficulties to contend with, arising from the need of making uniform those departments for which Fed-eration was primarily called into existence. The federalisation of the Cusmidable list of objections to King At-kinson occupying the Sumas throne. The variation of the variable is and the whole present system of conducting considerable damage to the angine of portant undertaking when we rememery would be practically unsalable; and the whole present system of conducting financial and business operations would be seriously deranged business for the remainder of the week. Trade country. The New South Wales Several machine shops are at work people swore positively that they would be ruined if Protection were thrust upon them, but that State today is more prosperous than it has ever been, for not only has it been most benefited by the arrangement whereby each State receives back from the Commonwealth three-fourths, of its Customs revenue, but it has also seen undreds of factories spring up and. give work to thousands of people. The first tariff, inevitably containing a large element of compromise between high Protectionists and extreme Free Traders, has within the last few months been revised, so that the Australian manufacturer, with internal Free Trade and an effective tariff against the sider, is now quite satisfied that Fed-eration has been a good thing for him. tions, except those for cash. If busi-ness were reduced to the latter basis, it would soon become injuriously re-stricted and more exposed to corners and violent fluctuations than ever. between the set were the As to legitimate or illegitimate specu-lation, who is to decide between the two, and where is the line to be drawn?
