"VICTORIA" ROCK MARKED.

Quadra Locates Its Position and Plants a Temporary Buoy On 14.

D. G. S. Quadra returned on Seturday evening from a short trip to Trincomali channel, where Capt. Walbran had gone in pursuance to instructions from the lepartment in this city to find the rock on which the Victoria struck on the 6th inst., and to fix its position. This has been done, and Capt. Waltran has handed his official report to Capt. Gaudin, who will forward it without delay to the department at Ottawa, and will no doubt and showed a balance on hand of \$7, a shortly receive instructions to buoy the every favorable beginning. The secretlanger. A small buoy is at present teme tary brought up the cases of four chilporarily moored on the unchartered rock to show its position. The rock is three

and bears from the beacon on Walker rock southwest.

An interesting account is told of the secretary, Mrs. Gordon Grant, to be dealt with 1 to be dealt with 1 the election of officers was next taken in the merged rock by a resident of Salt Spring Island, who dives near where the accident occurred. The old man stated that the sand a friend were standing by a tree close to the water's edge, 500 yards from Fernwood wharf, when they saw the big steamer coming down Houston channel and then along the shore of Admiral or Salt Spring Island. She was turning the water up bravely, he said, and when opposite to them they heard a fearful crash and them along the shore of Admiral or Salt Spring Island. She was turning the water up bravely, he said, and when opposite to them they heard a fearful crash and the shore of Admiral or Salt Spring Island. She was turning the water up bravely, he said, and when opposite to them they heard a fearful crash and the shore of the component of the compone opposite to them they heard a fearful ash, and the ship went over on her side. She straightened up and the crew ran busily about the deck, carrying out various orders. There was a second crash, and the water was observed to fly from the deck like a fountain several feet in the air, and the screw stopped working. She slowly sank by the head and the onlookers were afraid that she was sinking. After settling considerably the engines were again started, and to their surprise the steamer was headed for shore, where, as previously stated, she was with the beached for examination, prior to being lows:
