## Banish the Hand Pump

In primitive countries woman is regarded somewhat as a beast of burden. She is subjected to all sorts of drudgery, does practically all the work, and her lot is hard and discouraging. This custom is rightly regarded as inhuman and uncivilized.

### OBITUARY

#### Patrick Forrestall

Mr. Patrick Forrestall, at the age of 89 years, passed away at the home of his son, Mr. A. A. Forrestall, in Lower Middleton, on Saturday, September 9th, 1922.

He suffered a stroke about a fortnight previous to his death, and his departure to the Great Beyond, where pain and grief are no more.

Being well up in his 80s, the end was not altogether unexpected. Through his illness, he bore up with all the heart and firm belief, and during the last hours gradually passed away into a peaceful and everlasting sleep.

Kind and genial, he ceased had a great many friends, both old and young, who regret the demise of a man who always by a word of encouragement and pleasant greetings, and regarded every one as he would a brother.

Patrick Forrestall was born in East Dalhousie, Kings Co., and was a careful tiller of the soil, which occupation he followed until some twenty years ago. Sixty-four years ago he was married to Miss Ellen Gault, five children were born to them. The surviving ones being: A. A. Forrestall, Middleton; Mrs. Jas. Masters, Middleton; and Mrs. Fletcher Bent, Brooklyn.

Twenty-five years ago they came to Middleton, and about seven years ago his wife passed away. For nearly fourteen years, deceased, was watchman at A. W. Allen & Sons' mill. During the last two years his home was with his son, Aloysius.

The funeral service was held at Kingston Roman Catholic Church on Monday, September 11th, with Father Johnstone of Morden, officiating; and interment made in the church cemetery there.

"Tired" ah, yes, so tired dear, I shall surely sleep tonight, With never a dream and never a fear.

To wake in the morning light.

ON BEING A HOME-TOWN BOOSTER

Believe in Middleton and the town's future. Believe that Middleton is destined to be a much greater place than it is today. Believe that the great majority of people living in Middleton have an abiding faith in the town's future and in the Middleton of today. It is such faith that has made Middleton and it is this same faith that is going to continue to make Middleton a greater town.

Middleton is already a great place in which to live. If we were to look all around the world, none better could be found. When everything is considered none one honestly can say that any other town is a better place than Middleton.

For this reason, if you have any money to invest, invest it in Middleton. It is safer at home than it is any place else. Keep out of the clutches of the city-bred stock salesman who comes a distance and wants your money to invest in an enterprise, the merit of which you know nothing save what is told you by the man or men seeking to "separate you from your coin."

If you have any money to invest, think it over—and then invest in Middleton. Every resident of Middleton ought to be a booster for Middleton and local enterprises. Owning Middleton property will go a long way toward making all citizens a booster for the home town. Build or buy a home—and grow with Middleton, and enjoy to the full all the benefits of being a Middleton home owner.

### ENGLISH LANGUAGE DOMINANT

At present three-quarters of all the world's letters and postal packets are addressed in English, more than half the newspapers of the world are printed in English, while their circulation is quite three times that of all the periodicals printed in other languages. It is said that the only living language besides English which is growing with any rapidity is Spanish.

### WHO IS GOING TO SELL ROGERS' BATTERYLESS RADIO IN MIDDLETON.

A Canadian firm has effected the long awaited development in radio—the elimination of batteries and aerial in the operation of long distance sets. Everyone who has heard about the new Rogers' Batteryless Radio has admitted that it is a marvelous proposition—"If it works"—and IT DOES WORK. In the presence of the Toronto Star Radio reporter this new five-tube, tuned radio-frequency receiver, operating from an ordinary light socket and using no aerial or batteries, was demonstrated in a short time.

One of the first factory sets to come through was used in an apartment in Toronto which has a high tension power line at the rear, trolley wires and telephone wires at the front, and electrical machinery in the basement—about every handicap to good operation. The Rogers set was placed beside a set which many regard as the finest set heretofore on the market. The Rogers' set was simply plugged into an ordinary light socket, with no "A" Battery, with no "B" Battery, with no Aerial, whatever, and every station picked up on the other set was tuned in equally as well on the Rogers' set, and with less disturbance. As the evening wore on and the disturbance faded, even when using only four tubes, on a hot night in August, stations were tuned in all the way from New Orleans to Chicago without any aerial.

The Q. R. S. Music Company of Toronto, who are distributors for this product, are desirous of having it sold in Middleton by one of our better stores, and anyone interested in this might communicate with them. 14x

This series is entitled "Breeds from the West," and the first part in the new issue promises a number of hunting and outdoor yarns of the first water. A nature story of a more unusual nature for the magazine, Shuffepaw's First Fishing by H. R. Evans is a most graphic account of a young bear's first lone season.

In addition to the regular stories covering all phases of hunting, fishing, shooting and outdoor life, September Rod and Gun contains a large number of very good stories adapted to the late summer.

Rod and Gun in Canada is published monthly by W. J. Taylor Limited, Woodstock, Ontario.

### DICTATES OF COMMON SENSE

Buying away from home is a habit which usually does nobody any good, but the mail order house, buying at home is a habit which does a world of good to the buyer, the merchant and the home town. Why cultivate a bad habit when it is just as easy to acquire a good one and why continue a bad habit when there is a good habit which can easily be substituted?

Before town stores became so abundantly stocked there was some defense for the small order concerns with their diversified stocks. There was a time when the mail order houses were the only places where the residence of the small town and country could get all their needs supplied. But, today, your hometown stores can furnish all of man's needs and without delays, misunderstandings and uncertainty of satisfaction. Four essentials in buying are quantity, quality, favorable price and quick delivery. Your hometown merchants set the standard in all four of these essentials.

There are men and women who go to any store to buy all or part of their wants. They argue that they can save money and obtain better satisfaction, but brought down to the actual facts they usually admit that buying-out-of-town is only a habit, and an expensive habit at that. They like the leisurely shopping, the personal service and the realization of responsibility which characterize the local stores.

Big business buys its raw materials from the nearest source of supply. Every individual is a business in his self or herself. Thrifty buyers figure in the time, labor, transportation and market costs and buy accordingly. Then buy at home.

Always make it a point to buy from the advertiser in the local paper. Advertisers have the goods, and by their advertising solicit your patronage. Read the ads.
