15 in the Russo-Japanese war is in favor of Japan. This is a lack of proper anticipation in the interests of the white manit is an exhibition of the everlasting adsnarls bravely at the big dog. Leaving out of the question altogether the sub-112 ject of right or wrong on the part of May will relieve the steamer civilized peoples in the world to-day, viz.: the white and the yellow. It is appar-1 ent that China and Japan are as one if to march hand-in-hand against any op- of the season of 1904, the two vess own mightiness. The yellow peril is as much a reality to-day as it ever was; in fact it is more so, and as the years go by it will become more predominant. Imagine five hundred million Mongolians on the warpath against the rest of the eivilized world? In what direction would the revolution sweep? Undoubtedly to-wards Europe. Russia would be the first to feel the sting; she would be like a Chinese wall standing between Eu and the Celestial onrush; she would be a bulwark that would stand only for a time, which would be at last overcome by overwhelming odds. For this reason I think the rest of Europe has a good deal to hope for from Russia in the future. The time will come when China will be too small for the Chinaman-he will have to spread out, and as fast as they emigrate in such a manner who leave their native home can never return, for there will be no room for them. The influx of the Aryans into Europe from Central Asia in pre-historic times may be repeated in the case of rope that will hang himself when he moderized, civilized and Christianized of the line, which continues to do a good the Mongolian. If we look far enough business, despite the reports that it is ahead we can see the danger. The west soon to retire from the field. The Iyo becoming so pro-Mongolian that this tax may yet be abolished and the Chinaman be admitted free. They would then swarm in by the million until they equalled or even predominated the white recordation in this case, they would are the recordation in this case they would not be a seen to me, of the Russians getting within reach of them. They are kept pretty busy just now over at Port Arthur and Chemulpo." population, in this case they would not be content without a franchise. For all

these reasons I say "Vive le white man,"

THE KEELS FOR TWO HAVE BEEN LAID DOWN ing banks are those out a considerable

Will Be Adapted for Passenger Business -Victoria Will Be Ready April First.

Encouraged by the success of little steamers on the route last year, a couple Douglas street on Saturday afternoon and of enterprising Victorians have set to enjoyed what was probably their fastest | work to build two smart passenger boats run this season. The hounds pressed the hares very closely, only seventy-five yards separating them when the latter reached cover. The course was through Messrs. Tolmie's, King's and Glendening's lands. The keel for one steamer has been laid in a shed facing James Bay for J. Goodwhom were ladies. During the afternoon there were a couple of spills.

The keel for one steamer has been laid in a shed facing James Bay for J. Goodwin. It is 65 feet long and will have a beam of about 12 feet. It will be suptressed in the A. S. Capt. Wright was formerly a subaltern of the Royal Munster Fusiliers, which he joined in 1895. The were a couple of spills. plied with powerful machinery, and will be fitted in a cosy and elegant manner.

The second keel has been laid in an

other shed near Spratt's wharf. This vessel is being built by Capt. J. C. Strat-Mexican, was knocked out in the third round in a contest last night with Louie Long. The fight was to have gone 20 waters. The contain when th waters. The captain, when seen this keel on a sunken rock, and while the morning, said that his new vessel would damage is not serious, repairs will have MEET IN MARCH.

San Francisco, Feb. 13.—Jas. Britt and
"Young Corbett" have signed articles to fight on March 31st before the Hayes and that his new vessel would be the finest that has been seen on the Gorge run. Everybody's Magazine. REGIMENTAL ORDER. Changes in the Fifth-Artillery School

of Instruction. The following regimental order has 5,000 miner's inches, and will be uninbeen issued by Lieut.-Col. Hall, com-manding the Fifth Regiment:

Regimental Headquarters, Victoria, B. C., Feb. 13th, 1904. The following extract from G. O. 201. Dec. 22nd, 1903, is published for informa-

'Fifth British Columbia Regiment-Pro visional 2nd Lieut. E. R. Vigor retires, 7th Dec., 1903; to be provisional Lieut., M. B. Scarth, to complete establishment, 28th Provisional Lieut. M. B. Scarth, having

reported for duty, is posted to No. 6 Com-The following men, having been attested will be taken on the strength from the date hereafter mentioned, and will assume the regimental numbers opposite their respec-tive names: No. 266, Gr. Chas. R. Bachus, Feb. 1st: No. 268, Gr. Proctor S. Snyder,

The following man, having been granted his discharge, is struck off the strength: No. 205, Gr. H. Lawrie, Feb. 10th. The regiment will parade at the drill hall on Thursday. Feb. 18th, at 7.30 o'clock p.m. Staff and band will attend. Dress, review

order. Officers commanding companies will hand to the adjutant not later than the 24th inst. a list of those N. C. O.'s and men who are desirous of attending a regimental school of instruction in artillery under the R.G.A. Gallery practice for Friday, February 19th, is cancelled.

