Sale of Fancy Vests

We have made radical reductions in the prices of our fine fancy vests, including patterns that have proven very popular during the last few months.

Prices were \$2.00, 2.50 to 3.50.
Now, \$1.00, 1.25, 1.50, 2.00

In other words, fully FIFTY PER CENT. out from the former very reasonable prices in most cases, and in ALL cases at least 25 per cent. to 30 per cent.

This is unquestionably a very exceptional opportunity for the selection of a fancy vest of pleasing pattern and exquisite work, at a fraction of its value.

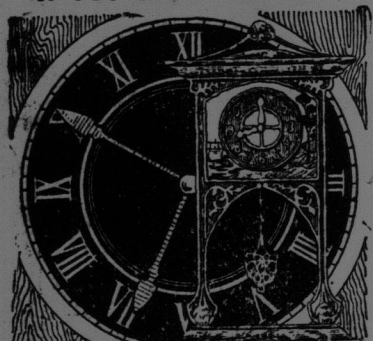

The line now includes a considerable number of designs and colorings. But brisk buying will soon deplete the stock—so call early.

The "MAB" Safety Razor is not only extremely simple and effective, but differs from most others in respect of the composition of the blades, which are made of a special brand of steel, similar to that used in the manufacture of the "MAB" Razor, ensuring a perfect and lasting edge, rendering stropping rarely necessary. When a blade requires stropping, the blade-holder provided should be used.
We have received shipment direct from manufacturers. Price with two blades, \$1.50. Extra blades 25c. each.

Protests are being made by residents of one of the most exclusive sections of the city regarding a small building on one of the corners. The building of the inmates are not pleasing to their neighbors and most frequenting the premises have been making more or less of a nuisance of themselves in the district. It is probable that the police will be asked to take a hand in the matter. Complaints have also been coming in from other residential districts regarding houses which might not bear too close a scrutiny.

CRITIC'S REPORT

IS ENCOURAGING

A Comparison of St. John's Efforts With the Last Dominion Fair at Halifax—Special Prize Offered.

In connection with the preparations for the Dominion fair the management of the exhibition are reading with interest a report made at the time the Dominion fair was held at Halifax, comparing it with the St. John exhibition of the same year, which has never been published.

The report was made by an independent critic, who had had considerable experience in exhibitions. He goes on in detail discussing the features of both fairs and points out that in practically every department except that of live stock St. John had a better exhibition. He found little at Halifax that had not been there other years, except a large showing of cattle from Ontario.

In spite of this, however, he found reason to blame St. John people for the extremely critical skill which they displayed with regard to their own fair, saying that in this way they created an atmosphere which made success extremely difficult.

The horse racing and other amusement features proved a strong drawing card at Halifax, and added greatly to the revenue, but the exhibitors were found to be complaining that these features were making so important that few people paid very much attention to the industrial and agricultural exhibits, and in this way the purpose of the fair was defeated. Halifax is much better off as regards accommodation for a big fair, but St. John was found to be using what accommodation they had to better advantage.

Taking it altogether this report is an encouraging one for the local management and with the improvements that are being made this year and the city that is being shown in the preparation there is little doubt but that the Dominion exhibition of 1910 will far surpass in real merit anything that has ever been held in the Maritime Provinces.

A large number of young ladies of the city churches will assist in the campaign which will take place on January 26, 27 and 28.
