

South America. A Journey across South America, from the Pacific Ocean to the Atlantic Ocean, by Paul Marcoy. *Illustrated by six hundred engravings, drawn by E. Riou, and twelve maps, printed in colors from drawings by the author.* In two large vols, bound in four half vols, super royal, 4to, cloth gilt, gilt edges, as new, 13.50. Lon., 1873. 3

"The engravings, their variety, their excellence, their interest have never been surpassed in a book of the kind. They illustrate manners and customs, natural scenery, accidents of adventure, popular superstitions, methods of sepulture, and we have no room to say what beside. But the interest of the work does not depend on its engravings, profuse and excellent as they are. The narrative is enthralling. Never has there been given to the world such a picture of South America, in its grandeur and its depravity. . . . Facts, traditions, superstitions, geology, geography, and anthropology, history, botany, and architecture, shoulder each other through the entrancing pages of this book, for which European science owes a deep debt of gratitude to M. Marcoy."—*Lon. Standard.*