By order (Signed) D. B. M'CONNAN, Capt., BRIEF TELEGRAMS.

The United States state departmen has received a report by mail, under date of San Domingo, from United States Min-ister Powell, the second-class machinist of the American cruiser Yankee, on the morning of that date. The details furnished by the minister go to establish the fact that the killing was deliberate and unprovoked.

INVOLVING A LARGE OUTLAY IN CARIBOO

Water Supply.

John B. Hobson, manager of the Consolidated Cariboo Hydraulic Mining ment badge, and his clothes were marked | Company, has returned to the city from Times before he left, this trip was undertaken for the direct purpose of disposing works resulted in members of the city of interests he had in that state in order council seeing that the recommendations that he might re-invest in this province. of Capt. McSpadden, building inspector, The faith which Mr. Hobson has im had been carried out, and that now all British Columbia is not due to the fact that the company in which he is interby large audiences may safely escape in ested has given the shareholders great returns. On the contrary, the Consoli-Rev. C. W. Houghton, the newly-ap- dated Cariboo Hydraulic Mining Com-1894 the total expenditure by the comson. They were met at the station by Archdeacon Pentreath. Mr. Houghton 327.73, as shown by the books. In re-

But Mr. Hobson does not look to the mediate results. His long experience has taught him that in hydraulic mining corps in connection with the Vancouver is in store for the company once the College. The cadet corps, when organ- facilities exist for taking it out. The In the fifty-three days' operation this

year the mines yielded \$44,943.70. The returns, therefore, for the length of time of operation was most gratifying.

The company has in view the in-The company has in the stallation of a system of permanent water supply, which will enable work to be carried on throughout the whole open season. Hitherto the water has been conserved in large reservoirs fed from mountains of not more than 4,000 feet in height. The light snowfall and the

This will involve an immense expenditheir full share, but the Russians could pany will take advantage of water sheds not or would not keep the pace. After fed from mountains six thousand feet repeated attempts to get them to do so, high and giving a continual supply of Japan was obliged to ask Russia to with- water. These mountains are snow cap-

Japanese, so that the required speed could be made. The Russians halted and formed beside the read while the lake. It is intended to make it about Japanese infantry went by them on the double and the battery at a trot. From that time until the day's distance had been made, there was no more trouble about the failure of the advance guard to maintain contact with the enemy.—

There will be two miles of this. The freight on this, which has to be taken in by waggon, will amount to no inconsiderable sum.

This will provide a water supply of terrupted throughout the season. At the present time the supply is from 2,000 to 2,500 miner's inches, so that the results cannot be other than most gratifying. The preliminary work in connection with it will be carried out this summer, and Mr. Hobson expects to have the actual work done the following year soas to begin operations. With such a supply as this he believes that in one season he could wipe out the debit balance of over \$700,000, which appears on

The coming season promises to be much improved over the past years in consequence of the increased precipitaion. The latest advices show that there has been a fall of snow of 57 inches, and that already the reservoirs are half full of water. The fall of snow last year was only about a foot so that everything points to a very prosperous season for the company.

THE BLOOM OF HEALTH,

Little children always need careful attention—but they do not need strong drugs. When any ailment comes they should not be drugged into insensibility with the so-called "soothing" medicines, nor should they be given strong nauseous griping purgatives. The very best medine in the world for such troubles as colic, sour stomach, indigestion, constipation, diarrhoea, worms, colds, simple fevers and teething troubles is Baby's Own Tablets. If your little ones suffer from any of these troubles give them the Tablets and see how quickly they will bring back the bloom of health, Give the little ones an occasional dose of the Tablets and you will keep them well. Mrs. Robt. Hanna, Elgin, Ont., has proved the truth of these statements and says: "I find Baby's Own Tablets the best remedy for indigestion and teething troubles." The Tablets cost 25 cents a box, and may be had from druggists or by mail from The Dr. Williams Medicine Co., Brockville, Ont.

DEFAULTER IMPRISONED.

Oakland, Cala., Feb. 13.-Wm. A. Mc-Gowan, the defaulting secretary of the University of California, has been septenced to serve six years and eleven ponths in San Quentin prison.
