Between nine and ten o'clock this morning an alarm was rung in from box 12 for a fire in a house, No. 190 Brussels street, owned by George Earle and occupied by John Callaghan. The fire had started in a bureau in a bedroom and was put out easily, scarcely any damage being done.

There is an exhibition in the C. P. R. ticket office on King street a copy in the form of an apple which on one side bears an almost perfect resemblance to a human face. The features are quite distinct, and look like those of a very old man. The apple was picked up on the west side yesterday.

During the past week, says the Fredericton Gleaner, the price of hay has advanced from five and six dollars to nine and ten dollars per ton. Owing to the unreasonable price asked by farmers for their hay, whether good or bad, the hay press operators have decided to discontinue pressing for the present, as they cannot afford to pay the price asked for loose hay.

There are about thirteen fishing schooners being built on the La Have Lunenburg Co., N. S. Some of the builders say they have orders for a long time for their boats. It is said that the old shipyard in Bridgewater will soon be the scene of building operations. Owing to the increased cost of material and the advance in wages, the cost of building schooners is much greater now than last year.

THE MERRITT CASE.

In supreme court chambers before Judge McLeod, a summons was returnable this morning in the case of the London House Wholesale, Ltd., v. Puddington & Merritt, calling upon Mrs. W. Hawkesley Merritt to show cause why an execution for about \$5,000 obtained by her against Puddington & Merritt should not be set aside on the ground that it was fraudulent and void.

The plaintiffs had an execution issued for about \$500. On account of Mrs. Merritt's illness the case was not tried this morning. It is expected that an agreement will be reached whereby the debt may be paid in installments and the money until the summons is settled. Hamilton & Hamilton for the plaintiffs; C. N. Skinner, K. C., for the defendants.

THE SMALLPOX.

No New Cases—Another Death—To Have Another Epidemic Hospital.

This morning at two o'clock Bertrand Parker, 13 years old, of 35 Marsh street, died in the epidemic hospital. His death is the eighth since the outbreak of the disease. Lesterly Parker, a brother of the deceased boy, is in a serious condition.

In the General Public Hospital it is thought that an attempt will be made to have all the patients at present undergoing treatment, discharged from quarantine.

No new cases or suspected cases have been reported to the board of health since Saturday.

The committee of seven appointed yesterday by the municipal council, met this morning with the members of the board of health. The question discussed was the matter of procuring a building to be used as an additional epidemic hospital. It was decided to appoint a committee from the council and board to inspect desirable and available buildings and report tomorrow morning. Councillors Maxwell, McGoldrick and Lee, with Mayor Daniel and J. Ready were appointed for this purpose.

The prejudice in some quarters in Quebec province against vaccination is so pronounced, and increasing because for some reason it has caused more suffering and discomfort than usual, that a meeting of physicians of Quebec city has been called to consider the question.

The alleged smallpox case at Millstream, Kings Co., was a case of influenza. There are no new developments in that county.

NEARLY 1,100 CARS OF WHEAT.

The first large shipment of grain from the west left Fort William yesterday. A considerable portion of it will be shipped from St. John and is due to arrive here before noon on Sunday. Although grain has been arriving here for some time, no very large quantities have been received and this shipment will be practically the first of the grain export business for the season.

It may be interesting to state that wheat is carried over the C. P. R. in cars of three standard sizes. The smallest carries 66 bushels, the medium 1,000 bushels and the large new cars now being built will contain 1,466 bushels. At present, taking into consideration the number of cars of each size on the road, the average number of bushels carried per car is 850, and thus a shipment of 850 bushels of wheat such as left Fort William during the past two days would mean a string of nearly eleven hundred cars, or a train between six and seven miles in length.

POLICE COURT.

A Youth Who Had Too Much Johnson—Cows and Geese.

Walter Livingstone, his horse and wood wagon were gathered in on Brunswick street by Officer Totten between eight and nine o'clock last night. In the police court this morning Livingstone, who is eighteen years of age, said: "My father and I were left alone yesterday and I was left alone alone. I had a load of wood and sold it for seventy-five cents. Then I met a man who said he knew me and called me 'old chum.' I asked him who he was, and he said 'Johnson from Halifax,' and said he saw me there last spring. He had a bottle and asked if I was dry. Then he told me to drink some. 'No,' says I. 'Go ahead,' says he, and I drank some. Then I bought another load of wood, a feed of oats for the horse and my own supper and started out to look for more whiskey. But no one would sell me any and then I was arrested. I never saw Johnson before that I can remember, and I'll never take another drink."

The magistrate instructed the police to look out for the man who had given Livingstone the liquor. The prisoner was remanded.

John Deary, in spite of his name, wasted no time in getting loaded yesterday. He was arrested by Officer Scott on the north side of King square and this morning pleaded guilty to drunkenness. He was fined four dollars or ten days.

Charles H. Richardson and John McAllister of the north end were reported for allowing a number of cows to run at large on Sunday last, and John Foster for permitting eleven geese to invade the same amusement. The owners of the cows stood by and some boys had let down the bars, thus giving the animals a chance for liberty. The geese have all been killed. Fines of two dollars were imposed upon each of the men, to stand over until further information is obtained. The magistrate remarked that more reports of this kind came from the north end than from any other part of the city, and in that district geese seem especially abundant.

OPENED TODAY.

