GET ON THE LISTS.

MONCTON, N. B., Aug. 26.-The following circular has been addressed to active liberals in different parts of New Brunswick. A similar letter was sent out some time before the provincial election:

ST. JOHN, N. B., Aug. 10, 1899. Dear Sir-By an act passed at the last session of parliament the Domin ion Franchise Act was repealed, and, in future, elections for the parliament of Canada will be run on the electoral franchise lists provided by the direr-

ent provinces. The proper revising of the voters' lists is the first and perhaps the most important factor in the result of elections, and it is necessary that the libproper revision is made of the lists which are now being made up for the current year in the different counties as it is quite possible that the next election may be run on the lists now

being prepared. I enclose a brief summary of the act respecting the making up and revising of electoral lists in this province, with few simple instructions to you how to proceed, and wish that you would make it your business to see that the names of all voters who have, in the past, or are likely in the future, to ote with the liberal party, should be on the lists which are make up for yeur polling district, and no padding of the lists by our political opp be permitted. In this work it might be well to consult with any libera friends in the polling district, and ob tain their assistance in the work, but in no case fall to see that a proper revision of the lists is made on the day appointed by the revisors in October. If from illness or any other cause you should be unable to give the matter to his room as a result of his recent at-your attention, kindly hand this let-tack. His friends are glad to know ter and instructions accompanying it tack. His friends are glad to know (fer and instructions accompanying it that he is making progress towards re- to some reliable liberal in your district

Children Cry for CASTORIA CROWN LANDS SALE.

The Government Turn a Deaf Ear to the Operators,

And Compel Them in Self-Protection to B in Much Useless Territory.

FREDERICTON, Aug. 30.-There was a very large attendance at the big sale of timber licenses today, all the prominent lumber operators of the province being present. It was advertised that the sale would place this morning at 11 o'clock in the supreme court chamber, and at that hour a large crowd was present. E. H. Allen was on hand as auctioneer, but Surveyor General Dunn announced that the sale had been postponed until 2.30 p. m.

J. P. Burchill, M. P. P., then arose

and called a meeting of the lumber

men present, which was held forthwith. It became known vesterday afternoon that some of the leading lumbermen were not in favor of the government going on with the sale, and it looked for a time as if the sale might be blocked. Then Premier Emmerson, the surveyor general and their colleagues and the lumbermen had a conference. It was pointed out to the government that they were offering the lands for sale in an unfair way. Very much of the land put up was worthless for present use and would only be bought under pressure, such as a public competition of the kind for the purpose of protecting other lands held under lease. They admitted that some of the lands offered might be valuable nine or ten years honce, but held that it was unfair to the interests of their business that they should be compelled to purchase such land now and to pay the mileage, year in and year out, until it

was of service or valuable. The government, on the other hand, argued that having advertised the sale, it must take place: that the lumbermen should have presented their views or wishes before now if they were sincere, at least a week or so be fere the advertised date of sale. To withdraw now would be an admission

of weakness or of incompetency. There was another conference this morning, and the government decided that the sale would have to go on. At 2.30 this afternoon the old supreme court room was crowded to the dcors when Auctioneer Allen opened the sale. The earliest sales were: Head of Pimouet branch and Green river. 81-2 square miles-To A. F. Randolph, at \$34.50 per mile, West of North Branch Gounamitz

The sale was rushed along during the afternoon and resumed again this evening. So effective was the government's pressure that the list of 573 berths was finished by 10.30 p. m. The greater number of the went at the upset price or close thereto, but competition was keen in many lots and some went as high as

There were practically no bids on the lots lying in the southern section of the province. The total receipts will be in the vicinity of \$26,000 for over 2,000 square miles of territory. It was a spot cash sale.
