from Brompton & friends the
former of named alone made from
15 to 25 million since 1916.
and fourth the day was raining all
over the Province and roads impassible
to cars and there was not 40% of the
total rural vote got out & ^{close in vote of towns} ~~went Liberal~~
Had 10 days more been allowed from
the issue of writs to election date
and a fair day so rural vote could
get out the result would have been
far different In 21 constituencies
the Govt. Majority was from 20 to \$50 to 200
The Progressives assisted by Conservatives
would easily have won
There was an understanding quietly
that Conservatives assist progressives where
no Conservative was in the field and
visa-versa. Hence we won over many
progressives who will not go back to the
Liberal ranks That's why I think these articles
starting in yesterday's Star are inspired
in the hope of drawing a Herring over the
trail and make the Cons & Pros get farther
apart. Take good cheer you will win in a
walk next time they come to the Country
Hoping you are well Fair to good crops
Yours Truly William Robertson M.D.