The first exhibition of the New Brunswick Poultry, Rabbit and Pet Stock Association opened this morning in St. Andrew's rink. The local exhibits were being put in place this morning and when the judges, H. W. Lacey, of Boston, and I. K. Felch, of Natick, are ready to commence their work all the exhibits will be in place.

The rink has been well fitted up for the purpose. Kennels for about one hundred and fifty dogs have been placed around the sides of the building, while the bird coops occupy the centre. There were present already about four hundred exhibits, two hundred and fifty birds and one hundred and fifty dogs. The latter vary in size from a black and tan that weighs about three pounds and a half, and is almost hidden behind a band of orange ribbon, to huge St. Bernards and mastiffs. There is an especially large exhibit of bull terriers, and some of these are handsome brutes.

From each of the one hundred and fifty or so kennels there arises a bark of different quality, from the yelp of the fox terrier to the deep bay of the big dogs. The terriers, true to their pugnacious instincts, are constantly endeavoring to raise a disturbance and are only frustrated by the shortness of the chain that keeps them in place. A few of the dogs are, despite the noise and excitement, putting in most of the time in comfortable repose.

The exhibit of dogs is an extremely creditable one, and is a good omen for the success of this and similar efforts on the part of the association in the future.

The poultry show is a good one. There is a large variety of birds and they are in good show condition. Quite a number have been sent in from outside. It is hoped that the exhibition will be well patronized.

TAKING THEM DOWN.

The fountain under the henhouse on stilts on King square is today being robbed of its superstructure.

The arch on King street will also soon be a thing of the past, as staging is today being erected for use in its removal. This morning after a portion of the staging had been erected it was found necessary to remove a number of the stays supporting it in order to permit the passage of a street car.

In doing this the whole of the staging became loosened and fell in a heap on a horse standing near. The animal paid not the slightest attention to the load thus summarily deposited on its back.

CANDIDATE FOR COUNCILLOR.

Edwin T. McKnight, a former well known resident of Fredericton, now a successful Boston lawyer of the firm of Eaton McKnight and Carver, is one of the five republican candidates for councillor in the Boston city council for ward 21, says the Fredericton Herald. Mr. McKnight is a native of Kings county, graduated at the university here in 1884, and for a time was principal of the Charlotte street school, Fredericton. He studied law at Harvard, and settling down in Boston about four years ago, has had remarkable success in his profession.

A ST. JOHN MAN.

William Fielders, a native of St. John and a brother of Mrs. W. H. Robinson, whose husband, formerly of Fredericton, is now in Fugwash, was interviewed by a newspaper correspondent in Montreal Saturday, and gave an interesting account of his South African experience. Mr. Fielders spent six years with Cecil Rhodes in South Africa, and will return there again after recovering from a fever which he contracted in that country.

SERIOUSLY INJURED.

A serious accident occurred at the I. C. R. station in Sydney on Monday evening, by which Alexander Guthrie of Perth Vale lost his right leg. The young man jumped off a car directly in front of a shunter. He was knocked down by the pilot and the shunter over his leg, severing it a little above the knee.

ARROSTOOK POTATO YIELD.

BANGOR, Nov. 18.—It is estimated by authorities that the Arrostock potato yield this year will reach figures at least thirty and perhaps fifty per cent larger than those of last year. On account of the high prices prevailing the early part of the season, when potatoes touched \$2.25 per barrel at Houlton, the starch factories did not consume as large a part of the crop as usual and the shipments of that article will probably show a slight falling off during the next few months. The entire crop this year, including potatoes for export, the starch factories and home consumption, is estimated to be between 10,000,000 and 15,000,000 bushels. The price asked of \$1.65 per barrel, which is the present figure, is a great advance over the price at this season last year, when potatoes brought only from \$1.30 to \$1.50. Up to date the railroad has carried nearly 500,000 more bushels than in the same time in 1900.

DIED AT WOODSTOCK.

Miss Ella Welch, who died recently at Woodstock, was a daughter of the late Robt. B. Welch of Dorsetshire, England, for many years a resident of Fredericton. She was a granddaughter of the late Col. R. D. Elliott of Wales. Miss Welch was born in Fredericton in 1823, and resided in Woodstock for the last thirty years. She leaves one brother, R. B. Welch of Woodstock.

THIRTY LOBSTER FACTORIES.

(Portland Press.)

W. H. Cole, representing Burnham & Morrill of Portland, was in Eastport last week after being located for a few weeks past at Grand Manan Island, N. B., where the above company is prominently interested in the canning of lobsters. Mr. Cole has gathered enough large sized herring to fill about 1,000 barrels, which will be salted and packed away for use among the lobster fishermen along the Nova Scotia shores during the early spring.

The company has about thirty large lobster canning factories along the Nova Scotia coast that are operated during the winter months. There was formerly a number of such canning plants on this side of the line, along the eastern coast of Maine, but the present lobster laws have caused the canners to move over to the Canadian soil, where they are allowed to put up a much smaller lobster than in Maine, but when the goods are packed they are shipped into Maine free of duty and sent to all parts of the United States.

BIG GAME SHIPMENTS.

BANGOR, Nov. 18.—On Monday the record of game shipped through here was 105 deer and four moose. The record since Saturday night was 20 deer and six moose. Many of the bucks in Monday's shipment were as fine specimens of Maine deer as can be found in the woods, and most of the fifty or more hunters were highly delighted at their luck.
