Canadian Production:	108,367,000 lbs.

## British Tariff:

Concentrated milks, unsweetened:	Free - 10%
Condensed, sweetened: (Duty based on sugar content).	2s. 6d. per cwt. (112 lbs.) 5s. 4d. plus 10% ad val. or if higher, 20% ad val.

Remarks: Canadian interest is largely in unsweetened product, but this is vital to the dairy industry of Canada.

Recommendation: 10% preference with B.P. rate free should be retained. Probably time will demonstrate the necessity of a greater preference for concentrated milks than for other dairy products.
