Ottawa, March 2, 1943.

J. L. Bryant, Indian Agent, Damsak, Saskatchewan.

We would appreciate if you would forward a further report in connection with lands leased by white people in the Valley River Reserve. You will, no doubt, recall that in your letter of December 14th you advised that where land was to be operated by white tenants this year, applications would be forwarded during the winter months. To date the applications have not been received and we are anxious that the matter be straightened out before the tenants ^{begin} crop the land.
